# 1 An abuse

How to make an **abuse** in 9 easy steps:

## 1.1 Materials

- 4.88 ounces of ill-usage
- 2.49 ounces of drug
- 12.68 ounces of neglect
- 14 shames

## 1.2 Tools

- Hammer
- Centrifuge
- Vessel
- Crayon

## 1.3 Instructions

1. Wait.
2. Put **12.68 ounces of neglect** into the rotating centrifuge.
3. Stir the vessel.
4. Crack **2.49 ounces of drug** with the hammer.
5. Stop the centrifuge and retrieve the **26.58 spoonful of centrifuged mixture "neglect"**.
6. Draw a magic circle on the floor using the crayon.
7. Draw a cross into the circle and place **4.88 ounces of ill-usage, 2.49 ounces of cracked drug, 14 shames** and **26.58 spoonful of centrifuged mixture "neglect"** on each corner.
8. Whisper the following spell: "Diptychoos!"
9. Suddendly, an **abuse** will appear inside the circle.

## 2 An ache

How to make an **ache** in 11 easy steps:

### 2.1 Materials

- 1.46 ounces of pain
- 5.07 ounces of ear
- 4.23 spoonful of back
- 6.7 spoonful of muscle

### 2.2 Tools

- Centrifuge
- Cauldron
- Bonfire

### 2.3 Instructions

1. Put **4.23 spoonful of back** into the rotating centrifuge.
2. Put **1.46 ounces of pain** into the bonfire.
3. Let the cauldron cool down.
4. Fan the flames of the bonfire.
5. Put **6.7 spoonful of muscle** into the cauldron.
6. Wait.
7. Stop the centrifuge and retrieve the **33.69 spoonful of centrifuged mixture "back"**.
8. Pour out the mixture from the cauldron to get the **27.91 spoonful of cauldron mixture "muscle"**.
9. Retrieve the **2.68 spoonful of ashes of "pain"** from the bonfire.
10. Fold the **5.07 ounces of ear**, **33.69 spoonful of centrifuged mixture "back"**, **27.91 spoonful of cauldron mixture "muscle"** and **2.68 spoonful of ashes of "pain"** together using advanced origami techniques.
11. If you've done it correctly, it might result in an **ache**.

## 3 An achievement

How to make an **achievement** in 10 easy steps:

### 3.1 Materials

- 5.03 spoonful of accomplishment
- 75.75 ounces of survival
- 63 recognitions
- 9.16 ounces of capability

### 3.2 Tools

- Bucket with hot water
- Bonfire
- Tape

### 3.3 Instructions

1. Hold **75.75 ounces of survival** briefly into the bonfire to burn them a bit.
2. Wait.
3. Fan the flames of the bonfire.
4. Put **9.16 ounces of capability** into the bonfire.
5. Put **5.03 spoonful of accomplishment** into the bonfire.
6. Wait for a minute.
7. Hold **75.75 ounces of slightly burned survival** briefly into the bonfire to burn them a bit.
8. Dip **63 recognitions** into the bucket with hot water.
9. Retrieve the **1.92 ounces of ashes of "capability and accomplishment"** from the bonfire.
10. Use tape to join the **75.75 ounces of burned survival**, **63 wet recognitions** and **1.92 ounces of ashes of "capability and accomplishment"** together into the shape of a passable **achievement**.

## 4 An adjustment

How to make an **adjustment** in 3 easy steps:

### 4.1 Materials

- 7.01 ounces of attitude

### 4.2 Tools

- Centrifuge
- Screws

### 4.3 Instructions

1. Put **7.01 ounces of attitude** into the rotating centrifuge.
2. Stop the centrifuge and retrieve the **49.56 spoonful of centrifuged mixture "attitude"**.
3. Use screws to join the **49.56 spoonful of centrifuged mixture "attitude"** together into the shape of a usable **adjustment**.

## 5 An adolescent

How to make an **adolescent** in 13 easy steps:

### 5.1 Materials

- 29.11 spoonful of teenager
- 2.46 spoonful of delinquent

- 59.51 ounces of student

### 5.2 Tools

- Centrifuge
- Cauldron
- Fireplace
- Hammer
- Pet hummingbird
- Tape

### 5.3 Instructions

1. Feed **29.11 spoonful of teenager** to your pet hummingbird.
2. Put **1 puberty** into the cauldron.
3. Stir the cauldron.
4. Let your pet hummingbird sniff at **59.51 ounces of student**.
5. Put **59.51 ounces of student** into the cauldron.
6. Crack **2.46 spoonful of delinquent** with the hammer.
7. Hold **2.46 spoonful of cracked delinquent** briefly into the fireplace to burn them a bit.
8. Put **2.46 spoonful of cracked and slightly burned delinquent** into the rotating centrifuge.
9. Wait until your pet hummingbird poops. Receive **1.23 ounces of a very dirty pile of "teenager"**.
10. Fan the flames of the fireplace.

11. Stop the centrifuge and retrieve the **9.86 ounces of centrifuged mixture "cracked and slightly burned delinquent"**.
12. Pour out the mixture from the cauldron to get the **2.27 spoonful of cauldron mixture "puberty and student"**.
13. Use tape to join the **1.23 ounces of a very dirty pile of "teenager", 9.86 ounces of centrifuged mixture "cracked and slightly burned delinquent"** and **2.27 spoonful of cauldron mixture "puberty and student"** together into the shape of a beautiful adolescent.

## 6 An alike

How to make an **alike** in 12 easy steps:

### 6.1 Materials

- 18 vague notions of being opposite
- 4.6 ounces of similarity
- 60.46 ounces of share
- 3.13 ounces of relativity

### 6.2 Tools

- Centrifuge
- Bucket with clean water

### 6.3 Instructions

1. Put **18 vague notions of being opposite** into the rotating centrifuge.
2. Stop the centrifuge and retrieve the **8.67 spoonful of centrifuged mixture "being opposite"**.
3. Dip **60.46 ounces of share** into the bucket with clean water.
4. Put **60.46 ounces of wet share** into the rotating centrifuge.
5. Stop the centrifuge and retrieve the **7.05 ounces of centrifuged mixture "wet share"**.
6. Wait for a very short time.
7. Dip **8.67 spoonful of centrifuged mixture "being opposite"** into the bucket with clean water.
8. Throw **7.05 ounces of centrifuged mixture "wet share"** away.
9. Put **4.6 ounces of similarity** into the rotating centrifuge.
10. Stop the centrifuge and retrieve the **36.21 ounces of centrifuged mixture "similarity"**.
11. Dump the **3.13 ounces of relativity**, **8.67 spoonful of wet centrifuged mixture "being opposite"** and **36.21 ounces of centrifuged mixture "similarity"** into a pile on the floor.
12. Wait until they magically transform into an **alike**.

## 7 An alley

How to make an **alley** in 12 easy steps:

### 7.1 Materials

- 17 bowls
- 2 clear concepts of being dark
- 9.77 spoonful of lane
- 10 shadows

### 7.2 Tools

- Centrifuge
- Bonfire
- Hammer

### 7.3 Instructions

1. Fan the flames of the bonfire.
2. Put **17 bowls** into the rotating centrifuge.
3. Put **2 clear concepts of being dark** into the bonfire.
4. Speed up the centrifuge.
5. Stop the centrifuge and retrieve the **12.53 ounces of centrifuged mixture "bowl"**.
6. Put **12.53 ounces of centrifuged mixture "bowl"** into the rotating centrifuge.
7. Put **9.77 spoonful of lane** into the bonfire.
8. Smash **10 shadows** with the hammer.
9. Stop the centrifuge and retrieve the **3.1 ounces of centrifuged mixture "centrifuged mixture "bowl"**.
10. Retrieve the **49.33 ounces of ashes of "being dark and lane"** from the bonfire.
11. Fold the **10 smashed shadows, 3.1 ounces of centrifuged mixture "centrifuged mixture "bowl"** and **49.33 ounces of ashes of "being dark and lane"** together using advanced origami techniques.
12. If you've done it correctly, it could result in an **alley**.

## 8 An alone

How to make an **alone** in 13 easy steps:

### 8.1 Materials

- 4 vague notions of being afraid
- 7 vague notions of being private
- 5 companions
- 45.35 ounces of apart

### 8.2 Tools

- Bonfire
- Freezer
- Vessel
- Centrifuge
- Bucket with clean liquid

### 8.3 Instructions

1. Heat the vessel.
2. Put **45.35 ounces of apart** into the vessel.
3. Dip **5 companions** into the bucket with clean liquid.
4. Put **7 vague notions of being private** into the freezer for a while.
5. Put **5 wet companions** into the rotating centrifuge.
6. Fan the flames of the bonfire.
7. Put **7 cooled vague notions of being private** into the vessel.
8. Stop the centrifuge and retrieve the **2.83 ounces of centrifuged mixture "wet companion"**.
9. Fan the flames of the bonfire.
10. Hold **4 vague notions of being afraid** briefly into the bonfire to burn them a bit.
11. Pour out the mixture from the vessel to get the **5.23 spoonful of vessel mixture "apart and cooled being private"**.

12. Fold the **4 slightly burned vague notions of being afraid, 2.83 ounces of centrifuged mixture "wet companion" and 5.23 spoonful of vessel mixture "apart and cooled being private"** together using advanced origami techniques.
13. If you've done it correctly, it should result in an **alone**.

## 9 An alternative

How to make an **alternative** in 11 easy steps:

### 9.1 Materials

- 7.99 spoonful of dissent
- 4 options
- 101 anothers
- 49.5 spoonful of choice

### 9.2 Tools

- Cauldron
- Purifier
- Bucket with hot water
- Pet dog

### 9.3 Instructions

4. Feed **49.5 spoonful of choice** to your pet dog.
5. Let your pet dog sniff at **101 anothers**.
6. Purify **4 wet options** with the purifier.
7. Wait for a day.
8. Pour out the mixture from the cauldron to get the **14.09 spoonful of cauldron mixture "dissent"**.
9. Wait until your pet dog poops. Receive **5.75 spoonful of a very dirty pile of "choice"**.
10. Fold the **4 wet and purified options, 101 anothers, 14.09 spoonful of cauldron mixture "dissent"** and **5.75 spoonful of a very dirty pile of "choice"** together using advanced origami techniques.
11. If you've done it correctly, it might result in an **alternative**.

## 10 An ankle

How to make an **ankle** in 11 easy steps:

### 10.1 Materials

- 36 wrists
- 46.28 spoonful of rick
- 1.3 ounces of elbow
- 6.2 ounces of strain

### 10.2 Tools

- Vessel
- Fireplace

### 10.3 Instructions

1. Hold **6.2 ounces of strain** briefly into the fireplace to burn them a bit.
2. Hold **36 wrists** briefly into the fireplace to burn them a bit.
3. Fan the flames of the fireplace.
4. Hold **46.28 spoonful of rick** briefly into the fireplace to burn them a bit.
5. Stir the vessel.
6. Let the vessel cool down.
7. Heat the vessel.
8. Put **6.2 ounces of slightly burned strain** into the vessel.
9. Pour out the mixture from the vessel to get the **35.12 spoonful of vessel mixture "slightly burned strain"**.
10. Dump the **36 slightly burned wrists, 46.28 spoonful of slightly burned rick, 1.3 ounces of elbow** and **35.12 spoonful of vessel mixture "slightly burned strain"** into a pile on the floor.
11. Wait until they magically transform into an **ankle**.

## 11 An answer

How to make an **answer** in 15 easy steps:

### 11.1 Materials

- 15.46 ounces of decision
- 24.71 ounces of solution
- 114.71 spoonful of meaning
- 28 exclamations

### 11.2 Tools

- Hammer
- Saw
- Centrifuge
- Bucket with ice-cold liquid
- Silverpoint pen

### 11.3 Instructions

1. Crack **15.46 ounces of decision** with the hammer.
2. Use the saw to slice **28 exclamations** into bits.
3. Wait.
4. Dip **24.71 ounces of solution** into the bucket with ice-cold liquid.
5. Put **114.71 spoonful of meaning** into the rotating centrifuge.
6. Wait for a rather long time.
7. Smash **15.46 ounces of cracked decision** with the hammer.
8. Put **15.46 ounces of cracked and smashed decision** into the rotating centrifuge.
9. Use the saw to slice **24.71 ounces of wet solution** into bits.
10. Crack **28 sliced exclamations** with the hammer.
11. Stop the centrifuge and retrieve the **42.68 spoonful of centrifuged mixture "meaning and cracked and smashed decision"**.
12. Draw a magic circle on the floor using the silverpoint pen.

13. Draw a triangle into the circle and place **24.71 ounces of wet and sliced solution, 28 sliced and cracked exclamations** and **42.68 spoonful of centrifuged mixture "meaning and cracked and smashed decision"** on each corner.
14. Chant the following spell: "Inputo adatus praemictius, iliutus!"
15. Reluctantly, an **answer** will appear inside the circle.

## 12 An antenna

How to make an **antenna** in 11 easy steps:

### 12.1 Materials

- 82.0 spoonful of antler
- 4.91 spoonful of antlers

### 12.2 Tools

- Purifier
- Container
- Saw
- Fireplace

### 12.3 Instructions

1. Fan the flames of the fireplace.
2. Wait.
3. Hold **4.91 spoonful of antlers** briefly into the fireplace to burn them a bit.
4. Put **82.0 spoonful of antler** into the fireplace.
5. Purify **4.91 spoonful of slightly burned antlers** with the purifier.
6. Let the container cool down.
7. Use the saw to slice **4.91 spoonful of slightly burned and purified antlers** into bits.
8. Wait for a short time.
9. Retrieve the **14.37 ounces of ashes of "antler"** from the fireplace.
10. Fold the **4.91 spoonful of slightly burned, purified and sliced antlers** and **14.37 ounces of ashes of "antler"** together using advanced origami techniques.
11. If you've done it correctly, it might result in an **antenna**.

## 13 An architect

How to make an **architect** in 13 easy steps:

### 13.1 Materials

- 32 contractors
- 9 designs
- 3 landscapes
- 5 builders

### 13.2 Tools

- Bucket with hot water
- Familiar hummingbird
- Container
- Saw

### 13.3 Instructions

1. Stir the container.
2. Let the container cool down.
3. Use the saw to slice **5 builders** into bits.
4. Dip **32 contractors** into the bucket with hot water.
5. Let your familiar hummingbird sniff at **32 wet contractors**.
6. Feed **32 wet contractors** to your familiar hummingbird.
7. Let the container cool down.
8. Heat the container.
9. Dip **5 sliced builders** into the bucket with hot water.
10. Feed **5 sliced and wet builders** to your familiar hummingbird.
11. Wait until your familiar hummingbird poops. Receive **9.88 spoonful of a very dirty pile of "wet contractor and sliced and wet builder"**.
12. Dump the **9 designs, 3 landscapes** and **9.88 spoonful of a very dirty pile of "wet contractor and sliced and wet builder"** into a pile on the floor.
13. Wait until they magically transform into an **architect**.

## 14 An asia

How to make an **asia** in 7 easy steps:

### 14.1 Materials

- 25.91 ounces of orient
- 8 chinas
- 22.47 spoonful of africa
- 10.27 spoonful of europe

### 14.2 Tools

- Centrifuge
- Familiar unicorn

### 14.3 Instructions

1. Pet your familiar unicorn.
2. Put **22.47 spoonful of africa** into the rotating centrifuge.
3. Let your familiar unicorn lick **8 chinas**.
4. Stop the centrifuge and retrieve the **13.18 spoonful of centrifuged mixture "africa"**.
5. Let your familiar unicorn sniff at **8 licked chinas**.
6. Fold the **25.91 ounces of orient**, **8 licked chinas**, **10.27 spoonful of europe** and **13.18 spoonful of centrifuged mixture "africa"** together using advanced origami techniques.
7. If you've done it correctly, it could result in an **asia**.

## 15 An asphalt

How to make an **asphalt** in 12 easy steps:

### 15.1 Materials

- 37.73 spoonful of tar
- 3.9 spoonful of concrete
- 7 driveways
- 1.03 spoonful of pavement

### 15.2 Tools

- Mortar
- Bonfire
- Purifier
- Electric paint

### 15.3 Instructions

1. Purify **37.73 spoonful of tar** with the purifier.
2. Wait for a rather short time.
3. Smash **3.9 spoonful of concrete** with the mortar.
4. Put **7 driveways** into the bonfire.
5. Purify **1.03 spoonful of pavement** with the purifier.
6. Crack **3.9 spoonful of smashed concrete** with the mortar.
7. Smash **37.73 spoonful of purified tar** with the mortar.
8. Retrieve the **5.23 ounces of ashes of "driveway"** from the bonfire.
9. Draw a magic circle on the floor using the electric paint.
10. Draw a square into the circle and place **37.73 spoonful of purified and smashed tar, 3.9 spoonful of smashed and cracked concrete, 1.03 spoonful of purified pavement** and **5.23 ounces of ashes of "driveway"** on each corner.
11. Intone the following spell: "Fruin! Invesco oblector!"
12. Suddendly, an **asphalt** will appear inside the circle.

## 16 An aspirin

How to make an **aspirin** in 10 easy steps:

### 16.1 Materials

- 19.92 ounces of medicine
- 7.83 ounces of relief
- 10 headaches
- 40 pills

### 16.2 Tools

- Hammer
- Fireplace
- Centrifuge
- Cauldron
- Pet ape

### 16.3 Instructions

1. Crack **40 pills** with the hammer.
2. Wait.
3. Fan the flames of the fireplace.
4. Smash **10 headaches** with the hammer.
5. Let the cauldron cool down.
6. Let your pet ape sniff at **19.92 ounces of medicine**.
7. Put **10 smashed headaches** into the rotating centrifuge.
8. Stop the centrifuge and retrieve the **31.07 ounces of centrifuged mixture "smashed headache"**.
9. Dump the **19.92 ounces of medicine, 7.83 ounces of relief, 40 cracked pills** and **31.07 ounces of centrifuged mixture "smashed headache"** into a pile on the floor.
10. Wait until they magically transform into an **aspirin**.

## 17 An attic

How to make an **attic** in 10 easy steps:

### 17.1 Materials

- 5.81 ounces of basement
- 6.0 ounces of junk
- 3.21 ounces of cellar
- 19.59 spoonful of storage

### 17.2 Tools

- Freezer
- Bonfire
- Mortar
- Container

### 17.3 Instructions

1. Put **6.0 ounces of junk** into the container.
2. Put **19.59 spoonful of storage** into the freezer for a while.
3. Smash **5.81 ounces of basement** with the mortar.
4. Pour out the mixture from the container to get the **28.34 ounces of container mixture "junk"**.
5. Fan the flames of the bonfire.
6. Put **5.81 ounces of smashed basement** into the freezer for a while.
7. Stir the container.
8. Let the container cool down.
9. Fold the **5.81 ounces of smashed and cooled basement**, **3.21 ounces of cellar**, **19.59 spoonful of cooled storage** and **28.34 ounces of container mixture "junk"** together using advanced origami techniques.
10. If you've done it correctly, it could result in an **attic**.

## 18 An avenue

How to make an **avenue** in 10 easy steps:

### 18.1 Materials

- 2.85 spoonful of boulevard
- 9.62 ounces of park
- 8 ideas of being electric
- 8.1 spoonful of street

### 18.2 Tools

- Centrifuge
- Pet mouse
- Charcoal pencil

### 18.3 Instructions

1. Pet your pet mouse.
2. Wait.
3. Put **9.62 ounces of park** into the rotating centrifuge.
4. Feed **8 ideas of being electric** to your pet mouse.
5. Stop the centrifuge and retrieve the **8.62 ounces of centrifuged mixture "park"**.
6. Wait until your pet mouse poops. Receive **3.63 spoonful of a very dirty pile of "being electric"**.
7. Draw a magic circle on the floor using the charcoal pencil.
8. Draw a square into the circle and place **2.85 spoonful of boulevard, 8.1 spoonful of street, 8.62 ounces of centrifuged mixture "park"** and **3.63 spoonful of a very dirty pile of "being electric"** on each corner.
9. Chant the following spell: "Anguimina! Latio!"
10. Suddenly, an **avenue** will appear inside the circle.

## 19 A baby

How to make a **baby** in 11 easy steps:

### 19.1 Materials

- 3.38 ounces of candy
- 6 nurseries
- 19 vague notions of being childish
- 7 carriages

### 19.2 Tools

- Container

### 19.3 Instructions

1. Let the container cool down.
2. Wait for a very short time.
3. Stir the container.
4. Heat the container.
5. Let the container cool down.
6. Stir the container.
7. Heat the container.
8. Let the container cool down.
9. Wait for a short time.
10. Dump the **3.38 ounces of candy**, **6 nurseries**, **19 vague notions of being childish** and **7 carriages** into a pile on the floor.
11. Wait until they magically transform into a **baby**.

## 20 A back

How to make a **back** in 11 easy steps:

### 20.1 Materials

- 20.91 spoonful of through
- 1 clear concept of being rear
- 15 spines
- 29 reels

### 20.2 Tools

- Centrifuge
- Fireplace
- Saw

### 20.3 Instructions

1. Put **1 clear concept of being rear** into the rotating centrifuge.
2. Put **15 spines** into the fireplace.
3. Speed up the centrifuge.
4. Put **20.91 spoonful of through** into the fireplace.
5. Wait.
6. Stop the centrifuge and retrieve the **1.49 spoonful of centrifuged mixture "being rear"**.
7. Use the saw to slice **29 reels** into bits.
8. Put **29 sliced reels** into the fireplace.
9. Retrieve the **5.04 spoonful of ashes of "spine, through and sliced reel"** from the fireplace.
10. Fold the **1.49 spoonful of centrifuged mixture "being rear"** and **5.04 spoonful of ashes of "spine, through and sliced reel"** together using advanced origami techniques.
11. If you've done it correctly, it could result in a **back**.

## 21 A backward

How to make a **backward** in 5 easy steps:

### 21.1 Materials

- 7.06 ounces of forwardness
- 158 ideas of bend
- 3.98 spoonful of retreat

### 21.2 Tools

- Centrifuge
- Nails

### 21.3 Instructions

1. Put **3.98 spoonful of retreat** into the rotating centrifuge.
2. Put **158 ideas of bend** into the rotating centrifuge.
3. Wait for a long time.
4. Stop the centrifuge and retrieve the **8.24 spoonful of centrifuged mixture "retreat and bend"**.
5. Use nails to join the **7.06 ounces of forwardness** and **8.24 spoonful of centrifuged mixture "retreat and bend"** together into the shape of a passable **backward**.

## 22 A bag

How to make a **bag** in 9 easy steps:

### 22.1 Materials

- 10 canvasses
- 37 lunches
- 45 knapsacks
- 9.4 ounces of garbage

### 22.2 Tools

- Cauldron
- Bucket with hot water
- Centrifuge
- Fireplace
- Familiar unicorn
- Screws

### 22.3 Instructions

1. Put **10 canvasses** into the fireplace.
2. Put **9.4 ounces of garbage** into the rotating centrifuge.
3. Dip **45 knapsacks** into the bucket with hot water.
4. Put **37 lunches** into the fireplace.
5. Pet your familiar unicorn.
6. Stir the cauldron.
7. Stop the centrifuge and retrieve the **8.35 ounces of centrifuged mixture "garbage"**.
8. Retrieve the **4.73 spoonful of ashes of "canvass and lunch"** from the fireplace.
9. Use screws to join the **45 wet knapsacks, 8.35 ounces of centrifuged mixture "garbage"** and **4.73 spoonful of ashes of "canvass and lunch"** together into the shape of a beautiful **bag**.

## 23 A bagel

How to make a **bagel** in 11 easy steps:

### 23.1 Materials

- 9 clear concepts of being plain
- 7 doughnuts
- 28.3 ounces of pastry
- 6 toasters

### 23.2 Tools

- Freezer
- Bonfire
- Saw
- Container
- Purifier

### 23.3 Instructions

1. Put **9 clear concepts of being plain** into the freezer for a while.
2. Hold **28.3 ounces of pastry** briefly into the bonfire to burn them a bit.
3. Put **6 toasters** into the container.
4. Hold **7 doughnuts** briefly into the bonfire to burn them a bit.
5. Let the container cool down.
6. Use the saw to slice **7 slightly burned doughnuts** into bits.
7. Fan the flames of the bonfire.
8. Purify **7 slightly burned and sliced doughnuts** with the purifier.
9. Pour out the mixture from the container to get the **2.68 ounces of container mixture "toaster"**.
10. Fold the **9 cooled clear concepts of being plain, 7 slightly burned, sliced and purified doughnuts, 28.3 ounces of slightly burned pastry and 2.68 ounces of container mixture "toaster"** together using advanced origami techniques.
11. If you've done it correctly, it could result in a **bagel**.

## 24 A band

How to make a **band** in 8 easy steps:

### 24.1 Materials

- 7 conductors
- 7.63 ounces of symphony
- 2 jazzes
- 1.08 ounces of wrist

### 24.2 Tools

- Bonfire
- Container

### 24.3 Instructions

1. Stir the container.
2. Let the container cool down.
3. Heat the container.
4. Put **2 jazzes** into the bonfire.
5. Wait.
6. Retrieve the **5.91 spoonful of ashes of "jazz"** from the bonfire.
7. Fold the **7 conductors, 7.63 ounces of symphony, 1.08 ounces of wrist** and **5.91 spoonful of ashes of "jazz"** together using advanced origami techniques.
8. If you've done it correctly, it should result in a **band**.

## 25 A banjo

How to make a **banjo** in 10 easy steps:

### 25.1 Materials

- 20 guitars
- 2.65 spoonful of fiddle

### 25.2 Tools

- Purifier
- Familiar unicorn
- Freezer
- Centrifuge
- Bucket with hot water
- Crayon

### 25.3 Instructions

1. Dip **2.65 spoonful of fiddle** into the bucket with hot water.
2. Purify **2.65 spoonful of wet fiddle** with the purifier.
3. Put **2.65 spoonful of wet and purified fiddle** into the freezer for a while.
4. Let your familiar unicorn sniff at **2.65 spoonful of wet, purified and cooled fiddle**.
5. Put **20 guitars** into the rotating centrifuge.
6. Stop the centrifuge and retrieve the **5.17 ounces of centrifuged mixture "guitar"**.
7. Draw a magic circle on the floor using the crayon.
8. Draw a line into the circle and place **2.65 spoonful of wet, purified and cooled fiddle** and **5.17 ounces of centrifuged mixture "guitar"** on each end.
9. Intone the following spell: "Elatus! Ambenus armoco pubefacitro amnula connummodium gallero!"
10. Slowly, a **banjo** will appear inside the circle.

## 26 A beach

How to make a **beach** in 11 easy steps:

### 26.1 Materials

- 4 corals
- 9.25 spoonful of sunshine
- 7 hawaiiis
- 7.83 ounces of tide

### 26.2 Tools

- Container
- Pet unicorn
- Freezer
- Silverpoint pen

### 26.3 Instructions

1. Heat the container.
2. Let your pet unicorn lick **4 corals**.
3. Put **7 hawaiiis** into the freezer for a while.
4. Let the container cool down.
5. Let your pet unicorn sniff at **7 cooled hawaiiis**.
6. Put **7.83 ounces of tide** into the container.
7. Pour out the mixture from the container to get the **1.91 ounces of container mixture "tide"**.
8. Draw a magic circle on the floor using the silverpoint pen.
9. Draw a square into the circle and place **4 licked corals, 9.25 spoonful of sunshine, 7 cooled hawaiiis** and **1.91 ounces of container mixture "tide"** on each corner.
10. Chant the following spell: "Epinexpens! Solandioneus andictia camphila pito amoro advivomo!"
11. Slowly, a **beach** will appear inside the circle.

## 27 A beaker

How to make a **beaker** in 8 easy steps:

### 27.1 Materials

- 8 flasks
- 6 quantities

### 27.2 Tools

- Container
- Bucket with hot water
- Purifier

### 27.3 Instructions

1. Dip **6 quantities** into the bucket with hot water.
2. Put **6 wet quantities** into the container.
3. Stir the container.
4. Heat the container.
5. Purify **8 flasks** with the purifier.
6. Pour out the mixture from the container to get the **17.88 spoonful of container mixture "wet quantity"**.
7. Fold the **8 purified flasks** and **17.88 spoonful of container mixture "wet quantity"** together using advanced origami techniques.
8. If you've done it correctly, it could result in a **beaker**.

## 28 A beam

How to make a **beam** in 8 easy steps:

### 28.1 Materials

- 3 balances
- 8 lasers
- 3.79 spoonful of support
- 4.96 ounces of flashlight

### 28.2 Tools

- Bucket with hot water
- Centrifuge
- Mortar
- Screws

### 28.3 Instructions

1. Crack **3.79 spoonful of support** with the mortar.
2. Put **8 lasers** into the rotating centrifuge.
3. Stop the centrifuge and retrieve the **1.97 ounces of centrifuged mixture "laser"**.
4. Wait for 4 seconds.
5. Smash **3.79 spoonful of cracked support** with the mortar.
6. Dip **3.79 spoonful of cracked and smashed support** into the bucket with hot water.
7. Wait for 3 hours.
8. Use screws to join the **3 balances, 3.79 spoonful of cracked, smashed and wet support, 4.96 ounces of flashlight** and **1.97 ounces of centrifuged mixture "laser"** together into the form of a beautiful **beam**.

## 29 Beer

How to make **beer** in 7 easy steps:

### 29.1 Materials

- 3 mugs
- 10 bellies
- 8.92 spoonful of pelter
- 8 buzzes

### 29.2 Tools

- Bucket with ionised liquid
- Fireplace
- Freezer
- Stone

### 29.3 Instructions

1. Hold **8.92 spoonful of pelter** briefly into the fireplace to burn them a bit.
2. Fan the flames of the fireplace.
3. Dip **10 bellies** into the bucket with ionised liquid.
4. Smash **10 wet bellies** with the stone.
5. Put **8.92 spoonful of slightly burned pelter** into the freezer for a while.
6. Fold the **3 mugs, 10 wet and smashed bellies, 8.92 spoonful of slightly burned and cooled pelter** and **8 buzzes** together using advanced origami techniques.
7. If you've done it correctly, it could result in **beer**.

## 30 A below

How to make a **below** in 9 easy steps:

### 30.1 Materials

- 7.66 spoonful of basement
- 25 beneaths
- 10 downstairs
- 7 ideas of being lower

### 30.2 Tools

- Container
- Bucket with clean water
- Bonfire
- Glue

### 30.3 Instructions

1. Dip **7.66 spoonful of basement** into the bucket with clean water.
2. Stir the container.
3. Put **25 beneaths** into the container.
4. Hold **10 downstairs** briefly into the bonfire to burn them a bit.
5. Heat the container.
6. Stir the container.
7. Hold **7 ideas of being lower** briefly into the bonfire to burn them a bit.
8. Pour out the mixture from the container to get the **7.64 ounces of container mixture "beneath"**.
9. Use glue to join the **7.66 spoonful of wet basement, 10 slightly burned downstairs, 7 slightly burned ideas of being lower** and **7.64 ounces of container mixture "beneath"** together into the form of a perfectly functional **below**.

## 31 A best

How to make a **best** in 10 easy steps:

### 31.1 Materials

- 9.0 ounces of second
- 5 ideas of being superior
- 10 vague notions of being worst
- 2.46 spoonful of friend

### 31.2 Tools

- Hammer
- Saw
- Vessel
- Nails

### 31.3 Instructions

1. Put **9.0 ounces of second** into the vessel.
2. Pour out the mixture from the vessel to get the **2.67 ounces of vessel mixture "second"**.
3. Smash **10 vague notions of being worst** with the hammer.
4. Heat the vessel.
5. Use the saw to slice **10 smashed vague notions of being worst** into bits.
6. Wait for 4 hours.
7. Stir the vessel.
8. Throw **2.67 ounces of vessel mixture "second"** away.
9. Heat the vessel.
10. Use nails to join the **5 ideas of being superior, 10 smashed and sliced vague notions of being worst** and **2.46 spoonful of friend** together into the form of a beautiful **best**.

## 32 A billboard

How to make a **billboard** in 5 easy steps:

### 32.1 Materials

- 1 display

### 32.2 Tools

- Centrifuge
- Nails

### 32.3 Instructions

1. Put **1 display** into the rotating centrifuge.
2. Speed up the centrifuge.
3. Wait for a day.
4. Stop the centrifuge and retrieve the **1.3 ounces of centrifuged mixture "display"**.
5. Use nails to join the **1.3 ounces of centrifuged mixture "display"** together into the shape of a perfectly functional **billboard**.

## 33 A blossom

How to make a **blossom** in 7 easy steps:

### 33.1 Materials

- 5.95 spoonful of bloom
- 8.94 spoonful of flower
- 17.76 spoonful of cherry

### 33.2 Tools

- Bucket with ice-cold water
- Saw

### 33.3 Instructions

1. Use the saw to slice **17.76 spoonful of cherry** into bits.
2. Wait.
3. Dip **8.94 spoonful of flower** into the bucket with ice-cold water.
4. Use the saw to slice **17.76 spoonful of sliced cherry** into bits.
5. Wait.
6. Fold the **5.95 spoonful of bloom**, **8.94 spoonful of wet flower** and **17.76 spoonful of fragmented cherry** together using advanced origami techniques.
7. If you've done it correctly, it should result in a **blossom**.

## 34 A bolt

How to make a **bolt** in 10 easy steps:

### 34.1 Materials

- 10 lightnings
- 6.11 ounces of nuts
- 8.42 ounces of lock
- 5 screws

### 34.2 Tools

- Bucket with clean liquid
- Purifier
- Nails

### 34.3 Instructions

1. Purify **6.11 ounces of nuts** with the purifier.
2. Dip **5 screws** into the bucket with clean liquid.
3. Wait for a day.
4. Purify **5 wet screws** with the purifier.
5. Dip **10 lightnings** into the bucket with clean liquid.
6. Wait for a long time.
7. Purify **10 wet lightnings** with the purifier.
8. Throw **5 wet and purified screws** away.
9. Wait for 8 minutes.
10. Use nails to join the **10 wet and purified lightnings**, **6.11 ounces of purified nuts** and **8.42 ounces of lock** together into the shape of a perfectly functional **bolt**.

## 35 A bond

How to make a **bond** in 9 easy steps:

### 35.1 Materials

- 1 clear concept of bound
- 27 winders
- 30.39 ounces of together
- 13.91 spoonful of chemical

### 35.2 Tools

- Stone
- Purifier

### 35.3 Instructions

1. Purify **1 clear concept of bound** with the purifier.
2. Crack **27 winders** with the stone.
3. Smash **30.39 ounces of together** with the stone.
4. Wait for 10 minutes.
5. Eat **27 cracked winders**.
6. Smash **30.39 ounces of smashed together** with the stone.
7. Purify **30.39 ounces of pulverized together** with the purifier.
8. Fold the **1 purified clear concept of bound, 30.39 ounces of pulverized and purified together** and **13.91 spoonful of chemical** together using advanced origami techniques.
9. If you've done it correctly, it could result in a **bond**.

## 36 A bottle

How to make a **bottle** in 15 easy steps:

### 36.1 Materials

- 6.71 ounces of jar
- 7.41 ounces of baby
- 7.05 ounces of opener
- 8.35 spoonful of medicine

### 36.2 Tools

- Bonfire
- Saw
- Stone
- Centrifuge
- Cauldron
- Pet dog

### 36.3 Instructions

1. Crack **6.71 ounces of jar** with the stone.
2. Feed **7.41 ounces of baby** to your pet dog.
3. Stir the cauldron.
4. Use the saw to slice **6.71 ounces of cracked jar** into bits.
5. Hold **6.71 ounces of cracked and sliced jar** briefly into the bonfire to burn them a bit.
6. Stir the cauldron.
7. Hold **6.71 ounces of cracked, sliced and slightly burned jar** briefly into the bonfire to burn them a bit.
8. Smash **7.05 ounces of opener** with the stone.
9. Put **7.05 ounces of smashed opener** into the rotating centrifuge.
10. Put **8.35 spoonful of medicine** into the cauldron.

11. Stop the centrifuge and retrieve the **14.25 spoonful of centrifuged mixture "smashed opener"**.
12. Pour out the mixture from the cauldron to get the **5.68 spoonful of cauldron mixture "medicine"**.
13. Wait until your pet dog poops. Receive **33.53 ounces of a very dirty pile of "baby"**.
14. Dump the **6.71 ounces of cracked, sliced and burned jar, 14.25 spoonful of centrifuged mixture "smashed opener", 5.68 spoonful of cauldron mixture "medicine"** and **33.53 ounces of a very dirty pile of "baby"** into a pile on the floor.
15. Wait until they magically transform into a **bottle**.

## 37 A bouillon

How to make a **bouillon** in 10 easy steps:

### 37.1 Materials

- 6.72 spoonful of broth

### 37.2 Tools

- Fireplace
- Cauldron
- Ballpoint pen

### 37.3 Instructions

1. Let the cauldron cool down.
2. Put **6.72 spoonful of broth** into the cauldron.
3. Fan the flames of the fireplace.
4. Wait for a rather long time.
5. Let the cauldron cool down.
6. Pour out the mixture from the cauldron to get the **3.68 ounces of cauldron mixture "broth"**.
7. Draw a magic circle on the floor using the ballpoint pen.
8. Place **3.68 ounces of cauldron mixture "broth"** into the circle.
9. Whisper the following spell: "Miratus! Accummarens typus pagagalles! Paneus perriderecum flo gemmos auginabietio!"
10. Slowly, a **bouillon** will appear inside the circle.

## 38 A break

How to make a **break** in 11 easy steps:

### 38.1 Materials

- 6 habits
- 22 ideas of escape
- 10 injuries
- 4.39 spoonful of chisel

### 38.2 Tools

- Bucket with ionised water
- Saw
- Freezer
- Electric paint

### 38.3 Instructions

9. Use nails to join the **4.3 ounces of cracked and cooled train** and **8.21 spoonful of container mixture "railroad"** together into the shape of a usable **caboose**.

## 46 A camera

How to make a **camera** in 12 easy steps:

### 46.1 Materials

- 8.21 ounces of lens
- 69 japans
- 28.77 spoonful of photo
- 20 clear concepts of being underwater

### 46.2 Tools

- Bonfire
- Centrifuge
- Purifier
- Saw
- Stone

### 46.3 Instructions

1. Purify **8.21 ounces of lens** with the purifier.
2. Smash **69 japans** with the stone.
3. Put **28.77 spoonful of photo** into the bonfire.
4. Purify **20 clear concepts of being underwater** with the purifier.
5. Use the saw to slice **8.21 ounces of purified lens** into bits.
6. Wait for 4 hours.
7. Put **69 smashed japans** into the rotating centrifuge.
8. Put **8.21 ounces of purified and sliced lens** into the bonfire.
9. Retrieve the **23.43 ounces of ashes of "photo and purified and sliced lens"** from the bonfire.
10. Stop the centrifuge and retrieve the **5.38 spoonful of centrifuged mixture "smashed japan"**.

11. Fold the **20 purified clear concepts of being underwater**, **23.43 ounces of ashes of "photo and purified and sliced lens"** and **5.38 spoonful of centrifuged mixture "smashed japan"** together using advanced origami techniques.
12. If you've done it correctly, it could result in a **camera**.

## 47 A cancer

How to make a **cancer** in 11 easy steps:

### 47.1 Materials

- 9.49 spoonful of lung
- 3.86 ounces of ulcer
- 8 treatments
- 6 cigarettes

### 47.2 Tools

- Vessel
- Centrifuge
- Stone
- Familiar chinchilla

### 47.3 Instructions

1. Crack **9.49 spoonful of lung** with the stone.
2. Put **9.49 spoonful of cracked lung** into the rotating centrifuge.
3. Let the vessel cool down.
4. Put **3.86 ounces of ulcer** into the vessel.
5. Crack **6 cigarettes** with the stone.
6. Smash **6 cracked cigarettes** with the stone.
7. Let your familiar chinchilla sniff at **8 treatments**.
8. Stop the centrifuge and retrieve the **6.67 ounces of centrifuged mixture "cracked lung"**.
9. Pour out the mixture from the vessel to get the **1.02 ounces of vessel mixture "ulcer"**.
10. Dump the **8 treatments, 6 cracked and smashed cigarettes, 6.67 ounces of centrifuged mixture "cracked lung"** and **1.02 ounces of vessel mixture "ulcer"** into a pile on the floor.
11. Wait until they magically transform into a **cancer**.

## 48 A candle

How to make a **candle** in 13 easy steps:

5. Feed **9.35 ounces of candy** to your pet mouse.
6. Stir the container.
7. Let your pet mouse sniff at **8.75 ounces of staff**.
8. Use the saw to slice **8.68 spoonful of crutch** into bits.
9. Wait until your pet mouse poops. Receive **24.27 spoonful of a very dirty pile of "candy"**.
10. Use nails to join the **9 walkers**, **8.68 spoonful of sliced crutch**, **8.75 ounces of staff** and **24.27 spoonful of a very dirty pile of "candy"** together into the form of a beautiful **cane**.

## 50 A canoe

How to make a **canoe** in 8 easy steps:

### 50.1 Materials

- 8 camps
- 3 ideas of paddle
- 5.28 ounces of oar
- 19 boats

### 50.2 Tools

- Centrifuge
- Purifier
- Silverpoint pen

### 50.3 Instructions

1. Purify **19 boats** with the purifier.
2. Put **3 ideas of paddle** into the rotating centrifuge.
3. Speed up the centrifuge.
4. Stop the centrifuge and retrieve the **6.01 ounces of centrifuged mixture "paddle"**.
5. Draw a magic circle on the floor using the silverpoint pen.
6. Draw a square into the circle and place **8 camps, 5.28 ounces of oar, 19 purified boats** and **6.01 ounces of centrifuged mixture "paddle"** on each corner.
7. Whisper the following spell: "Secundus!"
8. Reluctantly, a **canoe** will appear inside the circle.

## 51 A cellar

How to make a **cellar** in 14 easy steps:

## 64 A community

How to make a **community** in 14 easy steps:

### 64.1 Materials

- 7.55 ounces of society
- 8 ideas of being local
- 34.7 ounces of development
- 15 distances

### 64.2 Tools

- Purifier
- Vessel
- Centrifuge
- Hammer
- Familiar chinchilla
- Freezer

### 64.3 Instructions

1. Wait for a rather long time.
2. Throw **15 distances** away.
3. Let your familiar chinchilla lick **7.55 ounces of society**.
4. Purify **7.55 ounces of licked society** with the purifier.
5. Crack **34.7 ounces of development** with the hammer.
6. Let your familiar chinchilla sniff at **34.7 ounces of cracked development**.
7. Put **7.55 ounces of licked and purified society** into the rotating centrifuge.
8. Put **34.7 ounces of cracked development** into the freezer for a while.
9. Put **34.7 ounces of cracked and cooled development** into the vessel.
10. Let the vessel cool down.

11. Pour out the mixture from the vessel to get the **7.95 ounces of vessel mixture "cracked and cooled development"**.
12. Stop the centrifuge and retrieve the **9.61 spoonful of centrifuged mixture "licked and purified society"**.
13. Dump the **8 ideas of being local, 7.95 ounces of vessel mixture "cracked and cooled development"** and **9.61 spoonful of centrifuged mixture "licked and purified society"** into a pile on the floor.
14. Wait until they magically transform into a **community**.

## 65 A companion

How to make a **companion** in 6 easy steps:

### 65.1 Materials

- 9.52 spoonful of mate
- 1.37 ounces of friend
- 10 friendships
- 1.33 ounces of girlfriend

### 65.2 Tools

- Stone
- Centrifuge
- Cauldron
- Tape

### 65.3 Instructions

1. Put **10 friendships** into the rotating centrifuge.
2. Speed up the centrifuge.
3. Crack **1.37 ounces of friend** with the stone.
4. Stir the cauldron.
5. Stop the centrifuge and retrieve the **20.88 ounces of centrifuged mixture "friendship"**.
6. Use tape to join the **9.52 spoonful of mate**, **1.37 ounces of cracked friend**, **1.33 ounces of girlfriend** and **20.88 ounces of centrifuged mixture "friendship"** together into the shape of a usable **companion**.

## 66 A company

How to make a **company** in 15 easy steps:

### 66.1 Materials

- 8 records
- 24.31 spoonful of tobacco
- 40.5 ounces of alone
- 4 departments

### 66.2 Tools

- Fireplace
- Hammer
- Centrifuge
- Fountain pen

### 66.3 Instructions

1. Put **40.5 ounces of alone** into the rotating centrifuge.
2. Put **24.31 spoonful of tobacco** into the fireplace.
3. Retrieve the **3.13 ounces of ashes of "tobacco"** from the fireplace.
4. Crack **8 records** with the hammer.
5. Fan the flames of the fireplace.
6. Put **4 departments** into the fireplace.
7. Hold **8 cracked records** briefly into the fireplace to burn them a bit.
8. Put **8 cracked and slightly burned records** into the fireplace.
9. Put **3.13 ounces of ashes of "tobacco"** into the fireplace.
10. Retrieve the **73.05 ounces of ashes of "department, cracked and slightly burned record and ashes of "tobacco" "**from the fireplace.
11. Stop the centrifuge and retrieve the **9.45 ounces of centrifuged mixture "alone"**.
12. Draw a magic circle on the floor using the fountain pen.

13. Draw a line into the circle and place **73.05 ounces of ashes of "department, cracked and slightly burned record and ashes of "tobacco""** and **9.45 ounces of centrifuged mixture "alone"** on each end.
14. Whisper the following spell: "Levocubius molanss! Fagingo annipes! Fetia bris advorsus, concularius!"
15. Suddenly, a **company** will appear inside the circle.

## 67 A cone

How to make a **cone** in 9 easy steps:

### 67.1 Materials

- 3.07 ounces of yogurt
- 9.07 ounces of cylinder
- 10.92 ounces of pine
- 20.61 spoonful of ice cream

### 67.2 Tools

- Container
- Centrifuge
- Stone
- Bucket with clean liquid
- Screws

### 67.3 Instructions

1. Put **20.61 spoonful of ice cream** into the rotating centrifuge.
2. Let the container cool down.
3. Heat the container.
4. Put **10.92 ounces of pine** into the rotating centrifuge.
5. Dip **9.07 ounces of cylinder** into the bucket with clean liquid.
6. Crack **3.07 ounces of yogurt** with the stone.
7. Wait.
8. Stop the centrifuge and retrieve the **1.33 ounces of centrifuged mixture "ice cream and pine"**.
9. Use screws to join the **3.07 ounces of cracked yogurt, 9.07 ounces of wet cylinder and 1.33 ounces of centrifuged mixture "ice cream and pine"** together into the shape of a beautiful **cone**.

## 68 A contact

How to make a **contact** in 14 easy steps:

### 68.1 Materials

- 31 clear concepts of kiss
- 8 notices
- 3.19 ounces of lens
- 3.23 ounces of directness

### 68.2 Tools

- Centrifuge
- Purifier
- Container
- Freezer
- Silverpoint pen

### 68.3 Instructions

1. Heat the container.
2. Put **31 clear concepts of kiss** into the freezer for a while.
3. Put **3.23 ounces of directness** into the rotating centrifuge.
4. Put **3.19 ounces of lens** into the container.
5. Wait for a long time.
6. Put **8 notices** into the rotating centrifuge.
7. Purify **31 cooled clear concepts of kiss** with the purifier.
8. Put **31 cooled and purified clear concepts of kiss** into the rotating centrifuge.
9. Pour out the mixture from the container to get the **21.95 spoonful of container mixture "lens"**.
10. Stop the centrifuge and retrieve the **1.15 spoonful of centrifuged mixture "directness, notice and cooled and purified kiss"**.
11. Draw a magic circle on the floor using the silverpoint pen.

12. Draw a line into the circle and place **21.95 spoonful of container mixture "lens"** and **1.15 spoonful of centrifuged mixture "directness, notice and cooled and purified kiss"** on each end.
13. Intone the following spell: "Sepisorbo!"
14. Slowly, a **contact** will appear inside the circle.

## 69 A cowgirl

How to make a **cowgirl** in 7 easy steps:

### 69.1 Materials

- 46.95 spoonful of cowboy

### 69.2 Tools

- Saw
- Centrifuge
- Mortar
- Nails

### 69.3 Instructions

1. Crack **46.95 spoonful of cowboy** with the mortar.
2. Use the saw to slice **46.95 spoonful of cracked cowboy** into bits.
3. Wait for a day.
4. Put **46.95 spoonful of cracked and sliced cowboy** into the rotating centrifuge.
5. Stop the centrifuge and retrieve the **6.37 ounces of centrifuged mixture "cracked and sliced cowboy"**.
6. Wait for an hour.
7. Use nails to join the **6.37 ounces of centrifuged mixture "cracked and sliced cowboy"** together into the form of a beautiful **cowgirl**.

## 70 A crack

How to make a **crack** in 13 easy steps:

### 70.1 Materials

- 9.9 ounces of drugs
- 2.57 spoonful of leak
- 8.24 ounces of walnut
- 7.62 spoonful of cocaine

### 70.2 Tools

- Cauldron
- Fireplace
- Centrifuge
- Screws

### 70.3 Instructions

1. Put **8.24 ounces of walnut** into the rotating centrifuge.
2. Put **7.62 spoonful of cocaine** into the fireplace.
3. Let the cauldron cool down.
4. Stop the centrifuge and retrieve the **10.29 spoonful of centrifuged mixture "walnut"**.
5. Put **10.29 spoonful of centrifuged mixture "walnut"** into the cauldron.
6. Wait for 7 seconds.
7. Stir the cauldron.
8. Heat the cauldron.
9. Put **9.9 ounces of drugs** into the rotating centrifuge.
10. Stop the centrifuge and retrieve the **1.13 spoonful of centrifuged mixture "drugs"**.
11. Pour out the mixture from the cauldron to get the **3.81 ounces of cauldron mixture "centrifuged mixture "walnut" "**.

12. Retrieve the **8.63 ounces of ashes of "cocaine"** from the fireplace.
13. Use screws to join the **2.57 spoonful of leak**, **1.13 spoonful of centrifuged mixture "drugs"**, **3.81 ounces of cauldron mixture "centrifuged mixture "walnut" "** and **8.63 ounces of ashes of "cocaine"** together into the form of a passable **crack**.

## 71 A crash

How to make a **crash** in 8 easy steps:

### 71.1 Materials

- 4.77 ounces of accident
- 7.06 ounces of wreck
- 3 bumpers
- 8 booms

### 71.2 Tools

- Hammer
- Centrifuge

### 71.3 Instructions

1. Wait.
2. Put **8 booms** into the rotating centrifuge.
3. Crack **4.77 ounces of accident** with the hammer.
4. Put **7.06 ounces of wreck** into the rotating centrifuge.
5. Stop the centrifuge and retrieve the **2.28 spoonful of centrifuged mixture "boom and wreck"**.
6. Crack **2.28 spoonful of centrifuged mixture "boom and wreck"** with the hammer.
7. Fold the **4.77 ounces of cracked accident**, **3 bumpers** and **2.28 spoonful of cracked centrifuged mixture "boom and wreck"** together using advanced origami techniques.
8. If you've done it correctly, it might result in a **crash**.

## 72 A criticism

How to make a **criticism** in 7 easy steps:

### 72.1 Materials

- 1.92 ounces of constructiveness

### 72.2 Tools

- Purifier
- Freezer

### 72.3 Instructions

1. Purify **1.92 ounces of constructiveness** with the purifier.
2. Wait.
3. Put **1.92 ounces of purified constructiveness** into the freezer for a while.
4. Throw **1.92 ounces of purified and cooled constructiveness** away.
5. Wait for a minute.
6. Grind a little bit of troll teeth to dust. It's not strictly needed, but doesn't hurt I guess?
7. Turn around. You will find that a **criticism** was there all along.

## 73 A crutch

How to make a **crutch** in 14 easy steps:

### 73.1 Materials

- 7.6 ounces of cane

### 73.2 Tools

- Cauldron
- Centrifuge
- Charcoal pencil

### 73.3 Instructions

1. Put **7.6 ounces of cane** into the rotating centrifuge.
2. Heat the cauldron.
3. Wait.
4. Let the cauldron cool down.
5. Heat the cauldron.
6. Stir the cauldron.
7. Let the cauldron cool down.
8. Heat the cauldron.
9. Stir the cauldron.
10. Stop the centrifuge and retrieve the **3.64 spoonful of centrifuged mixture "cane"**.
11. Draw a magic circle on the floor using the charcoal pencil.
12. Place **3.64 spoonful of centrifuged mixture "cane"** into the circle.
13. Intone the following spell: "Murithion tor assus! Letus! Diaculatus per-tium abolum, dulus prologiato! Pauleia turganito bapticius composis in-crum, inditio umbro! Illo!"
14. Suddendly, a **crutch** will appear inside the circle.

## 74 A cuff

How to make a **cuff** in 8 easy steps:

### 74.1 Materials

- 3.68 spoonful of sleeve

### 74.2 Tools

- Bonfire
- Container
- Tape

### 74.3 Instructions

1. Stir the container.
2. Fan the flames of the bonfire.
3. Put **3.68 spoonful of sleeve** into the bonfire.
4. Let the container cool down.
5. Heat the container.
6. Stir the container.
7. Retrieve the **3.88 spoonful of ashes of "sleeve"** from the bonfire.
8. Use tape to join the **3.88 spoonful of ashes of "sleeve"** together into the form of a passable **cuff**.

## 75 A dash

How to make a **dash** in 11 easy steps:

### 75.1 Materials

- 8 ideas of daring
- 3 vague notions of sprinkle
- 4.16 ounces of bolt
- 4 pinches

### 75.2 Tools

- Centrifuge
- Fireplace
- Vessel
- Saw

### 75.3 Instructions

1. Use the saw to slice **4 pinches** into bits.
2. Let the vessel cool down.
3. Put **4.16 ounces of bolt** into the vessel.
4. Put **3 vague notions of sprinkle** into the rotating centrifuge.
5. Use the saw to slice **4 sliced pinches** into bits.
6. Hold **4 fragmented pinches** briefly into the fireplace to burn them a bit.
7. Fan the flames of the fireplace.
8. Stop the centrifuge and retrieve the **4.69 spoonful of centrifuged mixture "sprinkle"**.
9. Pour out the mixture from the vessel to get the **9.94 ounces of vessel mixture "bolt"**.
10. Fold the **8 ideas of daring, 4 fragmented and slightly burned pinches, 4.69 spoonful of centrifuged mixture "sprinkle"** and **9.94 ounces of vessel mixture "bolt"** together using advanced origami techniques.
11. If you've done it correctly, it might result in a **dash**.

## 76 A deer

How to make a **deer** in 9 easy steps:

### 76.1 Materials

- 19 clear concepts of crossing
- 23.29 spoonful of fawn
- 10 antlers
- 7.97 ounces of foe

### 76.2 Tools

- Centrifuge
- Bucket with hot liquid
- Fireplace

### 76.3 Instructions

1. Put **19 clear concepts of crossing** into the rotating centrifuge.
2. Dip **7.97 ounces of foe** into the bucket with hot liquid.
3. Put **10 antlers** into the fireplace.
4. Retrieve the **13.47 spoonful of ashes of "antler"** from the fireplace.
5. Put **7.97 ounces of wet foe** into the rotating centrifuge.
6. Dip **23.29 spoonful of fawn** into the bucket with hot liquid.
7. Stop the centrifuge and retrieve the **27.32 spoonful of centrifuged mixture "crossing and wet foe"**.
8. Dump the **23.29 spoonful of wet fawn**, **13.47 spoonful of ashes of "antler"** and **27.32 spoonful of centrifuged mixture "crossing and wet foe"** into a pile on the floor.
9. Wait until they magically transform into a **deer**.

## 77 A defeat

How to make a **defeat** in 15 easy steps:

### 77.1 Materials

- 8 triumphs
- 6.64 spoonful of renunciation
- 2 conquests
- 2.52 ounces of victory

### 77.2 Tools

- Container
- Saw
- Mortar
- Fireplace
- Centrifuge
- Silverpoint pen

### 77.3 Instructions

1. Put **8 triumphs** into the container.
2. Crack **6.64 spoonful of renunciation** with the mortar.
3. Smash **2 conquests** with the mortar.
4. Pour out the mixture from the container to get the **37.08 ounces of container mixture "triumph"**.
5. Put **37.08 ounces of container mixture "triumph"** into the rotating centrifuge.
6. Smash **2 smashed conquests** with the mortar.
7. Crack **2 pulverized conquests** with the mortar.
8. Hold **6.64 spoonful of cracked renunciation** briefly into the fireplace to burn them a bit.
9. Use the saw to slice **6.64 spoonful of cracked and slightly burned renunciation** into bits.

10. Wait for a rather short time.
11. Stop the centrifuge and retrieve the **12.91 ounces of centrifuged mixture "container mixture "triumph"**.
12. Draw a magic circle on the floor using the silverpoint pen.
13. Draw a square into the circle and place **6.64 spoonful of cracked, slightly burned and sliced renunciation, 2 pulverized and cracked conquests, 2.52 ounces of victory and 12.91 ounces of centrifuged mixture "container mixture "triumph"** on each corner.
14. Whisper the following spell: "Parium oeniola! Ablon dedo anticatus! Ec-trix batus usurro utcus linus, maneus irro!"
15. Suddendly, a **defeat** will appear inside the circle.

## 78 A demand

How to make a **demand** in 8 easy steps:

### 78.1 Materials

- 6.74 spoonful of popularity
- 2 orders
- 13.18 ounces of request
- 7 reprimands

### 78.2 Tools

- Hammer
- Bonfire
- Freezer

### 78.3 Instructions

1. Hold **6.74 spoonful of popularity** briefly into the bonfire to burn them a bit.
2. Put **2 orders** into the freezer for a while.
3. Smash **2 cooled orders** with the hammer.
4. Hold **13.18 ounces of request** briefly into the bonfire to burn them a bit.
5. Put **6.74 spoonful of slightly burned popularity** into the freezer for a while.
6. Fan the flames of the bonfire.
7. Dump the **6.74 spoonful of slightly burned and cooled popularity**, **2 cooled and smashed orders**, **13.18 ounces of slightly burned request** and **7 reprimands** into a pile on the floor.
8. Wait until they magically transform into a **demand**.

## 79 A demi

How to make a **demi** in 9 easy steps:

### 79.1 Materials

- 9.11 spoonful of half

### 79.2 Tools

- Container
- Bonfire

### 79.3 Instructions

1. Put **9.11 spoonful of half** into the container.
2. Pour out the mixture from the container to get the **1.67 spoonful of container mixture "half"**.
3. Wait for 4 minutes.
4. Stir the container.
5. Eat **1.67 spoonful of container mixture "half"**.
6. Fan the flames of the bonfire.
7. Heat the container.
8. Wait for an hour.
9. Wait a bit until a **demi** suddenly appears.

## 80 A dew

How to make a **dew** in 16 easy steps:

### 80.1 Materials

- 11 mornings
- 31.35 spoonful of honey
- 10 mists
- 6.46 ounces of damper

### 80.2 Tools

- Purifier
- Bucket with liquid
- Vessel
- Mortar
- Familiar cat
- Centrifuge
- Ballpoint pen

### 80.3 Instructions

1. Crack **11 mornings** with the mortar.
2. Stir the vessel.
3. Heat the vessel.
4. Smash **11 cracked mornings** with the mortar.
5. Wait for a second.
6. Feed **6.46 ounces of damper** to your familiar cat.
7. Purify **31.35 spoonful of honey** with the purifier.
8. Dip **11 cracked and smashed mornings** into the bucket with liquid.
9. Stir the vessel.
10. Put **10 mists** into the rotating centrifuge.

11. Wait until your familiar cat poops. Receive **18.5 spoonful of a very dirty pile of "damper"**.
12. Stop the centrifuge and retrieve the **21.31 ounces of centrifuged mixture "mist"**.
13. Draw a magic circle on the floor using the ballpoint pen.
14. Draw a cross into the circle and place **11 cracked, smashed and wet mornings, 31.35 spoonful of purified honey, 18.5 spoonful of a very dirty pile of "damper"** and **21.31 ounces of centrifuged mixture "mist"** on each corner.
15. Chant the following spell: "Aliteridus ductum! Divialiqueor axumeus pectus adstricus!"
16. Slowly, a **dew** will appear inside the circle.

## 81 A digestion

How to make a **digestion** in 12 easy steps:

### 81.1 Materials

- 25 intestines

### 81.2 Tools

- Stone
- Purifier
- Bucket with clean liquid
- Freezer
- Centrifuge

### 81.3 Instructions

1. Put **25 intestines** into the freezer for a while.
2. Dip **25 cooled intestines** into the bucket with clean liquid.
3. Crack **25 cooled and wet intestines** with the stone.
4. Put **25 cooled, wet and cracked intestines** into the rotating centrifuge.
5. Stop the centrifuge and retrieve the **1.87 ounces of centrifuged mixture "cooled, wet and cracked intestine"**.
6. Purify **1.87 ounces of centrifuged mixture "cooled, wet and cracked intestine"** with the purifier.
7. Put **1.87 ounces of purified centrifuged mixture "cooled, wet and cracked intestine"** into the rotating centrifuge.
8. Speed up the centrifuge.
9. Wait.
10. Stop the centrifuge and retrieve the **1.95 spoonful of centrifuged mixture "purified centrifuged mixture "cooled, wet and cracked intestine"**.
11. Fold the **1.95 spoonful of centrifuged mixture "purified centrifuged mixture "cooled, wet and cracked intestine"** together using advanced origami techniques.
12. If you've done it correctly, it might result in a **digestion**.

## 82 Dignity

How to make **dignity** in 12 easy steps:

### 82.1 Materials

- 7.74 spoonful of respect

### 82.2 Tools

- Cauldron
- Bonfire
- Glue

### 82.3 Instructions

1. Put **7.74 spoonful of respect** into the cauldron.
2. Heat the cauldron.
3. Stir the cauldron.
4. Let the cauldron cool down.
5. Fan the flames of the bonfire.
6. Pour out the mixture from the cauldron to get the **6.91 ounces of cauldron mixture "respect"**.
7. Let the cauldron cool down.
8. Wait for a minute.
9. Put **6.91 ounces of cauldron mixture "respect"** into the bonfire.
10. Stir the cauldron.
11. Retrieve the **8.24 spoonful of ashes of "cauldron mixture "respect"** from the bonfire.
12. Use glue to join the **8.24 spoonful of ashes of "cauldron mixture "respect"** together into the shape of a passable **dignity**.

## 83 A direction

How to make a **direction** in 9 easy steps:

### 83.1 Materials

- 5 signals
- 9.4 ounces of result
- 5.91 ounces of map
- 2.32 ounces of purpose

### 83.2 Tools

- Purifier
- Mortar
- Bonfire
- Saw

### 83.3 Instructions

1. Use the saw to slice **5.91 ounces of map** into bits.
2. Put **9.4 ounces of result** into the bonfire.
3. Put **5.91 ounces of sliced map** into the bonfire.
4. Crack **2.32 ounces of purpose** with the mortar.
5. Purify **2.32 ounces of cracked purpose** with the purifier.
6. Wait.
7. Retrieve the **8.06 ounces of ashes of "result and sliced map"** from the bonfire.
8. Fold the **5 signals**, **2.32 ounces of cracked and purified purpose** and **8.06 ounces of ashes of "result and sliced map"** together using advanced origami techniques.
9. If you've done it correctly, it might result in a **direction**.

## 84 A disbelief

How to make a **disbelief** in 10 easy steps:

### 84.1 Materials

- 8.19 ounces of dismay
- 6 doubts
- 3.1 ounces of belief
- 9.5 ounces of shock

### 84.2 Tools

- Cauldron
- Centrifuge
- Saw
- Hammer
- Bonfire
- Bucket with clean water

### 84.3 Instructions

1. Use the saw to slice **8.19 ounces of dismay** into bits.
2. Fan the flames of the bonfire.
3. Stir the cauldron.
4. Smash **9.5 ounces of shock** with the hammer.
5. Use the saw to slice **9.5 ounces of smashed shock** into bits.
6. Dip **6 doubts** into the bucket with clean water.
7. Put **3.1 ounces of belief** into the rotating centrifuge.
8. Stop the centrifuge and retrieve the **8.36 spoonful of centrifuged mixture "belief"**.
9. Dump the **8.19 ounces of sliced dismay**, **6 wet doubts**, **9.5 ounces of smashed and sliced shock** and **8.36 spoonful of centrifuged mixture "belief"** into a pile on the floor.
10. Wait until they magically transform into a **disbelief**.

## 85 A dish

How to make a **dish** in 13 easy steps:

### 85.1 Materials

- 3.56 ounces of china
- 7 saucers
- 1 vague notion of being ceramic
- 44.89 spoonful of silverware

### 85.2 Tools

- Bonfire
- Stone
- Bucket with hot water
- Purifier

### 85.3 Instructions

1. Purify **1 vague notion of being ceramic** with the purifier.
2. Fan the flames of the bonfire.
3. Hold **1 purified vague notion of being ceramic** briefly into the bonfire to burn it a bit.
4. Hold **44.89 spoonful of silverware** briefly into the bonfire to burn them a bit.
5. Hold **1 purified and slightly burned vague notion of being ceramic** briefly into the bonfire to burn it a bit.
6. Put **44.89 spoonful of slightly burned silverware** into the bonfire.
7. Dip **7 saucers** into the bucket with hot water.
8. Purify **7 wet saucers** with the purifier.
9. Smash **1 purified and burned vague notion of being ceramic** with the stone.
10. Fan the flames of the bonfire.
11. Retrieve the **4.05 spoonful of ashes of "slightly burned silverware"** from the bonfire.

12. Dump the **3.56 ounces of china, 7 wet and purified saucers, 1 purified, burned and smashed vague notion of being ceramic** and **4.05 spoonful of ashes of "slightly burned silverware"** into a pile on the floor.
13. Wait until they magically transform into a **dish**.

## 86 A doughnut

How to make a **doughnut** in 6 easy steps:

### 86.1 Materials

- 5 frosts
- 3.17 spoonful of dough
- 30 custards
- 45.74 ounces of biscuit

### 86.2 Tools

- Purifier
- Hammer
- Fountain pen

### 86.3 Instructions

1. Crack **30 custards** with the hammer.
2. Purify **3.17 spoonful of dough** with the purifier.
3. Draw a magic circle on the floor using the fountain pen.
4. Draw a square into the circle and place **5 frosts, 3.17 spoonful of purified dough, 30 cracked custards** and **45.74 ounces of biscuit** on each corner.
5. Chant the following spell: "Acus! Uniterrectum! Grasto!"
6. Reluctantly, a **doughnut** will appear inside the circle.

## 87 A dove

How to make a **dove** in 8 easy steps:

### 87.1 Materials

- 4.11 spoonful of bird
- 16 ideas of being peaceful
- 9.16 ounces of turtle
- 1.87 ounces of symbol

### 87.2 Tools

- Fireplace
- Centrifuge
- Saw
- Vessel
- Freezer

### 87.3 Instructions

1. Hold **1.87 ounces of symbol** briefly into the fireplace to burn them a bit.
2. Use the saw to slice **1.87 ounces of slightly burned symbol** into bits.
3. Put **9.16 ounces of turtle** into the rotating centrifuge.
4. Heat the vessel.
5. Put **16 ideas of being peaceful** into the freezer for a while.
6. Stop the centrifuge and retrieve the **3.58 ounces of centrifuged mixture "turtle"**.
7. Fold the **4.11 spoonful of bird**, **16 cooled ideas of being peaceful**, **1.87 ounces of slightly burned and sliced symbol** and **3.58 ounces of centrifuged mixture "turtle"** together using advanced origami techniques.
8. If you've done it correctly, it might result in a **dove**.

## 88 A doze

How to make a **doze** in 11 easy steps:

### 88.1 Materials

- 4.39 spoonful of drowse

### 88.2 Tools

- Centrifuge
- Fireplace
- Nails

### 88.3 Instructions

1. Put **4.39 spoonful of drowse** into the fireplace.
2. Wait.
3. Retrieve the **9.12 spoonful of ashes of "drowse"** from the fireplace.
4. Hold **9.12 spoonful of ashes of "drowse"** briefly into the fireplace to burn them a bit.
5. Wait.
6. Fan the flames of the fireplace.
7. Hold **9.12 spoonful of slightly burned ashes of "drowse"** briefly into the fireplace to burn them a bit.
8. Put **9.12 spoonful of burned ashes of "drowse"** into the rotating centrifuge.
9. Fan the flames of the fireplace.
10. Stop the centrifuge and retrieve the **32.95 ounces of centrifuged mixture "burned ashes of "drowse"**.
11. Use nails to join the **32.95 ounces of centrifuged mixture "burned ashes of "drowse"** together into the shape of a beautiful **doze**.

## 89 A dracula

How to make a **dracula** in 13 easy steps:

### 89.1 Materials

- 9.72 ounces of cape
- 6.09 ounces of fangs
- 4.0 ounces of coffin
- 3.29 spoonful of stake

### 89.2 Tools

- Bonfire
- Freezer
- Container

### 89.3 Instructions

1. Heat the container.
2. Put **3.29 spoonful of stake** into the container.
3. Put **4.0 ounces of coffin** into the freezer for a while.
4. Let the container cool down.
5. Pour out the mixture from the container to get the **4.12 ounces of container mixture "stake"**.
6. Put **6.09 ounces of fangs** into the container.
7. Hold **9.72 ounces of cape** briefly into the bonfire to burn them a bit.
8. Put **4.0 ounces of cooled coffin** into the bonfire.
9. Fan the flames of the bonfire.
10. Retrieve the **2.67 spoonful of ashes of "cooled coffin"** from the bonfire.
11. Pour out the mixture from the container to get the **9.85 ounces of container mixture "fangs"**.
12. Fold the **9.72 ounces of slightly burned cape**, **4.12 ounces of container mixture "stake"**, **2.67 spoonful of ashes of "cooled coffin"** and **9.85 ounces of container mixture "fangs"** together using advanced origami techniques.
13. If you've done it correctly, it should result in a **dracula**.

## 90 A drill

How to make a **drill** in 14 easy steps:

### 90.1 Materials

- 9.27 spoonful of bit
- 5.54 ounces of chuck
- 9.73 spoonful of dentist
- 5.77 ounces of sergeant

### 90.2 Tools

- Bonfire
- Centrifuge
- Pet unicorn
- Vessel
- Crayon

### 90.3 Instructions

1. Put **5.54 ounces of chuck** into the rotating centrifuge.
2. Pet your pet unicorn.
3. Let your pet unicorn lick **9.73 spoonful of dentist**.
4. Stir the vessel.
5. Put **5.77 ounces of sergeant** into the rotating centrifuge.
6. Let the vessel cool down.
7. Hold **9.27 spoonful of bit** briefly into the bonfire to burn them a bit.
8. Speed up the centrifuge.
9. Pet your pet unicorn.
10. Stop the centrifuge and retrieve the **5.41 spoonful of centrifuged mixture "chuck and sergeant"**.
11. Draw a magic circle on the floor using the crayon.

12. Draw a triangle into the circle and place **9.27 spoonful of slightly burned bit**, **9.73 spoonful of licked dentist** and **5.41 spoonful of centrifuged mixture "chuck and sergeant"** on each corner.
13. Chant the following spell: "Confrenda!"
14. Reluctantly, a **drill** will appear inside the circle.

## 91 A driveway

How to make a **driveway** in 11 easy steps:

### 91.1 Materials

- 2.44 spoonful of gravel
- 8 parkways
- 9.57 ounces of concrete
- 5 asphalts

### 91.2 Tools

- Bonfire
- Centrifuge
- Container
- Stone

### 91.3 Instructions

1. Smash **2.44 spoonful of gravel** with the stone.
2. Put **5 asphalts** into the rotating centrifuge.
3. Put **9.57 ounces of concrete** into the rotating centrifuge.
4. Heat the container.
5. Put **2.44 spoonful of smashed gravel** into the bonfire.
6. Put **8 parkways** into the rotating centrifuge.
7. Speed up the centrifuge.
8. Stop the centrifuge and retrieve the **4.78 ounces of centrifuged mixture "asphalt, concrete and parkway"**.
9. Retrieve the **8.38 ounces of ashes of "smashed gravel"** from the bonfire.
10. Dump the **4.78 ounces of centrifuged mixture "asphalt, concrete and parkway"** and **8.38 ounces of ashes of "smashed gravel"** into a pile on the floor.
11. Wait until they magically transform into a **driveway**.

## 92 A drop

How to make a **drop** in 13 easy steps:

### 92.1 Materials

- 17 vague notions of dump
- 8 clear concepts of spill
- 10 clear concepts of lift
- 3 clear concepts of raise

### 92.2 Tools

- Centrifuge
- Mortar
- Fireplace
- Bucket with ice-cold water

### 92.3 Instructions

1. Put **3 clear concepts of raise** into the rotating centrifuge.
2. Fan the flames of the fireplace.
3. Dip **17 vague notions of dump** into the bucket with ice-cold water.
4. Hold **8 clear concepts of spill** briefly into the fireplace to burn them a bit.
5. Smash **10 clear concepts of lift** with the mortar.
6. Speed up the centrifuge.
7. Put **17 wet vague notions of dump** into the rotating centrifuge.
8. Hold **8 slightly burned clear concepts of spill** briefly into the fireplace to burn them a bit.
9. Wait.
10. Dip **8 burned clear concepts of spill** into the bucket with ice-cold water.
11. Stop the centrifuge and retrieve the **6.57 ounces of centrifuged mixture "raise and wet dump"**.

12. Dump the **8 burned and wet clear concepts of spill**, **10 smashed clear concepts of lift** and **6.57 ounces of centrifuged mixture "raise and wet dump"** into a pile on the floor.
13. Wait until they magically transform into a **drop**.

## 93 A dwarf

How to make a **dwarf** in 4 easy steps:

### 93.1 Materials

- 8.62 ounces of dwarves
- 2 elves
- 7.37 spoonful of midget
- 6 vague notions of being sleepy

### 93.2 Tools

- Fireplace
- Glue

### 93.3 Instructions

1. Hold **8.62 ounces of dwarves** briefly into the fireplace to burn them a bit.
2. Hold **8.62 ounces of slightly burned dwarves** briefly into the fireplace to burn them a bit.
3. Hold **2 elves** briefly into the fireplace to burn them a bit.
4. Use glue to join the **8.62 ounces of burned dwarves**, **2 slightly burned elves**, **7.37 spoonful of midget** and **6 vague notions of being sleepy** together into the form of a beautiful **dwarf**.

## 94 An ears

How to make an **ears** in 15 easy steps:

### 94.1 Materials

- 6 swabs
- 3.02 spoonful of elf
- 5 rabbits
- 122.94 spoonful of eyes

### 94.2 Tools

- Bucket with ice-cold water
- Bonfire
- Stone
- Vessel
- Centrifuge
- Freezer
- Silverpoint pen

### 94.3 Instructions

1. Let the vessel cool down.
2. Put **6 swabs** into the rotating centrifuge.
3. Crack **5 rabbits** with the stone.
4. Put **3.02 spoonful of elf** into the freezer for a while.
5. Dip **3.02 spoonful of cooled elf** into the bucket with ice-cold water.
6. Fan the flames of the bonfire.
7. Crack **5 cracked rabbits** with the stone.
8. Put **3.02 spoonful of cooled and wet elf** into the bonfire.
9. Put **122.94 spoonful of eyes** into the rotating centrifuge.
10. Retrieve the **18.92 spoonful of ashes of "cooled and wet elf"** from the bonfire.

11. Stop the centrifuge and retrieve the **5.52 spoonful of centrifuged mixture "swab and eyes"**.
12. Draw a magic circle on the floor using the silverpoint pen.
13. Draw a triangle into the circle and place **5 crushed rabbits, 18.92 spoonful of ashes of "cooled and wet elf"** and **5.52 spoonful of centrifuged mixture "swab and eyes"** on each corner.
14. Intone the following spell: "Sta expalo carbium apopus! Perbunde putatante reperitustuo metrictus!"
15. Reluctantly, an **ears** will appear inside the circle.

## 95 An editor

How to make an **editor** in 14 easy steps:

### 95.1 Materials

- 4.22 ounces of letters
- 5 writers
- 3.75 ounces of publisher
- 2.96 spoonful of author

### 95.2 Tools

- Centrifuge
- Bucket with ionised liquid
- Purifier
- Vessel

### 95.3 Instructions

1. Wait for a rather short time.
2. Heat the vessel.
3. Purify **3.75 ounces of publisher** with the purifier.
4. Put **4.22 ounces of letters** into the vessel.
5. Stir the vessel.
6. Heat the vessel.
7. Put **2.96 spoonful of author** into the rotating centrifuge.
8. Let the vessel cool down.
9. Dip **5 writers** into the bucket with ionised liquid.
10. Speed up the centrifuge.
11. Stop the centrifuge and retrieve the **17.45 ounces of centrifuged mixture "author"**.
12. Pour out the mixture from the vessel to get the **7.94 ounces of vessel mixture "letters"**.

13. Fold the **5 wet writers**, **3.75 ounces of purified publisher**, **17.45 ounces of centrifuged mixture "author"** and **7.94 ounces of vessel mixture "letters"** together using advanced origami techniques.
14. If you've done it correctly, it should result in an **editor**.

## 96 An ego

How to make an **ego** in 7 easy steps:

### 96.1 Materials

- 1.78 spoonful of bravado
- 4 clear concepts of being arrogant
- 10 vague notions of being cocky
- 5.38 ounces of confidence

### 96.2 Tools

- Saw
- Bucket with ionised water
- Fireplace
- Centrifuge

### 96.3 Instructions

1. Dip **10 vague notions of being cocky** into the bucket with ionised water.
2. Use the saw to slice **1.78 spoonful of bravado** into bits.
3. Put **1.78 spoonful of sliced bravado** into the rotating centrifuge.
4. Hold **10 wet vague notions of being cocky** briefly into the fireplace to burn them a bit.
5. Stop the centrifuge and retrieve the **2.63 ounces of centrifuged mixture "sliced bravado"**.
6. Fold the **4 clear concepts of being arrogant, 10 wet and slightly burned vague notions of being cocky, 5.38 ounces of confidence and 2.63 ounces of centrifuged mixture "sliced bravado"** together using advanced origami techniques.
7. If you've done it correctly, it should result in an **ego**.

## 97 An employee

How to make an **employee** in 13 easy steps:

### 97.1 Materials

- 6.32 spoonful of faculty
- 19 ideas of associate
- 1.49 spoonful of manager
- 4.52 spoonful of union

### 97.2 Tools

- Vessel
- Hammer
- Fireplace
- Nails

### 97.3 Instructions

1. Fan the flames of the fireplace.
2. Smash **4.52 spoonful of union** with the hammer.
3. Stir the vessel.
4. Crack **1.49 spoonful of manager** with the hammer.
5. Let the vessel cool down.
6. Hold **1.49 spoonful of cracked manager** briefly into the fireplace to burn them a bit.
7. Put **4.52 spoonful of smashed union** into the fireplace.
8. Wait for a rather long time.
9. Put **19 ideas of associate** into the vessel.
10. Hold **1.49 spoonful of cracked and slightly burned manager** briefly into the fireplace to burn them a bit.
11. Pour out the mixture from the vessel to get the **15.19 ounces of vessel mixture "associate"**.
12. Retrieve the **6.98 spoonful of ashes of "smashed union"** from the fireplace.

13. Use nails to join the **6.32 spoonful of faculty**, **1.49 spoonful of cracked and burned manager**, **15.19 ounces of vessel mixture "associate"** and **6.98 spoonful of ashes of "smashed union"** together into the form of a passable **employee**.

## 98 Entertainment

How to make **entertainment** in 6 easy steps:

### 98.1 Materials

- 7.5 ounces of movie
- 39 televisions
- 1 idea of show
- 2.92 spoonful of performance

### 98.2 Tools

- Freezer
- Centrifuge
- Pet hummingbird

### 98.3 Instructions

1. Put **7.5 ounces of movie** into the freezer for a while.
2. Pet your pet hummingbird.
3. Put **1 idea of show** into the rotating centrifuge.
4. Stop the centrifuge and retrieve the **18.46 ounces of centrifuged mixture "show"**.
5. Dump the **7.5 ounces of cooled movie**, **39 televisions**, **2.92 spoonful of performance** and **18.46 ounces of centrifuged mixture "show"** into a pile on the floor.
6. Wait until they magically transform into **entertainment**.

## 99 An eraser

How to make an **eraser** in 13 easy steps:

### 99.1 Materials

- 9.18 ounces of chalkboard
- 3.72 ounces of marker
- 39 errors
- 10.93 spoonful of remover

### 99.2 Tools

- Cauldron
- Centrifuge
- Screws

### 99.3 Instructions

1. Let the cauldron cool down.
2. Put **10.93 spoonful of remover** into the rotating centrifuge.
3. Put **9.18 ounces of chalkboard** into the cauldron.
4. Speed up the centrifuge.
5. Let the cauldron cool down.
6. Pour out the mixture from the cauldron to get the **4.39 ounces of cauldron mixture "chalkboard"**.
7. Heat the cauldron.
8. Put **4.39 ounces of cauldron mixture "chalkboard"** into the cauldron.
9. Put **39 errors** into the rotating centrifuge.
10. Heat the cauldron.
11. Pour out the mixture from the cauldron to get the **4.87 ounces of cauldron mixture "cauldron mixture "chalkboard" "**.
12. Stop the centrifuge and retrieve the **6.55 ounces of centrifuged mixture "remover and error"**.

13. Use screws to join the **3.72 ounces of marker**, **4.87 ounces of cauldron mixture "cauldron mixture "chalkboard" and 6.55 ounces of centrifuged mixture "remover and error"** together into the form of a usable **eraser**.

## 100 Evidence

How to make **evidence** in 9 easy steps:

### 100.1 Materials

- 7 vague notions of prove
- 12.44 spoonful of confutation
- 7 circumstances
- 2 traces

### 100.2 Tools

- Bucket with hot liquid
- Container
- Centrifuge

### 100.3 Instructions

1. Put **7 circumstances** into the rotating centrifuge.
2. Stir the container.
3. Let the container cool down.
4. Heat the container.
5. Dip **12.44 spoonful of confutation** into the bucket with hot liquid.
6. Speed up the centrifuge.
7. Stop the centrifuge and retrieve the **5.03 ounces of centrifuged mixture "circumstance"**.
8. Dump the **7 vague notions of prove, 12.44 spoonful of wet confutation, 2 traces** and **5.03 ounces of centrifuged mixture "circumstance"** into a pile on the floor.
9. Wait until they magically transform into **evidence**.

## 101 An exchange

How to make an **exchange** in 14 easy steps:

### 101.1 Materials

- 7.44 spoonful of barter
- 7.4 ounces of trade
- 10 clear concepts of transplant
- 4.19 spoonful of switch

### 101.2 Tools

- Centrifuge
- Freezer
- Bonfire
- Electric paint

### 101.3 Instructions

1. Hold **4.19 spoonful of switch** briefly into the bonfire to burn them a bit.
2. Wait for a minute.
3. Put **10 clear concepts of transplant** into the rotating centrifuge.
4. Throw **7.4 ounces of trade** away.
5. Hold **4.19 spoonful of slightly burned switch** briefly into the bonfire to burn them a bit.
6. Stop the centrifuge and retrieve the **25.77 spoonful of centrifuged mixture "transplant"**.
7. Put **25.77 spoonful of centrifuged mixture "transplant"** into the freezer for a while.
8. Fan the flames of the bonfire.
9. Wait.
10. Hold **7.44 spoonful of barter** briefly into the bonfire to burn them a bit.
11. Draw a magic circle on the floor using the electric paint.

12. Draw a triangle into the circle and place **7.44 spoonful of slightly burned barter**, **4.19 spoonful of burned switch** and **25.77 spoonful of cooled centrifuged mixture "transplant"** on each corner.
13. Whisper the following spell: "Asperetium apax kadapatur!"
14. Reluctantly, an **exchange** will appear inside the circle.

## 102 An existence

How to make an **existence** in 12 easy steps:

### 102.1 Materials

- 3.53 spoonful of presence

### 102.2 Tools

- Vessel
- Fireplace
- Stone

### 102.3 Instructions

1. Fan the flames of the fireplace.
2. Crack **3.53 spoonful of presence** with the stone.
3. Smash **3.53 spoonful of cracked presence** with the stone.
4. Put **3.53 spoonful of cracked and smashed presence** into the fireplace.
5. Let the vessel cool down.
6. Heat the vessel.
7. Stir the vessel.
8. Let the vessel cool down.
9. Heat the vessel.
10. Retrieve the **10.9 spoonful of ashes of "cracked and smashed presence"** from the fireplace.
11. Dump the **10.9 spoonful of ashes of "cracked and smashed presence"** into a pile on the floor.
12. Wait until they magically transform into an **existence**.

## 103 An express

How to make an **express** in 7 easy steps:

### 103.1 Materials

- 9.37 spoonful of orient
- 1397.36 ounces of pony
- 3 ideas of being federal
- 10 opinions

### 103.2 Tools

- Purifier
- Bucket with liquid
- Bonfire
- Saw

### 103.3 Instructions

1. Purify **10 opinions** with the purifier.
2. Use the saw to slice **1397.36 ounces of pony** into bits.
3. Dip **9.37 spoonful of orient** into the bucket with liquid.
4. Fan the flames of the bonfire.
5. Hold **3 ideas of being federal** briefly into the bonfire to burn them a bit.
6. Dump the **9.37 spoonful of wet orient**, **1397.36 ounces of sliced pony**, **3 slightly burned ideas of being federal** and **10 purified opinions** into a pile on the floor.
7. Wait until they magically transform into an **express**.

## 104 A face

How to make a **face** in 8 easy steps:

### 104.1 Materials

- 9 mouths
- 9.83 spoonful of mug
- 4.51 ounces of powder
- 18.4 ounces of mask

### 104.2 Tools

- Bucket with hot liquid
- Freezer
- Centrifuge
- Vessel
- Fireplace

### 104.3 Instructions

1. Let the vessel cool down.
2. Put **18.4 ounces of mask** into the freezer for a while.
3. Put **4.51 ounces of powder** into the rotating centrifuge.
4. Dip **9 mouths** into the bucket with hot liquid.
5. Hold **18.4 ounces of cooled mask** briefly into the fireplace to burn them a bit.
6. Stop the centrifuge and retrieve the **16.95 spoonful of centrifuged mixture "powder"**.
7. Dump the **9 wet mouths**, **9.83 spoonful of mug**, **18.4 ounces of cooled and slightly burned mask** and **16.95 spoonful of centrifuged mixture "powder"** into a pile on the floor.
8. Wait until they magically transform into a **face**.

## 105 A fade

How to make a **fade** in 15 easy steps:

### 105.1 Materials

- 7.67 spoonful of death
- 9 disintegrations
- 2 vague notions of decrease
- 2 stains

### 105.2 Tools

- Fireplace
- Vessel
- Freezer
- Centrifuge

### 105.3 Instructions

1. Put **2 stains** into the fireplace.
2. Fan the flames of the fireplace.
3. Put **2 vague notions of decrease** into the freezer for a while.
4. Put **9 disintegrations** into the vessel.
5. Put **7.67 spoonful of death** into the rotating centrifuge.
6. Heat the vessel.
7. Stir the vessel.
8. Let the vessel cool down.
9. Put **2 cooled vague notions of decrease** into the freezer for a while.
10. Hold **2 frozen vague notions of decrease** briefly into the fireplace to burn them a bit.
11. Retrieve the **2.83 spoonful of ashes of "stain"** from the fireplace.
12. Pour out the mixture from the vessel to get the **4.05 ounces of vessel mixture "disintegration"**.

13. Stop the centrifuge and retrieve the **593.76 ounces of centrifuged mixture "death"**.
14. Dump the **2 frozen and slightly burned vague notions of decrease, 2.83 spoonful of ashes of "stain", 4.05 ounces of vessel mixture "disintegration"** and **593.76 ounces of centrifuged mixture "death"** into a pile on the floor.
15. Wait until they magically transform into a **fade**.

## 106 A fan

How to make a **fan** in 6 easy steps:

### 106.1 Materials

- 5 ceilings

### 106.2 Tools

- Container
- Bonfire

### 106.3 Instructions

1. Hold **5 ceilings** briefly into the bonfire to burn them a bit.
2. Put **5 slightly burned ceilings** into the bonfire.
3. Let the container cool down.
4. Retrieve the **7.74 ounces of ashes of "slightly burned ceiling"** from the bonfire.
5. Fold the **7.74 ounces of ashes of "slightly burned ceiling"** together using advanced origami techniques.
6. If you've done it correctly, it could result in a **fan**.

## 107 A fast

How to make a **fast** in 13 easy steps:

### 107.1 Materials

- 7 clear concepts of being brief
- 2.4 spoonful of spree
- 2 clear concepts of ride
- 3.35 spoonful of hunger

### 107.2 Tools

- Fireplace
- Bucket with ionised water
- Centrifuge

### 107.3 Instructions

1. Put **2 clear concepts of ride** into the fireplace.
2. Put **2.4 spoonful of spree** into the rotating centrifuge.
3. Wait for a short time.
4. Grind a little bit of hair from a president to dust. It's not strictly needed, but doesn't hurt I guess?
5. Dip **3.35 spoonful of hunger** into the bucket with ionised water.
6. Stop the centrifuge and retrieve the **6.13 ounces of centrifuged mixture "spree"**.
7. Put **6.13 ounces of centrifuged mixture "spree"** into the rotating centrifuge.
8. Put **3.35 spoonful of wet hunger** into the rotating centrifuge.
9. Dip **7 clear concepts of being brief** into the bucket with ionised water.
10. Stop the centrifuge and retrieve the **16.54 spoonful of centrifuged mixture "centrifuged mixture "spree" and wet hunger"**.
11. Retrieve the **26.55 ounces of ashes of "ride"** from the fireplace.

12. Fold the **7 wet clear concepts of being brief, 16.54 spoonful of centrifuged mixture "centrifuged mixture "spree" and wet hunger"** and **26.55 ounces of ashes of "ride"** together using advanced origami techniques.
13. If you've done it correctly, it should result in a **fast**.

## 108 A favorite

How to make a **favorite** in 10 easy steps:

### 108.1 Materials

- 5 ideas of being special
- 7 preferences
- 34 leasts

### 108.2 Tools

- Purifier
- Fireplace
- Container
- Centrifuge
- Pet ape

### 108.3 Instructions

1. Pet your pet ape.
2. Hold **7 preferences** briefly into the fireplace to burn them a bit.
3. Let the container cool down.
4. Put **7 slightly burned preferences** into the rotating centrifuge.
5. Purify **5 ideas of being special** with the purifier.
6. Put **34 leasts** into the rotating centrifuge.
7. Heat the container.
8. Stop the centrifuge and retrieve the **9.66 spoonful of centrifuged mixture "slightly burned preference and least"**.
9. Fold the **5 purified ideas of being special** and **9.66 spoonful of centrifuged mixture "slightly burned preference and least"** together using advanced origami techniques.
10. If you've done it correctly, it could result in a **favorite**.

## 109 A fawn

How to make a **fawn** in 8 easy steps:

### 109.1 Materials

- 10 does
- 2.24 spoonful of deer

### 109.2 Tools

- Purifier
- Container
- Freezer
- Saw

### 109.3 Instructions

1. Use the saw to slice **2.24 spoonful of deer** into bits.
2. Put **2.24 spoonful of sliced deer** into the freezer for a while.
3. Heat the container.
4. Let the container cool down.
5. Purify **10 does** with the purifier.
6. Heat the container.
7. Fold the **10 purified does** and **2.24 spoonful of sliced and cooled deer** together using advanced origami techniques.
8. If you've done it correctly, it might result in a **fawn**.

## 110 A fence

How to make a **fence** in 6 easy steps:

### 110.1 Materials

- 36.64 spoonful of thicket
- 3.52 ounces of border
- 20.41 ounces of roost
- 10 gates

### 110.2 Tools

- Saw
- Freezer
- Bucket with liquid

### 110.3 Instructions

1. Wait.
2. Dip **36.64 spoonful of thicket** into the bucket with liquid.
3. Use the saw to slice **3.52 ounces of border** into bits.
4. Put **20.41 ounces of roost** into the freezer for a while.
5. Fold the **36.64 spoonful of wet thicket**, **3.52 ounces of sliced border**, **20.41 ounces of cooled roost** and **10 gates** together using advanced origami techniques.
6. If you've done it correctly, it might result in a **fence**.

## 111 A florida

How to make a **florida** in 8 easy steps:

### 111.1 Materials

- 16.2 spoonful of crocodile
- 19 tampas
- 6.69 ounces of center
- 1.74 spoonful of sunshine

### 111.2 Tools

- Cauldron
- Centrifuge
- Nails

### 111.3 Instructions

1. Stir the cauldron.
2. Heat the cauldron.
3. Put **1.74 spoonful of sunshine** into the rotating centrifuge.
4. Stir the cauldron.
5. Speed up the centrifuge.
6. Heat the cauldron.
7. Stop the centrifuge and retrieve the **8.51 spoonful of centrifuged mixture "sunshine"**.
8. Use nails to join the **16.2 spoonful of crocodile**, **19 tampas**, **6.69 ounces of center** and **8.51 spoonful of centrifuged mixture "sunshine"** together into the shape of a perfectly functional **florida**.

## 112 A foil

How to make a **foil** in 8 easy steps:

### 112.1 Materials

- 4.84 ounces of aluminum
- 7 tins
- 27 wrappers

### 112.2 Tools

- Stone
- Container
- Fountain pen

### 112.3 Instructions

1. Smash **7 tins** with the stone.
2. Wait for 8 minutes.
3. Grind a little bit of troll teeth to dust. It's not strictly needed, but doesn't hurt I guess?
4. Let the container cool down.
5. Draw a magic circle on the floor using the fountain pen.
6. Draw a triangle into the circle and place **4.84 ounces of aluminum, 7 smashed tins** and **27 wrappers** on each corner.
7. Chant the following spell: "Butinus monitumuscus! Calceola! Calis! Canome struo euphonubinus!"
8. Slowly, a **foil** will appear inside the circle.

## 113 A forest

How to make a **forest** in 13 easy steps:

### 113.1 Materials

- 2.09 ounces of raccoon
- 26 wildnesses
- 2 trees
- 8.5 spoonful of wilderness

### 113.2 Tools

- Freezer
- Centrifuge
- Vessel
- Nails

### 113.3 Instructions

1. Put **26 wildnesses** into the rotating centrifuge.
2. Wait for a minute.
3. Put **2.09 ounces of raccoon** into the freezer for a while.
4. Eat **2 trees**.
5. Heat the vessel.
6. Put **8.5 spoonful of wilderness** into the rotating centrifuge.
7. Wait for 9 hours.
8. Put **2.09 ounces of cooled raccoon** into the vessel.
9. Speed up the centrifuge.
10. Wait.
11. Stop the centrifuge and retrieve the **7.39 spoonful of centrifuged mixture "wildness and wilderness"**.
12. Pour out the mixture from the vessel to get the **9.77 spoonful of vessel mixture "cooled raccoon"**.
13. Use nails to join the **7.39 spoonful of centrifuged mixture "wildness and wilderness"** and **9.77 spoonful of vessel mixture "cooled raccoon"** together into the shape of a passable **forest**.

## 114 A fox

How to make a **fox** in 5 easy steps:

### 114.1 Materials

- 3.4 ounces of century
- 4.64 spoonful of rabbit
- 20.67 spoonful of hound
- 8 vague notions of being sly

### 114.2 Tools

- Saw

### 114.3 Instructions

1. Wait.
2. Use the saw to slice **20.67 spoonful of hound** into bits.
3. Throw **4.64 spoonful of rabbit**, **20.67 spoonful of sliced hound**, **3.4 ounces of century** and **8 vague notions of being sly** away.
4. Wait.
5. Buy a **fox** on Amazon.

## 115 A freezer

How to make a **freezer** in 12 easy steps:

### 115.1 Materials

- 7.62 ounces of deicer
- 29.2 ounces of refrigerator

### 115.2 Tools

- Centrifuge
- Bucket with hot water
- Fireplace
- Glue

### 115.3 Instructions

1. Dip **29.2 ounces of refrigerator** into the bucket with hot water.
2. Put **7.62 ounces of deicer** into the rotating centrifuge.
3. Hold **29.2 ounces of wet refrigerator** briefly into the fireplace to burn them a bit.
4. Put **29.2 ounces of wet and slightly burned refrigerator** into the rotating centrifuge.
5. Speed up the centrifuge.
6. Fan the flames of the fireplace.
7. Stop the centrifuge and retrieve the **9.37 spoonful of centrifuged mixture "deicer and wet and slightly burned refrigerator"**.
8. Wait for a rather short time.
9. Dip **9.37 spoonful of centrifuged mixture "deicer and wet and slightly burned refrigerator"** into the bucket with hot water.
10. Put **9.37 spoonful of wet centrifuged mixture "deicer and wet and slightly burned refrigerator"** into the rotating centrifuge.
11. Stop the centrifuge and retrieve the **7.78 ounces of centrifuged mixture "wet centrifuged mixture "deicer and wet and slightly burned refrigerator"**.

12. Use glue to join the **7.78 ounces of centrifuged mixture "wet centrifuged mixture "deicer and wet and slightly burned refrigerator""** together into the form of a perfectly functional **freezer**.

## 116 A frost

How to make a **frost** in 8 easy steps:

### 116.1 Materials

- 6.19 ounces of dew
- 94 chills

### 116.2 Tools

- Purifier
- Bucket with ice-cold liquid
- Ballpoint pen

### 116.3 Instructions

1. Purify **94 chills** with the purifier.
2. Wait.
3. Dip **6.19 ounces of dew** into the bucket with ice-cold liquid.
4. Purify **6.19 ounces of wet dew** with the purifier.
5. Draw a magic circle on the floor using the ballpoint pen.
6. Draw a line into the circle and place **6.19 ounces of wet and purified dew** and **94 purified chills** on each end.
7. Intone the following spell: "Defacistator!"
8. Slowly, a **frost** will appear inside the circle.

## 117 A function

How to make a **function** in 15 easy steps:

### 117.1 Materials

- 6.62 spoonful of computer
- 6 physiologies
- 46.78 ounces of use

### 117.2 Tools

- Saw
- Centrifuge
- Hammer
- Container
- Bonfire
- Familiar cat
- Crayon

### 117.3 Instructions

1. Crack **6.62 spoonful of computer** with the hammer.
2. Feed **6.62 spoonful of cracked computer** to your familiar cat.
3. Let the container cool down.
4. Hold **6 physiologies** briefly into the bonfire to burn them a bit.
5. Heat the container.
6. Put **6 slightly burned physiologies** into the rotating centrifuge.
7. Let the container cool down.
8. Use the saw to slice **46.78 ounces of use** into bits.
9. Heat the container.
10. Stop the centrifuge and retrieve the **4.64 spoonful of centrifuged mixture "slightly burned physiology"**.
11. Wait until your familiar cat poops. Receive **4.66 spoonful of a very dirty pile of "cracked computer"**.

12. Draw a magic circle on the floor using the crayon.
13. Draw a triangle into the circle and place **46.78 ounces of sliced use, 4.64 spoonful of centrifuged mixture "slightly burned physiology"** and **4.66 spoonful of a very dirty pile of "cracked computer"** on each corner.
14. Intone the following spell: "Anarulesco!"
15. Reluctantly, a **function** will appear inside the circle.

## 118 Furniture

How to make **furniture** in 9 easy steps:

### 118.1 Materials

- 5 ideas of move
- 3.19 ounces of patio
- 5.25 ounces of dust
- 3 vague notions of drop

### 118.2 Tools

- Freezer
- Centrifuge
- Container

### 118.3 Instructions

1. Let the container cool down.
2. Stir the container.
3. Put **3 vague notions of drop** into the rotating centrifuge.
4. Put **5.25 ounces of dust** into the freezer for a while.
5. Put **5 ideas of move** into the container.
6. Stop the centrifuge and retrieve the **44.81 spoonful of centrifuged mixture "drop"**.
7. Pour out the mixture from the container to get the **16.3 ounces of container mixture "move"**.
8. Fold the **3.19 ounces of patio, 5.25 ounces of cooled dust, 44.81 spoonful of centrifuged mixture "drop"** and **16.3 ounces of container mixture "move"** together using advanced origami techniques.
9. If you've done it correctly, it might result in **furniture**.

## 119 A fuss

How to make a **fuss** in 13 easy steps:

### 119.1 Materials

- 1.22 spoonful of quarrel
- 6.65 spoonful of scolder

### 119.2 Tools

- Fireplace
- Vessel

### 119.3 Instructions

1. Put **1.22 spoonful of quarrel** into the vessel.
2. Fan the flames of the fireplace.
3. Hold **6.65 spoonful of scolder** briefly into the fireplace to burn them a bit.
4. Put **6.65 spoonful of slightly burned scolder** into the vessel.
5. Heat the vessel.
6. Fan the flames of the fireplace.
7. Stir the vessel.
8. Wait for a rather long time.
9. Pour out the mixture from the vessel to get the **43.66 spoonful of vessel mixture "quarrel and slightly burned scolder"**.
10. Put **43.66 spoonful of vessel mixture "quarrel and slightly burned scolder"** into the fireplace.
11. Retrieve the **12.4 spoonful of ashes of "vessel mixture "quarrel and slightly burned scolder" "**from the fireplace.
12. Fold the **12.4 spoonful of ashes of "vessel mixture "quarrel and slightly burned scolder" "**together using advanced origami techniques.
13. If you've done it correctly, it could result in a **fuss**.

## 120 A fuzz

How to make a **fuzz** in 10 easy steps:

### 120.1 Materials

- 3 lints
- 6 peaches

### 120.2 Tools

- Cauldron
- Centrifuge
- Bonfire
- Nails

### 120.3 Instructions

1. Fan the flames of the bonfire.
2. Put **6 peaches** into the rotating centrifuge.
3. Stop the centrifuge and retrieve the **28.57 ounces of centrifuged mixture "peach"**.
4. Hold **28.57 ounces of centrifuged mixture "peach"** briefly into the bonfire to burn them a bit.
5. Put **28.57 ounces of slightly burned centrifuged mixture "peach"** into the bonfire.
6. Wait.
7. Put **3 lints** into the bonfire.
8. Heat the cauldron.
9. Retrieve the **9.48 spoonful of ashes of "slightly burned centrifuged mixture "peach" and lint"** from the bonfire.
10. Use nails to join the **9.48 spoonful of ashes of "slightly burned centrifuged mixture "peach" and lint"** together into the shape of a passable **fuzz**.

## 121 A gang

How to make a **gang** in 5 easy steps:

### 121.1 Materials

- 8.02 ounces of mob
- 37.42 spoonful of bandanna
- 12 crews
- 4.24 ounces of chain

### 121.2 Tools

- Fireplace
- Bucket with clean water
- Glue

### 121.3 Instructions

1. Fan the flames of the fireplace.
2. Dip **4.24 ounces of chain** into the bucket with clean water.
3. Hold **8.02 ounces of mob** briefly into the fireplace to burn them a bit.
4. Fan the flames of the fireplace.
5. Use glue to join the **8.02 ounces of slightly burned mob**, **37.42 spoonful of bandanna**, **12 crews** and **4.24 ounces of wet chain** together into the form of a perfectly functional **gang**.

## 122 Garlic

How to make **garlic** in 7 easy steps:

### 122.1 Materials

- 3 vague notions of spice
- 13.38 ounces of onion
- 25 herbs
- 8.58 spoonful of oregano

### 122.2 Tools

- Container
- Hammer

### 122.3 Instructions

1. Smash **3 vague notions of spice** with the hammer.
2. Crack **13.38 ounces of onion** with the hammer.
3. Let the container cool down.
4. Put **25 herbs** into the container.
5. Pour out the mixture from the container to get the **7.57 spoonful of container mixture "herb"**.
6. Fold the **3 smashed vague notions of spice**, **13.38 ounces of cracked onion**, **8.58 spoonful of oregano** and **7.57 spoonful of container mixture "herb"** together using advanced origami techniques.
7. If you've done it correctly, it should result in **garlic**.

## 123 A gavel

How to make a **gavel** in 12 easy steps:

### 123.1 Materials

- 27.57 ounces of judge

### 123.2 Tools

- Cauldron
- Fireplace

### 123.3 Instructions

1. Put **27.57 ounces of judge** into the cauldron.
2. Fan the flames of the fireplace.
3. Heat the cauldron.
4. Wait for a short time.
5. Pour out the mixture from the cauldron to get the **11.74 ounces of cauldron mixture "judge"**.
6. Put **11.74 ounces of cauldron mixture "judge"** into the fireplace.
7. Heat the cauldron.
8. Let the cauldron cool down.
9. Retrieve the **6.49 spoonful of ashes of "cauldron mixture "judge"** from the fireplace.
10. Heat the cauldron.
11. Dump the **6.49 spoonful of ashes of "cauldron mixture "judge"** into a pile on the floor.
12. Wait until they magically transform into a **gavel**.

## 124 A geese

How to make a **geese** in 11 easy steps:

### 124.1 Materials

- 14.52 ounces of vomit
- 10 geese
- 5 duck

### 124.2 Tools

- Fireplace
- Container
- Centrifuge
- Saw

### 124.3 Instructions

1. Put **10 geese** into the fireplace.
2. Put **14.52 ounces of vomit** into the rotating centrifuge.
3. Use the saw to slice **5 duck** into bits.
4. Fan the flames of the fireplace.
5. Put **5 sliced duck** into the fireplace.
6. Stir the container.
7. Wait for a second.
8. Retrieve the **8.37 ounces of ashes of "goose and sliced ducks"** from the fireplace.
9. Stop the centrifuge and retrieve the **6.29 spoonful of centrifuged mixture "vomit"**.
10. Fold the **8.37 ounces of ashes of "goose and sliced ducks"** and **6.29 spoonful of centrifuged mixture "vomit"** together using advanced origami techniques.
11. If you've done it correctly, it should result in a **geese**.

## 125 A gender

How to make a **gender** in 13 easy steps:

### 125.1 Materials

- 2 sexes
- 19.84 spoonful of stereotype
- 2 biases

### 125.2 Tools

- Stone
- Container
- Bucket with ionised water
- Bonfire
- Crayon

### 125.3 Instructions

1. Fan the flames of the bonfire.
2. Dip **2 biases** into the bucket with ionised water.
3. Stir the container.
4. Let the container cool down.
5. Hold **2 wet biases** briefly into the bonfire to burn them a bit.
6. Dip **2 wet and slightly burned biases** into the bucket with ionised water.
7. Heat the container.
8. Crack **2 sexes** with the stone.
9. Hold **19.84 spoonful of stereotype** briefly into the bonfire to burn them a bit.
10. Draw a magic circle on the floor using the crayon.
11. Draw a triangle into the circle and place **2 cracked sexes, 19.84 spoonful of slightly burned stereotype** and **2 very wet and slightly burned biases** on each corner.
12. Whisper the following spell: "Parcincum mare cron, zabilis elemodi!"
13. Slowly, a **gender** will appear inside the circle.

## 126 A geometry

How to make a **geometry** in 11 easy steps:

### 126.1 Materials

- 2.58 spoonful of square
- 3 cones
- 7 cubes
- 7 apexes

### 126.2 Tools

- Container
- Freezer
- Mortar
- Tape

### 126.3 Instructions

1. Wait.
2. Crack **7 apexes** with the mortar.
3. Heat the container.
4. Wait.
5. Let the container cool down.
6. Put **7 cracked apexes** into the freezer for a while.
7. Stir the container.
8. Heat the container.
9. Put **3 cones** into the container.
10. Pour out the mixture from the container to get the **3.74 ounces of container mixture "cone"**.
11. Use tape to join the **2.58 spoonful of square, 7 cubes, 7 cracked and cooled apexes** and **3.74 ounces of container mixture "cone"** together into the shape of a perfectly functional **geometry**.

## 127 A ghetto

How to make a **ghetto** in 7 easy steps:

### 127.1 Materials

- 9.39 ounces of neighborhood
- 21.27 spoonful of suburb
- 5.28 ounces of slum

### 127.2 Tools

- Vessel
- Purifier
- Bucket with ice-cold water
- Fireplace
- Pet chinchilla
- Glue

### 127.3 Instructions

1. Heat the vessel.
2. Hold **21.27 spoonful of suburb** briefly into the fireplace to burn them a bit.
3. Stir the vessel.
4. Pet your pet chinchilla.
5. Dip **9.39 ounces of neighborhood** into the bucket with ice-cold water.
6. Purify **5.28 ounces of slum** with the purifier.
7. Use glue to join the **9.39 ounces of wet neighborhood, 21.27 spoonful of slightly burned suburb** and **5.28 ounces of purified slum** together into the shape of a passable **ghetto**.

## 128 A giant

How to make a **giant** in 13 easy steps:

### 128.1 Materials

- 10 elves
- 16 cyclones
- 9 ideas of being large
- 9 monsters

### 128.2 Tools

- Purifier
- Centrifuge
- Familiar mouse
- Charcoal pencil

### 128.3 Instructions

1. Let your familiar mouse sniff at **9 ideas of being large**.
2. Purify **9 ideas of being large** with the purifier.
3. Let your familiar mouse lick **9 purified ideas of being large**.
4. Put **9 monsters** into the rotating centrifuge.
5. Put **9 purified and licked ideas of being large** into the rotating centrifuge.
6. Stop the centrifuge and retrieve the **4.02 ounces of centrifuged mixture "monster and purified and licked being large"**.
7. Feed **4.02 ounces of centrifuged mixture "monster and purified and licked being large"** to your familiar mouse.
8. Wait.
9. Wait until your familiar mouse poops. Receive **2.9 ounces of a very dirty pile of "centrifuged mixture "monster and purified and licked being large"**.
10. Draw a magic circle on the floor using the charcoal pencil.

11. Draw a triangle into the circle and place **10 elves, 16 cyclones** and **2.9 ounces of a very dirty pile of "centrifuged mixture "monster and purified and licked being large""** on each corner.
12. Intone the following spell: "Tratia adnuntialis liquagium pigro obseratus caustio, minium!"
13. Reluctantly, a **giant** will appear inside the circle.

## 129 A girl

How to make a **girl** in 14 easy steps:

### 129.1 Materials

- 9 boyfriends
- 6.62 ounces of handbag
- 1.93 ounces of mary
- 4.35 ounces of person

### 129.2 Tools

- Bonfire
- Saw
- Hammer
- Vessel
- Centrifuge
- Pet hummingbird
- Glue

### 129.3 Instructions

1. Wait.
2. Smash **9 boyfriends** with the hammer.
3. Heat the vessel.
4. Use the saw to slice **1.93 ounces of mary** into bits.
5. Stir the vessel.
6. Put **6.62 ounces of handbag** into the bonfire.
7. Put **1.93 ounces of sliced mary** into the rotating centrifuge.
8. Heat the vessel.
9. Feed **9 smashed boyfriends** to your pet hummingbird.
10. Put **4.35 ounces of person** into the bonfire.

11. Retrieve the **5.46 ounces of ashes of "handbag and person"** from the bonfire.
12. Stop the centrifuge and retrieve the **5.94 ounces of centrifuged mixture "sliced mary"**.
13. Wait until your pet hummingbird poops. Receive **4.84 ounces of a very dirty pile of "smashed boyfriend"**.
14. Use glue to join the **5.46 ounces of ashes of "handbag and person"**, **5.94 ounces of centrifuged mixture "sliced mary"** and **4.84 ounces of a very dirty pile of "smashed boyfriend"** together into the form of a perfectly functional **girl**.

## 130 A glands

How to make a **glands** in 9 easy steps:

### 130.1 Materials

- 1.55 spoonful of sweat
- 3 salivas

### 130.2 Tools

- Centrifuge
- Container
- Stone
- Freezer

### 130.3 Instructions

1. Put **1.55 spoonful of sweat** into the rotating centrifuge.
2. Put **3 salivas** into the freezer for a while.
3. Let the container cool down.
4. Heat the container.
5. Crack **3 cooled salivas** with the stone.
6. Wait for 4 seconds.
7. Stop the centrifuge and retrieve the **1.57 ounces of centrifuged mixture "sweat"**.
8. Dump the **3 cooled and cracked salivas** and **1.57 ounces of centrifuged mixture "sweat"** into a pile on the floor.
9. Wait until they magically transform into a **glands**.

## 131 A glue

How to make a **glue** in 11 easy steps:

### 131.1 Materials

- 2 vague notions of being sticky
- 3 bonds
- 11.57 ounces of sticker
- 11 tapes

### 131.2 Tools

- Bonfire
- Mortar
- Vessel
- Paintbrush

### 131.3 Instructions

1. Let the vessel cool down.
2. Put **2 vague notions of being sticky** into the vessel.
3. Stir the vessel.
4. Pour out the mixture from the vessel to get the **3.38 ounces of vessel mixture "being sticky"**.
5. Hold **11 tapes** briefly into the bonfire to burn them a bit.
6. Smash **3 bonds** with the mortar.
7. Heat the vessel.
8. Draw a magic circle on the floor using the paintbrush.
9. Draw a cross into the circle and place **3 smashed bonds, 11.57 ounces of sticker, 11 slightly burned tapes** and **3.38 ounces of vessel mixture "being sticky"** on each corner.
10. Intone the following spell: "Enarchissor ecleblemnia crepantatus, adtonon! Belluvius vesco!"
11. Slowly, a **glue** will appear inside the circle.

## 132 A grab

How to make a **grab** in 15 easy steps:

### 132.1 Materials

- 16.04 ounces of tackle
- 3 vague notions of snatch
- 2 ideas of clench
- 23.68 ounces of grip

### 132.2 Tools

- Centrifuge
- Bucket with clean liquid
- Bonfire
- Hammer
- Ballpoint pen

### 132.3 Instructions

1. Wait.
2. Put **3 vague notions of snatch** into the bonfire.
3. Throw **23.68 ounces of grip** away.
4. Crack **2 ideas of clench** with the hammer.
5. Dip **16.04 ounces of tackle** into the bucket with clean liquid.
6. Fan the flames of the bonfire.
7. Put **16.04 ounces of wet tackle** into the rotating centrifuge.
8. Hold **2 cracked ideas of clench** briefly into the bonfire to burn them a bit.
9. Dip **2 cracked and slightly burned ideas of clench** into the bucket with clean liquid.
10. Stop the centrifuge and retrieve the **6.35 spoonful of centrifuged mixture "wet tackle"**.
11. Retrieve the **6.03 ounces of ashes of "snatch"** from the bonfire.

12. Draw a magic circle on the floor using the ballpoint pen.
13. Draw a triangle into the circle and place **2 cracked, slightly burned and wet ideas of clench, 6.35 spoonful of centrifuged mixture "wet tackle"** and **6.03 ounces of ashes of "snatch"** on each corner.
14. Whisper the following spell: "Demnatus agnosco inoffularis! Galis! Camens naucia trix, poliarum! Direm!"
15. Slowly, a **grab** will appear inside the circle.

## 133 A grandma

How to make a **grandma** in 11 easy steps:

### 133.1 Materials

- 79 vague notions of knit
- 7.25 spoonful of quilting
- 17 vague notions of being relative
- 1.41 ounces of frailness

### 133.2 Tools

- Saw
- Bonfire
- Tape

### 133.3 Instructions

1. Put **7.25 spoonful of quilting** into the bonfire.
2. Put **1.41 ounces of frailness** into the bonfire.
3. Put **17 vague notions of being relative** into the bonfire.
4. Use the saw to slice **79 vague notions of knit** into bits.
5. Put **79 sliced vague notions of knit** into the bonfire.
6. Retrieve the **4.94 spoonful of ashes of "quilting, frailness, being relative and sliced knit"** from the bonfire.
7. Put **4.94 spoonful of ashes of "quilting, frailness, being relative and sliced knit"** into the bonfire.
8. Fan the flames of the bonfire.
9. Retrieve the **3.49 spoonful of ashes of "ashes of "quilting, frailness, being relative and sliced knit""** from the bonfire.
10. Use the saw to slice **3.49 spoonful of ashes of "ashes of "quilting, frailness, being relative and sliced knit""** into bits.
11. Use tape to join the **3.49 spoonful of sliced ashes of "ashes of "quilting, frailness, being relative and sliced knit""** together into the form of a beautiful **grandma**.

## 134 A half

How to make a **half** in 11 easy steps:

### 134.1 Materials

- 5 clear concepts of being mediocre
- 1 vague notion of break
- 17 vague notions of cut
- 8 percentages

### 134.2 Tools

- Fireplace
- Mortar

### 134.3 Instructions

1. Hold **5 clear concepts of being mediocre** briefly into the fireplace to burn them a bit.
2. Fan the flames of the fireplace.
3. Put **5 slightly burned clear concepts of being mediocre** into the fireplace.
4. Hold **1 vague notion of break** briefly into the fireplace to burn it a bit.
5. Hold **17 vague notions of cut** briefly into the fireplace to burn them a bit.
6. Put **8 percentages** into the fireplace.
7. Wait for a rather long time.
8. Smash **1 slightly burned vague notion of break** with the mortar.
9. Retrieve the **37.25 ounces of ashes of "slightly burned being mediocre and percentage"** from the fireplace.
10. Dump the **1 slightly burned and smashed vague notion of break, 17 slightly burned vague notions of cut and 37.25 ounces of ashes of "slightly burned being mediocre and percentage"** into a pile on the floor.
11. Wait until they magically transform into a **half**.

## 135 A harmony

How to make a **harmony** in 16 easy steps:

### 135.1 Materials

- 31.04 spoonful of peace
- 7 clear concepts of being peaceful
- 8.52 spoonful of melody
- 2.63 spoonful of agreement

### 135.2 Tools

- Freezer
- Cauldron
- Centrifuge
- Graphite pencil

### 135.3 Instructions

1. Put **8.52 spoonful of melody** into the rotating centrifuge.
2. Stop the centrifuge and retrieve the **8.1 spoonful of centrifuged mixture "melody"**.
3. Put **7 clear concepts of being peaceful** into the cauldron.
4. Stir the cauldron.
5. Let the cauldron cool down.
6. Put **8.1 spoonful of centrifuged mixture "melody"** into the rotating centrifuge.
7. Put **31.04 spoonful of peace** into the rotating centrifuge.
8. Wait.
9. Speed up the centrifuge.
10. Put **2.63 spoonful of agreement** into the freezer for a while.
11. Pour out the mixture from the cauldron to get the **4.59 spoonful of cauldron mixture "being peaceful"**.
12. Stop the centrifuge and retrieve the **5.19 ounces of centrifuged mixture "centrifuged mixture "melody" and peace"**.

13. Draw a magic circle on the floor using the graphite pencil.
14. Draw a triangle into the circle and place **2.63 spoonful of cooled agreement**, **4.59 spoonful of cauldron mixture "being peaceful"** and **5.19 ounces of centrifuged mixture "centrifuged mixture "melody" and peace"** on each corner.
15. Chant the following spell: "Antatus hanneglutia! Vesco!"
16. Reluctantly, a **harmony** will appear inside the circle.

## 136 A hawk

How to make a **hawk** in 8 easy steps:

### 136.1 Materials

- 8.37 spoonful of owl
- 2 sparrows
- 34 preys

### 136.2 Tools

- Container
- Saw
- Bucket with ionised liquid
- Freezer
- Centrifuge
- Nails

### 136.3 Instructions

1. Dip **2 sparrows** into the bucket with ionised liquid.
2. Put **34 preys** into the rotating centrifuge.
3. Stir the container.
4. Let the container cool down.
5. Put **2 wet sparrows** into the freezer for a while.
6. Use the saw to slice **8.37 spoonful of owl** into bits.
7. Stop the centrifuge and retrieve the **14.31 ounces of centrifuged mixture "prey"**.
8. Use nails to join the **8.37 spoonful of sliced owl, 2 wet and cooled sparrows** and **14.31 ounces of centrifuged mixture "prey"** together into the form of a beautiful **hawk**.

## 137 A heading

How to make a **heading** in 9 easy steps:

### 137.1 Materials

- 17 titles
- 10 directions
- 3.47 ounces of label
- 1.48 spoonful of caption

### 137.2 Tools

- Freezer
- Stone
- Centrifuge
- Charcoal pencil

### 137.3 Instructions

1. Put **1.48 spoonful of caption** into the freezer for a while.
2. Put **10 directions** into the rotating centrifuge.
3. Smash **17 titles** with the stone.
4. Crack **17 smashed titles** with the stone.
5. Stop the centrifuge and retrieve the **2.43 spoonful of centrifuged mixture "direction"**.
6. Draw a magic circle on the floor using the charcoal pencil.
7. Draw a square into the circle and place **17 smashed and cracked titles, 3.47 ounces of label, 1.48 spoonful of cooled caption and 2.43 spoonful of centrifuged mixture "direction"** on each corner.
8. Chant the following spell: "Des!"
9. Suddendly, a **heading** will appear inside the circle.

## 138 A heart

How to make a **heart** in 10 easy steps:

### 138.1 Materials

- 226 spades
- 8.87 spoonful of attack
- 7.02 ounces of liver
- 2.64 spoonful of glands

### 138.2 Tools

- Bucket with clean liquid
- Saw

### 138.3 Instructions

1. Use the saw to slice **8.87 spoonful of attack** into bits.
2. Wait for a long time.
3. Dip **226 spades** into the bucket with clean liquid.
4. Throw **8.87 spoonful of sliced attack** away.
5. Use the saw to slice **2.64 spoonful of glands** into bits.
6. Wait for a rather short time.
7. Dip **226 wet spades** into the bucket with clean liquid.
8. Throw **226 very wet spades**, **2.64 spoonful of sliced glands** and **7.02 ounces of liver** away.
9. Wait.
10. Realise that you never really needed a **heart**.

## 139 A hen

How to make a **hen** in 12 easy steps:

### 139.1 Materials

- 3.48 ounces of egg
- 2.55 ounces of roost
- 10.96 ounces of chick
- 3.28 ounces of eggs

### 139.2 Tools

- Centrifuge
- Vessel
- Purifier
- Fountain pen

### 139.3 Instructions

1. Stir the vessel.
2. Wait.
3. Purify **10.96 ounces of chick** with the purifier.
4. Put **3.48 ounces of egg** into the rotating centrifuge.
5. Heat the vessel.
6. Wait.
7. Eat **3.28 ounces of eggs**.
8. Stop the centrifuge and retrieve the **6.61 spoonful of centrifuged mixture "egg"**.
9. Draw a magic circle on the floor using the fountain pen.
10. Draw a triangle into the circle and place **2.55 ounces of roost, 10.96 ounces of purified chick** and **6.61 spoonful of centrifuged mixture "egg"** on each corner.
11. Chant the following spell: "Altipor perbenebrate!"
12. Suddendly, a **hen** will appear inside the circle.

## 140 An herb

How to make an **herb** in 10 easy steps:

### 140.1 Materials

- 26 parsleys
- 10 cloves
- 26.41 ounces of oregano
- 7.6 spoonful of smoke

### 140.2 Tools

- Centrifuge
- Fireplace
- Purifier
- Bucket with ice-cold water
- Container
- Familiar dog
- Glue

### 140.3 Instructions

1. Put **26.41 ounces of oregano** into the container.
2. Let your familiar dog lick **26 parsleys**.
3. Put **26 licked parsleys** into the rotating centrifuge.
4. Dip **10 cloves** into the bucket with ice-cold water.
5. Pour out the mixture from the container to get the **2.56 ounces of container mixture "oregano"**.
6. Wait for a rather short time.
7. Purify **7.6 spoonful of smoke** with the purifier.
8. Fan the flames of the fireplace.
9. Stop the centrifuge and retrieve the **14.65 ounces of centrifuged mixture "licked parsley"**.

10. Use glue to join the **10 wet cloves**, **7.6 spoonful of purified smoke**, **2.56 ounces of container mixture "oregano"** and **14.65 ounces of centrifuged mixture "licked parsley"** together into the shape of a passable **herb**.

## 141 A hobby

How to make a **hobby** in 10 easy steps:

### 141.1 Materials

- 3.98 spoonful of chore
- 9 activities
- 10 interests
- 5.41 ounces of craft

### 141.2 Tools

- Bonfire
- Centrifuge
- Silverpoint pen

### 141.3 Instructions

1. Put **9 activities** into the rotating centrifuge.
2. Put **10 interests** into the rotating centrifuge.
3. Stop the centrifuge and retrieve the **8.04 ounces of centrifuged mixture "activity and interest"**.
4. Fan the flames of the bonfire.
5. Put **8.04 ounces of centrifuged mixture "activity and interest"** into the bonfire.
6. Retrieve the **44.72 spoonful of ashes of "centrifuged mixture "activity and interest"** from the bonfire.
7. Draw a magic circle on the floor using the silverpoint pen.
8. Draw a triangle into the circle and place **3.98 spoonful of chore, 5.41 ounces of craft and 44.72 spoonful of ashes of "centrifuged mixture "activity and interest"** on each corner.
9. Chant the following spell: "Deho cupineus refacifica! Praeco!"
10. Slowly, a **hobby** will appear inside the circle.

## 142 A horoscope

How to make a **horoscope** in 14 easy steps:

### 142.1 Materials

- 2.99 spoonful of astrology
- 1 leo
- 2 periscopes

### 142.2 Tools

- Cauldron
- Saw
- Centrifuge
- Familiar unicorn
- Stone
- Purifier

### 142.3 Instructions

1. Purify **2.99 spoonful of astrology** with the purifier.
2. Heat the cauldron.
3. Put **1 leo** into the rotating centrifuge.
4. Put **2.99 spoonful of purified astrology** into the cauldron.
5. Let your familiar unicorn sniff at **2 periscopes**.
6. Feed **2 periscopes** to your familiar unicorn.
7. Wait until your familiar unicorn poops. Receive **14.23 spoonful of a very dirty pile of "periscope"**.
8. Heat the cauldron.
9. Smash **14.23 spoonful of a very dirty pile of "periscope"** with the stone.
10. Use the saw to slice **14.23 spoonful of smashed a very dirty pile of "periscope"** into bits.
11. Pour out the mixture from the cauldron to get the **20.71 spoonful of cauldron mixture "purified astrology"**.

12. Stop the centrifuge and retrieve the **8.45 spoonful of centrifuged mixture "leo"**.
13. Dump the **14.23 spoonful of smashed and sliced a very dirty pile of "periscope"**, **20.71 spoonful of cauldron mixture "purified astrology"** and **8.45 spoonful of centrifuged mixture "leo"** into a pile on the floor.
14. Wait until they magically transform into a **horoscope**.

## 143 A hound

How to make a **hound** in 7 easy steps:

### 143.1 Materials

- 9 wolves
- 8 vague notions of being gray
- 9.92 spoonful of blood
- 3.06 ounces of fox

### 143.2 Tools

- Mortar
- Fireplace

### 143.3 Instructions

1. Smash **9.92 spoonful of blood** with the mortar.
2. Fan the flames of the fireplace.
3. Crack **8 vague notions of being gray** with the mortar.
4. Smash **3.06 ounces of fox** with the mortar.
5. Wait for 5 days.
6. Dump the **9 wolves**, **8 cracked vague notions of being gray**, **9.92 spoonful of smashed blood** and **3.06 ounces of smashed fox** into a pile on the floor.
7. Wait until they magically transform into a **hound**.

## 144 An hours

How to make an **hours** in 9 easy steps:

### 144.1 Materials

- 2 **severals**
- 6.65 ounces of minutes
- 35 flexiblenesses
- 17.09 spoonful of after

### 144.2 Tools

- Centrifuge
- Bucket with clean liquid
- Charcoal pencil

### 144.3 Instructions

1. Put **2 severals** into the rotating centrifuge.
2. Wait for 10 hours.
3. Dip **35 flexiblenesses** into the bucket with clean liquid.
4. Put **17.09 spoonful of after** into the rotating centrifuge.
5. Stop the centrifuge and retrieve the **4.56 spoonful of centrifuged mixture "several and after"**.
6. Draw a magic circle on the floor using the charcoal pencil.
7. Draw a triangle into the circle and place **6.65 ounces of minutes**, **35 wet flexiblenesses** and **4.56 spoonful of centrifuged mixture "several and after"** on each corner.
8. Intone the following spell: "Detrum! N anero grato verno!"
9. Slowly, an **hours** will appear inside the circle.

## 145 A humiliate

How to make a **humiliate** in 10 easy steps:

### 145.1 Materials

- 2.58 ounces of insult
- 6 blockages
- 28.38 ounces of shame
- 6 degradations

### 145.2 Tools

- Fireplace
- Graphite pencil

### 145.3 Instructions

1. Hold **6 degradations** briefly into the fireplace to burn them a bit.
2. Hold **2.58 ounces of insult** briefly into the fireplace to burn them a bit.
3. Fan the flames of the fireplace.
4. Hold **28.38 ounces of shame** briefly into the fireplace to burn them a bit.
5. Hold **28.38 ounces of slightly burned shame** briefly into the fireplace to burn them a bit.
6. Hold **2.58 ounces of slightly burned insult** briefly into the fireplace to burn them a bit.
7. Draw a magic circle on the floor using the graphite pencil.
8. Draw a square into the circle and place **2.58 ounces of burned insult, 6 blockages, 28.38 ounces of burned shame** and **6 slightly burned degradations** on each corner.
9. Chant the following spell: "Anx!"
10. Slowly, a **humiliate** will appear inside the circle.

## 146 Hydrogen

How to make **hydrogen** in 13 easy steps:

### 146.1 Materials

- 3.47 spoonful of oxygen
- 6.79 spoonful of helium
- 6.34 ounces of peroxide
- 6.25 spoonful of element

### 146.2 Tools

- Centrifuge
- Freezer
- Cauldron

### 146.3 Instructions

1. Stir the cauldron.
2. Let the cauldron cool down.
3. Heat the cauldron.
4. Put **6.34 ounces of peroxide** into the rotating centrifuge.
5. Let the cauldron cool down.
6. Put **6.25 spoonful of element** into the freezer for a while.
7. Heat the cauldron.
8. Put **6.79 spoonful of helium** into the rotating centrifuge.
9. Put **6.25 spoonful of cooled element** into the cauldron.
10. Stop the centrifuge and retrieve the **3.46 spoonful of centrifuged mixture "peroxide and helium"**.
11. Pour out the mixture from the cauldron to get the **7.99 spoonful of cauldron mixture "cooled element"**.
12. Fold the **3.47 spoonful of oxygen**, **3.46 spoonful of centrifuged mixture "peroxide and helium"** and **7.99 spoonful of cauldron mixture "cooled element"** together using advanced origami techniques.
13. If you've done it correctly, it might result in **hydrogen**.

## 147 A hyper

How to make a **hyper** in 4 easy steps:

### 147.1 Materials

- 30 clear concepts of being active
- 10.55 ounces of rock
- 37.22 ounces of anxiety
- 7.46 ounces of earnestness

### 147.2 Tools

- Container
- Glue

### 147.3 Instructions

1. Heat the container.
2. Let the container cool down.
3. Wait.
4. Use glue to join the **30 clear concepts of being active**, **10.55 ounces of rock**, **37.22 ounces of anxiety** and **7.46 ounces of earnestness** together into the form of a beautiful **hyper**.

## 148 An imagination

How to make an **imagination** in 11 easy steps:

### 148.1 Materials

- 6.7 spoonful of creativity
- 9.93 ounces of image
- 9.44 ounces of pretense
- 5.73 spoonful of reality

### 148.2 Tools

- Hammer
- Cauldron
- Centrifuge

### 148.3 Instructions

1. Put **9.44 ounces of pretense** into the rotating centrifuge.
2. Wait.
3. Let the cauldron cool down.
4. Put **9.93 ounces of image** into the cauldron.
5. Smash **5.73 spoonful of reality** with the hammer.
6. Speed up the centrifuge.
7. Wait for 8 minutes.
8. Pour out the mixture from the cauldron to get the **10.76 spoonful of cauldron mixture "image"**.
9. Stop the centrifuge and retrieve the **19.53 ounces of centrifuged mixture "pretense"**.
10. Fold the **6.7 spoonful of creativity**, **5.73 spoonful of smashed reality**, **10.76 spoonful of cauldron mixture "image"** and **19.53 ounces of centrifuged mixture "pretense"** together using advanced origami techniques.
11. If you've done it correctly, it could result in an **imagination**.

## 149 An inertia

How to make an **inertia** in 12 easy steps:

### 149.1 Materials

- 1 matter

### 149.2 Tools

- Bonfire
- Freezer
- Vessel
- Hammer

### 149.3 Instructions

1. Stir the vessel.
2. Put **1 matter** into the bonfire.
3. Let the vessel cool down.
4. Wait for a day.
5. Fan the flames of the bonfire.
6. Retrieve the **8.06 ounces of ashes of "matter"** from the bonfire.
7. Smash **8.06 ounces of ashes of "matter"** with the hammer.
8. Put **8.06 ounces of smashed ashes of "matter"** into the freezer for a while.
9. Put **8.06 ounces of smashed and cooled ashes of "matter"** into the bonfire.
10. Retrieve the **3.04 ounces of ashes of "smashed and cooled ashes of "matter""** from the bonfire.
11. Dump the **3.04 ounces of ashes of "smashed and cooled ashes of "matter""** into a pile on the floor.
12. Wait until they magically transform into an **inertia**.

## 150 An ink

How to make an **ink** in 6 easy steps:

### 150.1 Materials

- 4 squids
- 7 newspapers
- 8.81 ounces of pen
- 1 smear

### 150.2 Tools

- Purifier
- Mortar
- Freezer
- Saw
- Nails

### 150.3 Instructions

1. Put **1 smear** into the freezer for a while.
2. Wait for a second.
3. Use the saw to slice **8.81 ounces of pen** into bits.
4. Purify **7 newspapers** with the purifier.
5. Smash **8.81 ounces of sliced pen** with the mortar.
6. Use nails to join the **4 squids**, **7 purified newspapers**, **8.81 ounces of sliced and smashed pen** and **1 cooled smear** together into the shape of a perfectly functional **ink**.

## 151 An inmate

How to make an **inmate** in 9 easy steps:

### 151.1 Materials

- 9.15 spoonful of primate
- 18 cells
- 8 prisoners
- 6.87 ounces of prison

### 151.2 Tools

- Mortar
- Vessel
- Fountain pen

### 151.3 Instructions

1. Put **8 prisoners** into the vessel.
2. Let the vessel cool down.
3. Crack **18 cells** with the mortar.
4. Put **9.15 spoonful of primate** into the vessel.
5. Pour out the mixture from the vessel to get the **2.6 spoonful of vessel mixture "prisoner and primate"**.
6. Draw a magic circle on the floor using the fountain pen.
7. Draw a triangle into the circle and place **18 cracked cells, 6.87 ounces of prison** and **2.6 spoonful of vessel mixture "prisoner and primate"** on each corner.
8. Whisper the following spell: "Deprectio gynemodeo fodi, apidarium!"
9. Slowly, an **inmate** will appear inside the circle.

## 152 Intelligence

How to make **intelligence** in 7 easy steps:

### 152.1 Materials

- 12 insights
- 39.51 ounces of mind
- 9.19 spoonful of skill
- 17.63 ounces of logic

### 152.2 Tools

- Bonfire

### 152.3 Instructions

1. Fan the flames of the bonfire.
2. Put **12 insights** into the bonfire.
3. Wait for a second.
4. Put **17.63 ounces of logic** into the bonfire.
5. Retrieve the **1.83 ounces of ashes of "insight and logic"** from the bonfire.
6. Fold the **39.51 ounces of mind**, **9.19 spoonful of skill** and **1.83 ounces of ashes of "insight and logic"** together using advanced origami techniques.
7. If you've done it correctly, it should result in **intelligence**.

## 153 A jar

How to make a **jar** in 10 easy steps:

### 153.1 Materials

- 42.78 spoonful of mason
- 39.56 spoonful of flask
- 14 bottles
- 4 jugs

### 153.2 Tools

- Saw
- Freezer
- Centrifuge

### 153.3 Instructions

1. Wait.
2. Put **4 jugs** into the rotating centrifuge.
3. Use the saw to slice **42.78 spoonful of mason** into bits.
4. Put **42.78 spoonful of sliced mason** into the freezer for a while.
5. Speed up the centrifuge.
6. Put **14 bottles** into the rotating centrifuge.
7. Put **42.78 spoonful of sliced and cooled mason** into the freezer for a while.
8. Stop the centrifuge and retrieve the **20.33 ounces of centrifuged mixture "jug and bottle"**.
9. Dump the **42.78 spoonful of sliced and frozen mason, 39.56 spoonful of flask** and **20.33 ounces of centrifuged mixture "jug and bottle"** into a pile on the floor.
10. Wait until they magically transform into a **jar**.

## 154 A jet

How to make a **jet** in 11 easy steps:

### 154.1 Materials

- 4.37 spoonful of airplane
- 6.8 ounces of air force
- 3.87 ounces of mirage
- 8.98 ounces of plane

### 154.2 Tools

- Centrifuge
- Bonfire
- Purifier
- Container

### 154.3 Instructions

1. Purify **4.37 spoonful of airplane** with the purifier.
2. Put **3.87 ounces of mirage** into the bonfire.
3. Put **4.37 spoonful of purified airplane** into the rotating centrifuge.
4. Heat the container.
5. Let the container cool down.
6. Stir the container.
7. Put **8.98 ounces of plane** into the bonfire.
8. Stop the centrifuge and retrieve the **1.7 spoonful of centrifuged mixture "purified airplane"**.
9. Retrieve the **4.97 spoonful of ashes of "mirage and plane"** from the bonfire.
10. Fold the **6.8 ounces of air force, 1.7 spoonful of centrifuged mixture "purified airplane"** and **4.97 spoonful of ashes of "mirage and plane"** together using advanced origami techniques.
11. If you've done it correctly, it might result in a **jet**.

## 155 A journal

How to make a **journal** in 12 easy steps:

### 155.1 Materials

- 23.35 ounces of newspaper
- 3 diaries
- 7.7 spoonful of dairy
- 2.81 spoonful of editorial

### 155.2 Tools

- Bonfire
- Saw
- Bucket with clean liquid
- Stone

### 155.3 Instructions

1. Put **23.35 ounces of newspaper** into the bonfire.
2. Dip **7.7 spoonful of dairy** into the bucket with clean liquid.
3. Retrieve the **9.53 spoonful of ashes of "newspaper"** from the bonfire.
4. Crack **9.53 spoonful of ashes of "newspaper"** with the stone.
5. Use the saw to slice **2.81 spoonful of editorial** into bits.
6. Dip **9.53 spoonful of cracked ashes of "newspaper"** into the bucket with clean liquid.
7. Smash **3 diaries** with the stone.
8. Wait for 3 seconds.
9. Crack **2.81 spoonful of sliced editorial** with the stone.
10. Use the saw to slice **3 smashed diaries** into bits.
11. Fold the **3 smashed and sliced diaries**, **7.7 spoonful of wet dairy**, **2.81 spoonful of sliced and cracked editorial** and **9.53 spoonful of cracked and wet ashes of "newspaper"** together using advanced origami techniques.
12. If you've done it correctly, it might result in a **journal**.

## 156 A knife

How to make a **knife** in 13 easy steps:

### 156.1 Materials

- 3.84 spoonful of weapon
- 26.79 spoonful of dullness
- 4 surgeons
- 7 clear concepts of hunting

### 156.2 Tools

- Saw
- Cauldron
- Centrifuge
- Charcoal pencil

### 156.3 Instructions

1. Stir the cauldron.
2. Put **26.79 spoonful of dullness** into the rotating centrifuge.
3. Use the saw to slice **4 surgeons** into bits.
4. Speed up the centrifuge.
5. Stop the centrifuge and retrieve the **2.56 spoonful of centrifuged mixture "dullness"**.
6. Put **2.56 spoonful of centrifuged mixture "dullness"** into the rotating centrifuge.
7. Put **4 sliced surgeons** into the rotating centrifuge.
8. Wait for a very short time.
9. Stop the centrifuge and retrieve the **22.76 ounces of centrifuged mixture "centrifuged mixture "dullness" and sliced surgeon"**.
10. Draw a magic circle on the floor using the charcoal pencil.
11. Draw a triangle into the circle and place **3.84 spoonful of weapon, 7 clear concepts of hunting** and **22.76 ounces of centrifuged mixture "centrifuged mixture "dullness" and sliced surgeon"** on each corner.

12. Whisper the following spell: "Comminatus!"
13. Slowly, a **knife** will appear inside the circle.

## 157 A knot

How to make a **knot** in 16 easy steps:

### 157.1 Materials

- 7.49 ounces of tie
- 9.04 ounces of string
- 5.04 spoonful of loop
- 9 ropes

### 157.2 Tools

- Pet chinchilla
- Centrifuge
- Cauldron
- Hammer
- Silverpoint pen

### 157.3 Instructions

1. Wait for 3 seconds.
2. Let your pet chinchilla lick **5.04 spoonful of loop**.
3. Crack **9 ropes** with the hammer.
4. Smash **7.49 ounces of tie** with the hammer.
5. Put **5.04 spoonful of licked loop** into the rotating centrifuge.
6. Heat the cauldron.
7. Feed **7.49 ounces of smashed tie** to your pet chinchilla.
8. Pet your pet chinchilla.
9. Let the cauldron cool down.
10. Heat the cauldron.
11. Wait until your pet chinchilla poops. Receive **9.59 ounces of a very dirty pile of "smashed tie"**.
12. Stop the centrifuge and retrieve the **37.83 ounces of centrifuged mixture "licked loop"**.

13. Draw a magic circle on the floor using the silverpoint pen.
14. Draw a square into the circle and place **9.04 ounces of string, 9 cracked ropes, 9.59 ounces of a very dirty pile of "smashed tie"** and **37.83 ounces of centrifuged mixture "licked loop"** on each corner.
15. Whisper the following spell: "Auctio aprunculus! Sauculla colluscus bulus! Pitis recetrator chamarrhum craticus seceptorium!"
16. Slowly, a **knot** will appear inside the circle.

## 158 A lap

How to make a **lap** in 12 easy steps:

### 158.1 Materials

- 52.7 spoonful of napkin
- 6 vague notions of sitting

### 158.2 Tools

- Bonfire
- Centrifuge
- Screws

### 158.3 Instructions

1. Fan the flames of the bonfire.
2. Put **52.7 spoonful of napkin** into the bonfire.
3. Put **6 vague notions of sitting** into the rotating centrifuge.
4. Retrieve the **9.39 spoonful of ashes of "napkin"** from the bonfire.
5. Put **9.39 spoonful of ashes of "napkin"** into the bonfire.
6. Fan the flames of the bonfire.
7. Speed up the centrifuge.
8. Wait.
9. Fan the flames of the bonfire.
10. Retrieve the **5.31 spoonful of ashes of "ashes of "napkin" from the bonfire.**
11. Stop the centrifuge and retrieve the **16.29 spoonful of centrifuged mixture "sitting"**.
12. Use screws to join the **5.31 spoonful of ashes of "ashes of "napkin"** and **16.29 spoonful of centrifuged mixture "sitting"** together into the form of a beautiful **lap**.

## 159 A laser

How to make a **laser** in 11 easy steps:

### 159.1 Materials

- 1 ray
- 2 disintegrations
- 2.98 spoonful of beam
- 11.44 spoonful of disc

### 159.2 Tools

- Cauldron
- Centrifuge
- Hammer
- Saw

### 159.3 Instructions

1. Crack **11.44 spoonful of disc** with the hammer.
2. Stir the cauldron.
3. Smash **1 ray** with the hammer.
4. Use the saw to slice **2 disintegrations** into bits.
5. Put **2.98 spoonful of beam** into the rotating centrifuge.
6. Heat the cauldron.
7. Stir the cauldron.
8. Let the cauldron cool down.
9. Stop the centrifuge and retrieve the **7.86 ounces of centrifuged mixture "beam"**.
10. Fold the **1 smashed ray, 2 sliced disintegrations, 11.44 spoonful of cracked disc** and **7.86 ounces of centrifuged mixture "beam"** together using advanced origami techniques.
11. If you've done it correctly, it should result in a **laser**.

## 160 A laws

How to make a **laws** in 10 easy steps:

### 160.1 Materials

- 4.05 ounces of regulations
- 46.44 spoonful of legislature
- 5.41 spoonful of governor

### 160.2 Tools

- Freezer
- Hammer
- Saw
- Bucket with water
- Cauldron

### 160.3 Instructions

1. Use the saw to slice **4.05 ounces of regulations** into bits.
2. Stir the cauldron.
3. Put **5.41 spoonful of governor** into the freezer for a while.
4. Dip **46.44 spoonful of legislature** into the bucket with water.
5. Smash **46.44 spoonful of wet legislature** with the hammer.
6. Put **5.41 spoonful of cooled governor** into the freezer for a while.
7. Stir the cauldron.
8. Let the cauldron cool down.
9. Dump the **4.05 ounces of sliced regulations**, **46.44 spoonful of wet and smashed legislature** and **5.41 spoonful of frozen governor** into a pile on the floor.
10. Wait until they magically transform into a **laws**.

## 161 A lawsuit

How to make a **lawsuit** in 12 easy steps:

### 161.1 Materials

- 12 ideas of sue
- 39.15 ounces of lawyer
- 9 libels

### 161.2 Tools

- Centrifuge
- Vessel
- Fireplace
- Bucket with hot liquid

### 161.3 Instructions

1. Fan the flames of the fireplace.
2. Put **39.15 ounces of lawyer** into the rotating centrifuge.
3. Dip **9 libels** into the bucket with hot liquid.
4. Let the vessel cool down.
5. Put **9 wet libels** into the fireplace.
6. Hold **12 ideas of sue** briefly into the fireplace to burn them a bit.
7. Put **12 slightly burned ideas of sue** into the vessel.
8. Retrieve the **9.57 spoonful of ashes of "wet libel"** from the fireplace.
9. Stop the centrifuge and retrieve the **36.82 spoonful of centrifuged mixture "lawyer"**.
10. Pour out the mixture from the vessel to get the **8.37 spoonful of vessel mixture "slightly burned sue"**.
11. Fold the **9.57 spoonful of ashes of "wet libel"**, **36.82 spoonful of centrifuged mixture "lawyer"** and **8.37 spoonful of vessel mixture "slightly burned sue"** together using advanced origami techniques.
12. If you've done it correctly, it might result in a **lawsuit**.

## 162 A layer

How to make a **layer** in 4 easy steps:

### 162.1 Materials

- 8 bricks
- 5.13 ounces of zone
- 9 ozones

### 162.2 Tools

- Familiar ape
- Bonfire

### 162.3 Instructions

1. Hold **5.13 ounces of zone** briefly into the bonfire to burn them a bit.
2. Let your familiar ape sniff at **5.13 ounces of slightly burned zone**.
3. Fold the **8 bricks**, **5.13 ounces of slightly burned zone** and **9 ozones** together using advanced origami techniques.
4. If you've done it correctly, it could result in a **layer**.

## 163 A leaf

How to make a **leaf** in 8 easy steps:

### 163.1 Materials

- 6.38 ounces of brown
- 19.55 ounces of lettuce
- 43 spinaches
- 41.41 spoonful of fig

### 163.2 Tools

- Centrifuge

### 163.3 Instructions

1. Put **43 spinaches** into the rotating centrifuge.
2. Put **41.41 spoonful of fig** into the rotating centrifuge.
3. Speed up the centrifuge.
4. Put **6.38 ounces of brown** into the rotating centrifuge.
5. Stop the centrifuge and retrieve the **6.3 ounces of centrifuged mixture "spinach, fig and brown"**.
6. Put **19.55 ounces of lettuce** into the rotating centrifuge.
7. Dump the **6.3 ounces of centrifuged mixture "spinach, fig and brown"** into a pile on the floor.
8. Wait until they magically transform into a **leaf**.

## 164 A liberal

How to make a **liberal** in 13 easy steps:

### 164.1 Materials

- 4 democrats
- 9.79 ounces of arts

### 164.2 Tools

- Centrifuge
- Purifier
- Fireplace

### 164.3 Instructions

1. Put **4 democrats** into the rotating centrifuge.
2. Put **9.79 ounces of arts** into the fireplace.
3. Retrieve the **6.49 ounces of ashes of "arts"** from the fireplace.
4. Put **6.49 ounces of ashes of "arts"** into the fireplace.
5. Wait.
6. Stop the centrifuge and retrieve the **2.17 spoonful of centrifuged mixture "democrat"**.
7. Purify **2.17 spoonful of centrifuged mixture "democrat"** with the purifier.
8. Put **2.17 spoonful of purified centrifuged mixture "democrat"** into the rotating centrifuge.
9. Wait for a day.
10. Stop the centrifuge and retrieve the **4.25 ounces of centrifuged mixture "purified centrifuged mixture "democrat""**.
11. Retrieve the **26.72 ounces of ashes of "ashes of "arts""** from the fireplace.
12. Fold the **4.25 ounces of centrifuged mixture "purified centrifuged mixture "democrat""** and **26.72 ounces of ashes of "ashes of "arts""** together using advanced origami techniques.
13. If you've done it correctly, it could result in a **liberal**.

## 165 A limb

How to make a **limb** in 12 easy steps:

### 165.1 Materials

- 43 arms
- 3.18 spoonful of stub
- 6.54 spoonful of appendage
- 4 trees

### 165.2 Tools

- Cauldron
- Charcoal pencil

### 165.3 Instructions

1. Stir the cauldron.
2. Let the cauldron cool down.
3. Put **3.18 spoonful of stub** into the cauldron.
4. Heat the cauldron.
5. Stir the cauldron.
6. Wait for a second.
7. Pour out the mixture from the cauldron to get the **1.36 spoonful of cauldron mixture "stub"**.
8. Stir the cauldron.
9. Draw a magic circle on the floor using the charcoal pencil.
10. Draw a square into the circle and place **43 arms, 6.54 spoonful of appendage, 4 trees** and **1.36 spoonful of cauldron mixture "stub"** on each corner.
11. Whisper the following spell: "Cucuria bicumvirion!"
12. Reluctantly, a **limb** will appear inside the circle.

## 166 A limit

How to make a **limit** in 15 easy steps:

### 166.1 Materials

- 9 ideas of being extreme
- 3 restrictions
- 45.8 spoonful of capacity
- 4.28 ounces of speed

### 166.2 Tools

- Familiar chinchilla
- Container
- Purifier
- Charcoal pencil

### 166.3 Instructions

1. Purify **3 restrictions** with the purifier.
2. Feed **3 purified restrictions** to your familiar chinchilla.
3. Stir the container.
4. Let the container cool down.
5. Put **9 ideas of being extreme** into the container.
6. Feed **45.8 spoonful of capacity** to your familiar chinchilla.
7. Let your familiar chinchilla sniff at **4.28 ounces of speed**.
8. Heat the container.
9. Wait until your familiar chinchilla poops. Receive **4.63 ounces of a very dirty pile of "purified restriction and capacity"**.
10. Put **4.63 ounces of a very dirty pile of "purified restriction and capacity"** into the container.
11. Pour out the mixture from the container to get the **5.18 ounces of container mixture "being extreme and a very dirty pile of "purified restriction and capacity"**.

12. Draw a magic circle on the floor using the charcoal pencil.
13. Draw a line into the circle and place **4.28 ounces of speed** and **5.18 ounces of container mixture "being extreme and a very dirty pile of "purified restriction and capacity" "** on each end.
14. Chant the following spell: "Collelco inthonus sentia! Inter invice cite, sicius! Aus invice! Mono adstris! Tendomilla!"
15. Slowly, a **limit** will appear inside the circle.

## 167 A loaf

How to make a **loaf** in 7 easy steps:

### 167.1 Materials

- 19 meats
- 4.15 ounces of bread

### 167.2 Tools

- Hammer

### 167.3 Instructions

1. Smash **4.15 ounces of bread** with the hammer.
2. Crack **4.15 ounces of smashed bread** with the hammer.
3. Grind a little bit of bat wings to dust. It's not strictly needed, but doesn't hurt I guess?
4. Wait.
5. Crack **19 meats** with the hammer.
6. Fold the **19 cracked meats** and **4.15 ounces of smashed and cracked bread** together using advanced origami techniques.
7. If you've done it correctly, it could result in a **loaf**.

## 168 A lobe

How to make a **lobe** in 9 easy steps:

### 168.1 Materials

- 29.5 ounces of ear
- 6.51 ounces of earring

### 168.2 Tools

- Centrifuge

### 168.3 Instructions

1. Put **6.51 ounces of earring** into the rotating centrifuge.
2. Wait for a short time.
3. Pick up **29.5 ounces of ear**. Turn them around. Look at them from every every side. Shake your head dissatisfied. Put them back.
4. Speed up the centrifuge.
5. Put **29.5 ounces of ear** into the rotating centrifuge.
6. Wait.
7. Stop the centrifuge and retrieve the **19.16 spoonful of centrifuged mixture "earring and ear"**.
8. Dump the **19.16 spoonful of centrifuged mixture "earring and ear"** into a pile on the floor.
9. Wait until they magically transform into a **lobe**.

## 169 A lollipop

How to make a **lollipop** in 9 easy steps:

### 169.1 Materials

- 3 clear concepts of suck
- 4.72 spoonful of succor
- 8.38 spoonful of lap

### 169.2 Tools

- Purifier
- Centrifuge

### 169.3 Instructions

1. Put **8.38 spoonful of lap** into the rotating centrifuge.
2. Put **3 clear concepts of suck** into the rotating centrifuge.
3. Purify **4.72 spoonful of succor** with the purifier.
4. Stop the centrifuge and retrieve the **15.27 ounces of centrifuged mixture "lap and suck"**.
5. Put **15.27 ounces of centrifuged mixture "lap and suck"** into the rotating centrifuge.
6. Wait.
7. Stop the centrifuge and retrieve the **1.48 spoonful of centrifuged mixture "centrifuged mixture "lap and suck" "**.
8. Fold the **4.72 spoonful of purified succor** and **1.48 spoonful of centrifuged mixture "centrifuged mixture "lap and suck" "** together using advanced origami techniques.
9. If you've done it correctly, it could result in a **lollipop**.

## 170 A lubricate

How to make a **lubricate** in 12 easy steps:

### 170.1 Materials

- 3 greases
- 3.33 spoonful of oil

### 170.2 Tools

- Mortar
- Saw

### 170.3 Instructions

1. Crack **3 greases** with the mortar.
2. Use the saw to slice **3 cracked greases** into bits.
3. Smash **3 cracked and sliced greases** with the mortar.
4. Crack **3 cracked, sliced and smashed greases** with the mortar.
5. Use the saw to slice **3 crushed, sliced and smashed greases** into bits.
6. Smash **3.33 spoonful of oil** with the mortar.
7. Crack **3.33 spoonful of smashed oil** with the mortar.
8. Wait for a very short time.
9. Smash **3 crushed, fragmented and smashed greases** with the mortar.
10. Use the saw to slice **3.33 spoonful of smashed and cracked oil** into bits.
11. Dump the **3 crushed, fragmented and pulverized greases** and **3.33 spoonful of smashed, cracked and sliced oil** into a pile on the floor.
12. Wait until they magically transform into a **lubricate**.

## 171 A luxury

How to make a **luxury** in 13 easy steps:

### 171.1 Materials

- 3 pleasures
- 8.84 spoonful of wealth
- 6.46 spoonful of limousine
- 9.28 ounces of elegance

### 171.2 Tools

- Hammer
- Purifier
- Container
- Bonfire
- Centrifuge
- Freezer

### 171.3 Instructions

1. Put **3 pleasures** into the freezer for a while.
2. Put **6.46 spoonful of limousine** into the bonfire.
3. Smash **8.84 spoonful of wealth** with the hammer.
4. Put **9.28 ounces of elegance** into the bonfire.
5. Put **8.84 spoonful of smashed wealth** into the rotating centrifuge.
6. Hold **3 cooled pleasures** briefly into the bonfire to burn them a bit.
7. Let the container cool down.
8. Purify **3 cooled and slightly burned pleasures** with the purifier.
9. Put **3 cooled, slightly burned and purified pleasures** into the freezer for a while.
10. Retrieve the **3.38 spoonful of ashes of "limousine and elegance"** from the bonfire.

11. Stop the centrifuge and retrieve the **5.09 spoonful of centrifuged mixture "smashed wealth"**.
12. Fold the **3 frozen, slightly burned and purified pleasures, 3.38 spoonful of ashes of "limousine and elegance"** and **5.09 spoonful of centrifuged mixture "smashed wealth"** together using advanced origami techniques.
13. If you've done it correctly, it should result in a **luxury**.

## 172 A majority

How to make a **majority** in 8 easy steps:

### 172.1 Materials

- 8.96 spoonful of minority
- 12 mosts
- 11 vague notions of being vast
- 28 democracies

### 172.2 Tools

- Hammer
- Bucket with clean liquid
- Saw

### 172.3 Instructions

1. Use the saw to slice **12 mosts** into bits.
2. Crack **28 democracies** with the hammer.
3. Dip **8.96 spoonful of minority** into the bucket with clean liquid.
4. Use the saw to slice **8.96 spoonful of wet minority** into bits.
5. Crack **12 sliced mosts** with the hammer.
6. Smash **11 vague notions of being vast** with the hammer.
7. Fold the **8.96 spoonful of wet and sliced minority**, **12 sliced and cracked mosts**, **11 smashed vague notions of being vast** and **28 cracked democracies** together using advanced origami techniques.
8. If you've done it correctly, it could result in a **majority**.

## 173 A margin

How to make a **margin** in 6 easy steps:

### 173.1 Materials

- 10 profits

### 173.2 Tools

- Cauldron
- Screws

### 173.3 Instructions

1. Wait.
2. Let the cauldron cool down.
3. Put **10 profits** into the cauldron.
4. Wait for 3 seconds.
5. Pour out the mixture from the cauldron to get the **28.01 spoonful of cauldron mixture "profit"**.
6. Use screws to join the **28.01 spoonful of cauldron mixture "profit"** together into the shape of a perfectly functional **margin**.

## 174 A market

How to make a **market** in 8 easy steps:

### 174.1 Materials

- 12 stores
- 1 stock
- 33.63 ounces of sales
- 10 fashions

### 174.2 Tools

- Fireplace
- Freezer
- Centrifuge
- Electric paint

### 174.3 Instructions

1. Fan the flames of the fireplace.
2. Put **12 stores** into the freezer for a while.
3. Put **10 fashions** into the rotating centrifuge.
4. Stop the centrifuge and retrieve the **3.11 ounces of centrifuged mixture "fashion"**.
5. Draw a magic circle on the floor using the electric paint.
6. Draw a square into the circle and place **12 cooled stores, 1 stock, 33.63 ounces of sales** and **3.11 ounces of centrifuged mixture "fashion"** on each corner.
7. Whisper the following spell: "Pros prodio accatarius, paristivus!"
8. Reluctantly, a **market** will appear inside the circle.

## 175 A meet

How to make a **meet** in 7 easy steps:

### 175.1 Materials

- 6.68 ounces of place
- 7.18 ounces of engagement
- 5 attenders
- 10 strangers

### 175.2 Tools

- Cauldron
- Mortar

### 175.3 Instructions

1. Crack **5 attenders** with the mortar.
2. Smash **7.18 ounces of engagement** with the mortar.
3. Put **6.68 ounces of place** into the cauldron.
4. Let the cauldron cool down.
5. Pour out the mixture from the cauldron to get the **6.3 spoonful of cauldron mixture "place"**.
6. Fold the **7.18 ounces of smashed engagement, 5 cracked attenders, 10 strangers** and **6.3 spoonful of cauldron mixture "place"** together using advanced origami techniques.
7. If you've done it correctly, it could result in a **meet**.

## 176 A method

How to make a **method** in 12 easy steps:

### 176.1 Materials

- 2.66 ounces of plan
- 5 sciences
- 16.76 spoonful of system
- 4.99 spoonful of how

### 176.2 Tools

- Centrifuge
- Vessel
- Freezer
- Bucket with hot liquid
- Bonfire

### 176.3 Instructions

1. Put **4.99 spoonful of how** into the freezer for a while.
2. Put **4.99 spoonful of cooled how** into the rotating centrifuge.
3. Stop the centrifuge and retrieve the **4.38 ounces of centrifuged mixture "cooled how"**.
4. Put **5 sciences** into the freezer for a while.
5. Fan the flames of the bonfire.
6. Dip **16.76 spoonful of system** into the bucket with hot liquid.
7. Put **16.76 spoonful of wet system** into the rotating centrifuge.
8. Put **5 cooled sciences** into the vessel.
9. Stop the centrifuge and retrieve the **6.69 ounces of centrifuged mixture "wet system"**.
10. Pour out the mixture from the vessel to get the **9.62 ounces of vessel mixture "cooled science"**.

11. Fold the **2.66 ounces of plan**, **4.38 ounces of centrifuged mixture "cooled how"**, **6.69 ounces of centrifuged mixture "wet system"** and **9.62 ounces of vessel mixture "cooled science"** together using advanced origami techniques.
12. If you've done it correctly, it might result in a **method**.

## 177 A metric

How to make a **metric** in 8 easy steps:

### 177.1 Materials

- 3.15 spoonful of kilometer
- 17 measurements

### 177.2 Tools

- Saw
- Purifier
- Centrifuge
- Vessel
- Hammer
- Glue

### 177.3 Instructions

1. Put **3.15 spoonful of kilometer** into the rotating centrifuge.
2. Purify **17 measurements** with the purifier.
3. Wait for an hour.
4. Use the saw to slice **17 purified measurements** into bits.
5. Heat the vessel.
6. Crack **17 purified and sliced measurements** with the hammer.
7. Stop the centrifuge and retrieve the **44.61 ounces of centrifuged mixture "kilometer"**.
8. Use glue to join the **17 purified, sliced and cracked measurements** and **44.61 ounces of centrifuged mixture "kilometer"** together into the form of a perfectly functional **metric**.

## 178 A microwave

How to make a **microwave** in 8 easy steps:

### 178.1 Materials

- 17.63 spoonful of refrigerator
- 3.07 spoonful of oven
- 10 appliances
- 9.42 spoonful of tupperware

### 178.2 Tools

- Purifier
- Centrifuge
- Bonfire
- Pet mouse

### 178.3 Instructions

1. Purify **10 appliances** with the purifier.
2. Hold **9.42 spoonful of tupperware** briefly into the bonfire to burn them a bit.
3. Let your pet mouse sniff at **10 purified appliances**.
4. Put **9.42 spoonful of slightly burned tupperware** into the rotating centrifuge.
5. Fan the flames of the bonfire.
6. Stop the centrifuge and retrieve the **4.6 spoonful of centrifuged mixture "slightly burned tupperware"**.
7. Dump the **17.63 spoonful of refrigerator**, **3.07 spoonful of oven**, **10 purified appliances** and **4.6 spoonful of centrifuged mixture "slightly burned tupperware"** into a pile on the floor.
8. Wait until they magically transform into a **microwave**.

## 179 A might

How to make a **might** in 10 easy steps:

### 179.1 Materials

- 9 maybes
- 3.21 spoonful of inclination
- 4 probabilities

### 179.2 Tools

- Centrifuge
- Purifier

### 179.3 Instructions

1. Put **4 probabilities** into the rotating centrifuge.
2. Put **3.21 spoonful of inclination** into the rotating centrifuge.
3. Wait.
4. Pick up **9 maybes**. Turn them around. Look at them from every every side. Shake your head with disgust. Put them back.
5. Purify **9 maybes** with the purifier.
6. Put **9 purified maybes** into the rotating centrifuge.
7. Wait.
8. Stop the centrifuge and retrieve the **9.73 spoonful of centrifuged mixture "probability, inclination and purified maybe"**.
9. Put **9.73 spoonful of centrifuged mixture "probability, inclination and purified maybe"** into the rotating centrifuge.
10. Turn around. You will find that a **might** was there all along.

## 180 A migraine

How to make a **migraine** in 13 easy steps:

### 180.1 Materials

- 4.62 spoonful of headache

### 180.2 Tools

- Fireplace
- Vessel
- Pet ape
- Fountain pen

### 180.3 Instructions

1. Fan the flames of the fireplace.
2. Stir the vessel.
3. Put **4.62 spoonful of headache** into the fireplace.
4. Pet your pet ape.
5. Stir the vessel.
6. Heat the vessel.
7. Fan the flames of the fireplace.
8. Pet your pet ape.
9. Retrieve the **8.16 ounces of ashes of "headache"** from the fireplace.
10. Draw a magic circle on the floor using the fountain pen.
11. Place **8.16 ounces of ashes of "headache"** into the circle.
12. Whisper the following spell: "Treus resco!"
13. Slowly, a **migraine** will appear inside the circle.

## 181 A mile

How to make a **mile** in 10 easy steps:

### 181.1 Materials

- 19.6 spoonful of marker
- 1.6 ounces of kilometer
- 9 distances
- 48 yards

### 181.2 Tools

- Saw
- Purifier
- Freezer
- Bucket with clean liquid
- Mortar
- Tape

### 181.3 Instructions

1. Put **19.6 spoonful of marker** into the freezer for a while.
2. Crack **1.6 ounces of kilometer** with the mortar.
3. Purify **9 distances** with the purifier.
4. Smash **19.6 spoonful of cooled marker** with the mortar.
5. Crack **48 yards** with the mortar.
6. Use the saw to slice **9 purified distances** into bits.
7. Dip **19.6 spoonful of cooled and smashed marker** into the bucket with clean liquid.
8. Purify **19.6 spoonful of cooled, smashed and wet marker** with the purifier.
9. Crack **48 cracked yards** with the mortar.
10. Use tape to join the **19.6 spoonful of cooled, smashed, wet and purified marker, 1.6 ounces of cracked kilometer, 9 purified and sliced distances** and **48 crushed yards** together into the form of a usable **mile**.

## 182 A misses

How to make a **misses** in 13 easy steps:

### 182.1 Materials

- 10 misses

### 182.2 Tools

- Mortar
- Centrifuge
- Bonfire
- Familiar cat
- Fountain pen

### 182.3 Instructions

1. Let your familiar cat sniff at **10 misses**.
2. Smash **10 misses** with the mortar.
3. Put **10 smashed misses** into the rotating centrifuge.
4. Fan the flames of the bonfire.
5. Wait.
6. Pet your familiar cat.
7. Fan the flames of the bonfire.
8. Speed up the centrifuge.
9. Stop the centrifuge and retrieve the **38.52 ounces of centrifuged mixture "smashed miss"**.
10. Draw a magic circle on the floor using the fountain pen.
11. Place **38.52 ounces of centrifuged mixture "smashed miss"** into the circle.
12. Whisper the following spell: "Dedulter!"
13. Reluctantly, a **misses** will appear inside the circle.

## 183 A mom

How to make a **mom** in 10 easy steps:

### 183.1 Materials

- 17 vague notions of being lenient
- 9 clear concepts of cooking
- 4.04 ounces of pop
- 6 vague notions of sue

### 183.2 Tools

- Bucket with ice-cold water
- Centrifuge
- Purifier

### 183.3 Instructions

1. Wait for an hour.
2. Put **6 vague notions of sue** into the rotating centrifuge.
3. Dip **9 clear concepts of cooking** into the bucket with ice-cold water.
4. Purify **9 wet clear concepts of cooking** with the purifier.
5. Stop the centrifuge and retrieve the **22.08 spoonful of centrifuged mixture "sue"**.
6. Wait.
7. Put **22.08 spoonful of centrifuged mixture "sue"** into the rotating centrifuge.
8. Stop the centrifuge and retrieve the **13.8 ounces of centrifuged mixture "centrifuged mixture "sue"**.
9. Dump the **17 vague notions of being lenient, 9 wet and purified clear concepts of cooking, 4.04 ounces of pop and 13.8 ounces of centrifuged mixture "centrifuged mixture "sue"** into a pile on the floor.
10. Wait until they magically transform into a **mom**.

## 184 A mood

How to make a **mood** in 7 easy steps:

### 184.1 Materials

- 8.36 spoonful of hostility
- 8 depressions
- 15.14 spoonful of attitude
- 6.19 ounces of behavior

### 184.2 Tools

- Bonfire
- Bucket with liquid
- Centrifuge

### 184.3 Instructions

1. Dip **8 depressions** into the bucket with liquid.
2. Put **6.19 ounces of behavior** into the rotating centrifuge.
3. Put **8.36 spoonful of hostility** into the rotating centrifuge.
4. Hold **15.14 spoonful of attitude** briefly into the bonfire to burn them a bit.
5. Stop the centrifuge and retrieve the **9.1 ounces of centrifuged mixture "behavior and hostility"**.
6. Dump the **8 wet depressions**, **15.14 spoonful of slightly burned attitude** and **9.1 ounces of centrifuged mixture "behavior and hostility"** into a pile on the floor.
7. Wait until they magically transform into a **mood**.

## 185 A moose

How to make a **moose** in 10 easy steps:

### 185.1 Materials

- 27.76 spoonful of elk
- 11.92 ounces of antlers
- 1.95 spoonful of lodge
- 8.6 ounces of bison

### 185.2 Tools

- Bonfire
- Purifier
- Centrifuge

### 185.3 Instructions

1. Put **27.76 spoonful of elk** into the rotating centrifuge.
2. Purify **8.6 ounces of bison** with the purifier.
3. Speed up the centrifuge.
4. Put **8.6 ounces of purified bison** into the rotating centrifuge.
5. Hold **1.95 spoonful of lodge** briefly into the bonfire to burn them a bit.
6. Purify **11.92 ounces of antlers** with the purifier.
7. Speed up the centrifuge.
8. Stop the centrifuge and retrieve the **1.47 ounces of centrifuged mixture "elk and purified bison"**.
9. Dump the **11.92 ounces of purified antlers**, **1.95 spoonful of slightly burned lodge** and **1.47 ounces of centrifuged mixture "elk and purified bison"** into a pile on the floor.
10. Wait until they magically transform into a **moose**.

## 186 A muck

How to make a **muck** in 12 easy steps:

### 186.1 Materials

- 6 marshes
- 8.27 spoonful of swamp
- 9.47 ounces of goo

### 186.2 Tools

- Centrifuge
- Bucket with liquid
- Purifier
- Freezer
- Cauldron
- Stone
- Bonfire
- Screws

### 186.3 Instructions

1. Let the cauldron cool down.
2. Dip **9.47 ounces of goo** into the bucket with liquid.
3. Fan the flames of the bonfire.
4. Smash **6 marshes** with the stone.
5. Put **8.27 spoonful of swamp** into the rotating centrifuge.
6. Put **9.47 ounces of wet goo** into the cauldron.
7. Stir the cauldron.
8. Purify **6 smashed marshes** with the purifier.
9. Put **6 smashed and purified marshes** into the freezer for a while.
10. Stop the centrifuge and retrieve the **1.83 ounces of centrifuged mixture "swamp"**.

11. Pour out the mixture from the cauldron to get the **3.18 ounces of cauldron mixture "wet goo"**.
12. Use screws to join the **6 smashed, purified and cooled marshes, 1.83 ounces of centrifuged mixture "swamp"** and **3.18 ounces of cauldron mixture "wet goo"** together into the form of a perfectly functional muck.

## 187 A mummy

How to make a **mummy** in 10 easy steps:

### 187.1 Materials

- 62 curses
- 31 tombs

### 187.2 Tools

- Bucket with ionised liquid
- Centrifuge
- Charcoal pencil

### 187.3 Instructions

1. Dip **31 tombs** into the bucket with ionised liquid.
2. Wait.
3. Put **62 curses** into the rotating centrifuge.
4. Speed up the centrifuge.
5. Stop the centrifuge and retrieve the **117.08 spoonful of centrifuged mixture "curse"**.
6. Dip **117.08 spoonful of centrifuged mixture "curse"** into the bucket with ionised liquid.
7. Draw a magic circle on the floor using the charcoal pencil.
8. Draw a line into the circle and place **31 wet tombs** and **117.08 spoonful of wet centrifuged mixture "curse"** on each end.
9. Whisper the following spell: "Inetrabilis officio acquiribo, anniterullus!"
10. Slowly, a **mummy** will appear inside the circle.

## 188 A neglect

How to make a **neglect** in 14 easy steps:

### 188.1 Materials

- 5.29 spoonful of care
- 4 diligences
- 1 renunciation
- 52 disregards

### 188.2 Tools

- Mortar
- Fireplace
- Centrifuge

### 188.3 Instructions

1. Put **1 renunciation** into the fireplace.
2. Put **5.29 spoonful of care** into the rotating centrifuge.
3. Wait.
4. Retrieve the **30.45 spoonful of ashes of "renunciation"** from the fireplace.
5. Fan the flames of the fireplace.
6. Crack **30.45 spoonful of ashes of "renunciation"** with the mortar.
7. Smash **4 diligences** with the mortar.
8. Put **30.45 spoonful of cracked ashes of "renunciation"** into the rotating centrifuge.
9. Put **4 smashed diligences** into the fireplace.
10. Put **52 disregards** into the rotating centrifuge.
11. Retrieve the **1.19 ounces of ashes of "smashed diligence"** from the fireplace.
12. Stop the centrifuge and retrieve the **1.53 spoonful of centrifuged mixture "care, cracked ashes of "renunciation" and disregard"**.

13. Dump the **1.19 ounces of ashes of "smashed diligence"** and **1.53 spoonful of centrifuged mixture "care, cracked ashes of "renunciation" and disregard"** into a pile on the floor.
14. Wait until they magically transform into a **neglect**.

## 189 A negotiation

How to make a **negotiation** in 8 easy steps:

### 189.1 Materials

- 63.02 spoonful of contract

### 189.2 Tools

- Hammer
- Bucket with hot water
- Freezer
- Centrifuge
- Nails

### 189.3 Instructions

1. Put **63.02 spoonful of contract** into the rotating centrifuge.
2. Speed up the centrifuge.
3. Wait for 7 seconds.
4. Stop the centrifuge and retrieve the **4.47 ounces of centrifuged mixture "contract"**.
5. Dip **4.47 ounces of centrifuged mixture "contract"** into the bucket with hot water.
6. Put **4.47 ounces of wet centrifuged mixture "contract"** into the freezer for a while.
7. Smash **4.47 ounces of wet and cooled centrifuged mixture "contract"** with the hammer.
8. Use nails to join the **4.47 ounces of wet, cooled and smashed centrifuged mixture "contract"** together into the shape of a perfectly functional **negotiation**.

## 190 A nest

How to make a **nest** in 12 easy steps:

### 190.1 Materials

- 42.51 ounces of emptiness
- 4.57 ounces of haven
- 97 robins
- 3 eagles

### 190.2 Tools

- Hammer
- Centrifuge
- Saw
- Bonfire
- Screws

### 190.3 Instructions

1. Crack **4.57 ounces of haven** with the hammer.
2. Use the saw to slice **3 eagles** into bits.
3. Put **97 robins** into the bonfire.
4. Put **4.57 ounces of cracked haven** into the bonfire.
5. Wait for a rather short time.
6. Put **3 sliced eagles** into the rotating centrifuge.
7. Put **42.51 ounces of emptiness** into the rotating centrifuge.
8. Speed up the centrifuge.
9. Stop the centrifuge and retrieve the **12.33 ounces of centrifuged mixture "sliced eagle and emptiness"**.
10. Put **12.33 ounces of centrifuged mixture "sliced eagle and emptiness"** into the bonfire.
11. Retrieve the **20.34 ounces of ashes of "robin, cracked haven and centrifuged mixture "sliced eagle and emptiness"** from the bonfire.

12. Use screws to join the **20.34 ounces of ashes of "robin, cracked haven and centrifuged mixture "sliced eagle and emptiness""** together into the shape of a passable **nest**.

## 191 A novice

How to make a **novice** in 12 easy steps:

### 191.1 Materials

- 5 experts
- 7.53 spoonful of mastery
- 17 vague notions of being professional
- 9 beginners

### 191.2 Tools

- Bucket with hot liquid
- Fireplace
- Centrifuge
- Vessel
- Saw

### 191.3 Instructions

1. Dip **9 beginners** into the bucket with hot liquid.
2. Use the saw to slice **7.53 spoonful of mastery** into bits.
3. Put **7.53 spoonful of sliced mastery** into the fireplace.
4. Dip **9 wet beginners** into the bucket with hot liquid.
5. Wait.
6. Put **17 vague notions of being professional** into the rotating centrifuge.
7. Dip **9 very wet beginners** into the bucket with hot liquid.
8. Heat the vessel.
9. Retrieve the **9.39 spoonful of ashes of "sliced mastery"** from the fireplace.
10. Stop the centrifuge and retrieve the **4.72 ounces of centrifuged mixture "being professional"**.

11. Fold the **5 experts**, **9 extremely wet beginners**, **9.39 spoonful of ashes of "sliced mastery"** and **4.72 ounces of centrifuged mixture "being professional"** together using advanced origami techniques.
12. If you've done it correctly, it might result in a **novice**.

## 192 An offense

How to make an **offense** in 6 easy steps:

### 192.1 Materials

- 15.84 ounces of defense
- 3.98 ounces of capital
- 13 clear concepts of being federal
- 14.9 spoonful of violation

### 192.2 Tools

- Freezer
- Bonfire
- Bucket with ice-cold water
- Cauldron
- Tape

### 192.3 Instructions

1. Stir the cauldron.
2. Dip **3.98 ounces of capital** into the bucket with ice-cold water.
3. Fan the flames of the bonfire.
4. Put **13 clear concepts of being federal** into the freezer for a while.
5. Wait for a very long time.
6. Use tape to join the **15.84 ounces of defense**, **3.98 ounces of wet capital**, **13 cooled clear concepts of being federal** and **14.9 spoonful of violation** together into the shape of a usable **offense**.

## 193 An orthodontist

How to make an **orthodontist** in 9 easy steps:

### 193.1 Materials

- 6.8 ounces of dentist

### 193.2 Tools

- Vessel
- Centrifuge

### 193.3 Instructions

1. Put **6.8 ounces of dentist** into the rotating centrifuge.
2. Speed up the centrifuge.
3. Heat the vessel.
4. Stop the centrifuge and retrieve the **6.54 ounces of centrifuged mixture "dentist"**.
5. Stir the vessel.
6. Wait.
7. Heat the vessel.
8. Fold the **6.54 ounces of centrifuged mixture "dentist"** together using advanced origami techniques.
9. If you've done it correctly, it might result in an **orthodontist**.

## 194 An otter

How to make an **otter** in 16 easy steps:

### 194.1 Materials

- 73.67 spoonful of possum
- 42.33 ounces of beaver
- 2.37 spoonful of seal

### 194.2 Tools

- Centrifuge
- Fireplace
- Bucket with ionised water
- Purifier
- Stone
- Crayon

### 194.3 Instructions

1. Fan the flames of the fireplace.
2. Dip **42.33 ounces of beaver** into the bucket with ionised water.
3. Purify **42.33 ounces of wet beaver** with the purifier.
4. Crack **42.33 ounces of wet and purified beaver** with the stone.
5. Wait for a very short time.
6. Smash **73.67 spoonful of possum** with the stone.
7. Fan the flames of the fireplace.
8. Put **42.33 ounces of wet, purified and cracked beaver** into the rotating centrifuge.
9. Hold **73.67 spoonful of smashed possum** briefly into the fireplace to burn them a bit.
10. Put **73.67 spoonful of smashed and slightly burned possum** into the fireplace.
11. Stop the centrifuge and retrieve the **3.6 spoonful of centrifuged mixture "wet, purified and cracked beaver"**.

12. Retrieve the **8.45 spoonful of ashes of "smashed and slightly burned possum"** from the fireplace.
13. Draw a magic circle on the floor using the crayon.
14. Draw a triangle into the circle and place **2.37 spoonful of seal, 3.6 spoonful of centrifuged mixture "wet, purified and cracked beaver"** and **8.45 spoonful of ashes of "smashed and slightly burned possum"** on each corner.
15. Intone the following spell: "Miscentitus decalis faciator calebrior additia certo restimus!"
16. Slowly, an **otter** will appear inside the circle.

## 195 A pancakes

How to make a **pancakes** in 3 easy steps:

### 195.1 Materials

- 70.81 spoonful of blueberry
- 8.66 spoonful of waffles
- 4.13 spoonful of maple
- 20.7 spoonful of stack

### 195.2 Tools

- Container
- Freezer
- Tape

### 195.3 Instructions

1. Stir the container.
2. Put **8.66 spoonful of waffles** into the freezer for a while.
3. Use tape to join the **70.81 spoonful of blueberry**, **8.66 spoonful of cooled waffles**, **4.13 spoonful of maple** and **20.7 spoonful of stack** together into the shape of a usable **pancakes**.

## 196 A pantyhose

How to make a **pantyhose** in 8 easy steps:

### 196.1 Materials

- 10 sock
- 2.43 ounces of legs
- 1 vague notion of shearing
- 3 nylon

### 196.2 Tools

- Container
- Freezer
- Electric paint

### 196.3 Instructions

1. Put **1 vague notion of shearing** into the container.
2. Put **2.43 ounces of legs** into the freezer for a while.
3. Stir the container.
4. Pour out the mixture from the container to get the **7.42 spoonful of container mixture "shearing"**.
5. Draw a magic circle on the floor using the electric paint.
6. Draw a cross into the circle and place **10 sock, 2.43 ounces of cooled legs, 3 nylon** and **7.42 spoonful of container mixture "shearing"** on each corner.
7. Chant the following spell: "Dir! Aurotartio exsultrucus coicositor allium prospicus pareor, excidationo! Arium perfurnula sublio! Thecatus!"
8. Reluctantly, a **pantyhose** will appear inside the circle.

## 197 A paragraph

How to make a **paragraph** in 13 easy steps:

### 197.1 Materials

- 5 essays
- 3.07 spoonful of passage
- 31.99 ounces of margin
- 33.8 spoonful of prose

### 197.2 Tools

- Bonfire
- Cauldron
- Hammer
- Purifier

### 197.3 Instructions

1. Purify **33.8 spoonful of prose** with the purifier.
2. Crack **5 essays** with the hammer.
3. Put **31.99 ounces of margin** into the bonfire.
4. Fan the flames of the bonfire.
5. Hold **5 cracked essays** briefly into the bonfire to burn them a bit.
6. Hold **3.07 spoonful of passage** briefly into the bonfire to burn them a bit.
7. Heat the cauldron.
8. Wait.
9. Stir the cauldron.
10. Crack **33.8 spoonful of purified prose** with the hammer.
11. Retrieve the **71.88 spoonful of ashes of "margin"** from the bonfire.
12. Fold the **5 cracked and slightly burned essays, 3.07 spoonful of slightly burned passage, 33.8 spoonful of purified and cracked prose** and **71.88 spoonful of ashes of "margin"** together using advanced origami techniques.
13. If you've done it correctly, it could result in a **paragraph**.

## 198 A pastry

How to make a **pastry** in 11 easy steps:

### 198.1 Materials

- 4 ideas of being french
- 73.33 spoonful of dough
- 25 vague notions of being tart
- 3.15 spoonful of baker

### 198.2 Tools

- Mortar
- Saw
- Freezer
- Bucket with clean water
- Fireplace
- Container

### 198.3 Instructions

1. Crack **4 ideas of being french** with the mortar.
2. Put **25 vague notions of being tart** into the freezer for a while.
3. Smash **3.15 spoonful of baker** with the mortar.
4. Dip **73.33 spoonful of dough** into the bucket with clean water.
5. Put **4 cracked ideas of being french** into the container.
6. Use the saw to slice **73.33 spoonful of wet dough** into bits.
7. Put **73.33 spoonful of wet and sliced dough** into the fireplace.
8. Retrieve the **20.76 spoonful of ashes of "wet and sliced dough"** from the fireplace.
9. Pour out the mixture from the container to get the **42.05 spoonful of container mixture "cracked being french"**.

10. Fold the **25 cooled vague notions of being tart**, **3.15 spoonful of smashed baker**, **20.76 spoonful of ashes of "wet and sliced dough"** and **42.05 spoonful of container mixture "cracked being french"** together using advanced origami techniques.
11. If you've done it correctly, it might result in a **pastry**.

## 199 A pedestrian

How to make a **pedestrian** in 12 easy steps:

### 199.1 Materials

- 34 vague notions of crossing
- 4 walkways
- 17 walkers
- 26.54 ounces of sidewalk

### 199.2 Tools

- Saw
- Hammer
- Cauldron

### 199.3 Instructions

1. Wait for a minute.
2. Stir the cauldron.
3. Put **4 walkways** into the cauldron.
4. Heat the cauldron.
5. Let the cauldron cool down.
6. Stir the cauldron.
7. Crack **17 walkers** with the hammer.
8. Use the saw to slice **17 cracked walkers** into bits.
9. Let the cauldron cool down.
10. Pour out the mixture from the cauldron to get the **1.43 spoonful of cauldron mixture "walkway"**.
11. Dump the **34 vague notions of crossing, 17 cracked and sliced walkers, 26.54 ounces of sidewalk** and **1.43 spoonful of cauldron mixture "walkway"** into a pile on the floor.
12. Wait until they magically transform into a **pedestrian**.

## 200 A penguin

How to make a **penguin** in 16 easy steps:

### 200.1 Materials

- 19 tuxedoes
- 7.7 ounces of birds
- 6.11 ounces of seal

### 200.2 Tools

- Centrifuge
- Hammer
- Container
- Fireplace
- Fountain pen

### 200.3 Instructions

1. Wait.
2. Put **6.11 ounces of seal** into the rotating centrifuge.
3. Crack **19 tuxedoes** with the hammer.
4. Put **7.7 ounces of birds** into the fireplace.
5. Put **19 cracked tuxedoes** into the container.
6. Heat the container.
7. Stir the container.
8. Pour out the mixture from the container to get the **8.29 spoonful of container mixture "cracked tuxedo"**.
9. Put **8.29 spoonful of container mixture "cracked tuxedo"** into the container.
10. Retrieve the **1.23 spoonful of ashes of "birds"** from the fireplace.
11. Stop the centrifuge and retrieve the **32.58 spoonful of centrifuged mixture "seal"**.
12. Pour out the mixture from the container to get the **16.83 spoonful of container mixture "container mixture "cracked tuxedo" "**.

13. Draw a magic circle on the floor using the fountain pen.
14. Draw a triangle into the circle and place **1.23 spoonful of ashes of "birds", 32.58 spoonful of centrifuged mixture "seal" and 16.83 spoonful of container mixture "container mixture "cracked tuxedo"** on each corner.
15. Chant the following spell: "Municus agnanterio sarans umbo sica, adium mastor!"
16. Reluctantly, a **penguin** will appear inside the circle.

## 201 A perception

How to make a **perception** in 9 easy steps:

### 201.1 Materials

- 18.34 spoonful of awareness
- 35 deceptions
- 3.01 spoonful of insight

### 201.2 Tools

- Purifier
- Bucket with clean water
- Hammer
- Freezer
- Silverpoint pen

### 201.3 Instructions

1. Purify **3.01 spoonful of insight** with the purifier.
2. Put **35 deceptions** into the freezer for a while.
3. Dip **3.01 spoonful of purified insight** into the bucket with clean water.
4. Smash **35 cooled deceptions** with the hammer.
5. Wait for a long time.
6. Draw a magic circle on the floor using the silverpoint pen.
7. Draw a triangle into the circle and place **18.34 spoonful of awareness, 35 cooled and smashed deceptions** and **3.01 spoonful of purified and wet insight** on each corner.
8. Whisper the following spell: "Deviolatius candor conis domitas, irideophonum! Arus protum inhibertuor metributio! Auteologitto acceleola sparcutus conscen!"
9. Reluctantly, a **perception** will appear inside the circle.

## 202 A physiology

How to make a **physiology** in 7 easy steps:

### 202.1 Materials

- 6.83 spoonful of anatomy

### 202.2 Tools

- Freezer
- Fireplace

### 202.3 Instructions

1. Put **6.83 spoonful of anatomy** into the freezer for a while.
2. Wait.
3. Throw **6.83 spoonful of cooled anatomy** away.
4. Fan the flames of the fireplace.
5. Wait.
6. Grind a little bit of troll teeth to dust. It's not strictly needed, but doesn't hurt I guess?
7. Realise that you never really needed a **physiology**.

## 203 A pie

How to make a **pie** in 10 easy steps:

### 203.1 Materials

- 2 peaches
- 1 humility
- 8.81 ounces of pizza
- 78 ideas of baked

### 203.2 Tools

- Freezer
- Centrifuge
- Container
- Bonfire
- Purifier

### 203.3 Instructions

1. Purify **1 humility** with the purifier.
2. Heat the container.
3. Put **78 ideas of baked** into the rotating centrifuge.
4. Stop the centrifuge and retrieve the **1.6 ounces of centrifuged mixture "baked"**.
5. Fan the flames of the bonfire.
6. Put **2 peaches** into the rotating centrifuge.
7. Put **8.81 ounces of pizza** into the freezer for a while.
8. Stop the centrifuge and retrieve the **6.87 ounces of centrifuged mixture "peach"**.
9. Dump the **1 purified humility, 8.81 ounces of cooled pizza, 1.6 ounces of centrifuged mixture "baked"** and **6.87 ounces of centrifuged mixture "peach"** into a pile on the floor.
10. Wait until they magically transform into a **pie**.

## 204 A piece

How to make a **piece** in 7 easy steps:

### 204.1 Materials

- 12 parts
- 7.2 spoonful of conversation
- 1.27 spoonful of sliver
- 2.5 spoonful of puzzle

### 204.2 Tools

- Container
- Freezer
- Fireplace

### 204.3 Instructions

1. Put **7.2 spoonful of conversation** into the freezer for a while.
2. Put **2.5 spoonful of puzzle** into the container.
3. Put **12 parts** into the fireplace.
4. Pour out the mixture from the container to get the **9.88 spoonful of container mixture "puzzle"**.
5. Retrieve the **28.06 spoonful of ashes of "part"** from the fireplace.
6. Dump the **7.2 spoonful of cooled conversation**, **1.27 spoonful of sliver**, **9.88 spoonful of container mixture "puzzle"** and **28.06 spoonful of ashes of "part"** into a pile on the floor.
7. Wait until they magically transform into a **piece**.

## 205 A pine

How to make a **pine** in 8 easy steps:

### 205.1 Materials

- 3.78 spoonful of tree
- 1.1 ounces of trees
- 5 oaks
- 104.42 spoonful of sap

### 205.2 Tools

- Purifier
- Centrifuge
- Bucket with liquid
- Glue

### 205.3 Instructions

1. Put **3.78 spoonful of tree** into the rotating centrifuge.
2. Dip **5 oaks** into the bucket with liquid.
3. Put **1.1 ounces of trees** into the rotating centrifuge.
4. Purify **5 wet oaks** with the purifier.
5. Put **5 wet and purified oaks** into the rotating centrifuge.
6. Speed up the centrifuge.
7. Stop the centrifuge and retrieve the **7.68 ounces of centrifuged mixture "tree, trees and wet and purified oak"**.
8. Use glue to join the **104.42 spoonful of sap** and **7.68 ounces of centrifuged mixture "tree, trees and wet and purified oak"** together into the shape of a perfectly functional **pine**.

## 206 A plan

How to make a **plan** in 11 easy steps:

### 206.1 Materials

- 5.1 spoonful of preparation
- 8 ideas
- 4 objectives
- 10.77 ounces of secretive

### 206.2 Tools

- Bonfire
- Centrifuge
- Cauldron
- Bucket with hot liquid
- Freezer
- Glue

### 206.3 Instructions

1. Put **8 ideas** into the bonfire.
2. Retrieve the **5.21 spoonful of ashes of "idea"** from the bonfire.
3. Heat the cauldron.
4. Put **5.1 spoonful of preparation** into the rotating centrifuge.
5. Put **5.21 spoonful of ashes of "idea"** into the freezer for a while.
6. Put **5.21 spoonful of cooled ashes of "idea"** into the cauldron.
7. Dip **10.77 ounces of secretive** into the bucket with hot liquid.
8. Heat the cauldron.
9. Stop the centrifuge and retrieve the **55.48 ounces of centrifuged mixture "preparation"**.
10. Pour out the mixture from the cauldron to get the **9.66 spoonful of cauldron mixture "cooled ashes of "idea"'**.

11. Use glue to join the **4 objectives**, **10.77 ounces of wet secretive**, **55.48 ounces of centrifuged mixture "preparation"** and **9.66 spoonful of cauldron mixture "cooled ashes of "idea" "** together into the form of a perfectly functional **plan**.

## 207 A policeman

How to make a **policeman** in 14 easy steps:

### 207.1 Materials

- 6.52 spoonful of fireman

### 207.2 Tools

- Hammer
- Bonfire
- Vessel
- Paintbrush

### 207.3 Instructions

1. Heat the vessel.
2. Put **6.52 spoonful of fireman** into the vessel.
3. Fan the flames of the bonfire.
4. Pour out the mixture from the vessel to get the **1.72 spoonful of vessel mixture "fireman"**.
5. Wait.
6. Smash **1.72 spoonful of vessel mixture "fireman"** with the hammer.
7. Stir the vessel.
8. Put **1.72 spoonful of smashed vessel mixture "fireman"** into the vessel.
9. Fan the flames of the bonfire.
10. Pour out the mixture from the vessel to get the **9.19 spoonful of vessel mixture "smashed vessel mixture "fireman"**.
11. Draw a magic circle on the floor using the paintbrush.
12. Place **9.19 spoonful of vessel mixture "smashed vessel mixture "fireman"** into the circle.
13. Chant the following spell: "Condu!"
14. Suddenly, a **policeman** will appear inside the circle.

## 208 A policy

How to make a **policy** in 12 easy steps:

### 208.1 Materials

- 1 rule
- 21.13 ounces of company
- 10.96 ounces of attendance
- 1.88 ounces of honesty

### 208.2 Tools

- Container
- Fireplace
- Stone
- Familiar chinchilla

### 208.3 Instructions

1. Smash **21.13 ounces of company** with the stone.
2. Heat the container.
3. Put **1 rule** into the fireplace.
4. Feed **10.96 ounces of attendance** to your familiar chinchilla.
5. Wait until your familiar chinchilla poops. Receive **2.06 ounces of a very dirty pile of "attendance"**.
6. Fan the flames of the fireplace.
7. Put **21.13 ounces of smashed company** into the fireplace.
8. Let the container cool down.
9. Heat the container.
10. Retrieve the **2.18 ounces of ashes of "rule and smashed company"** from the fireplace.
11. Dump the **1.88 ounces of honesty**, **2.06 ounces of a very dirty pile of "attendance"** and **2.18 ounces of ashes of "rule and smashed company"** into a pile on the floor.
12. Wait until they magically transform into a **policy**.

## 209 A pony

How to make a **pony** in 7 easy steps:

### 209.1 Materials

- 9.51 ounces of colt
- 2 vague notions of ride
- 7.85 spoonful of horse

### 209.2 Tools

- Cauldron
- Hammer
- Bonfire

### 209.3 Instructions

1. Crack **7.85 spoonful of horse** with the hammer.
2. Fan the flames of the bonfire.
3. Put **9.51 ounces of colt** into the cauldron.
4. Smash **7.85 spoonful of cracked horse** with the hammer.
5. Pour out the mixture from the cauldron to get the **7.77 ounces of cauldron mixture "colt"**.
6. Fold the **2 vague notions of ride**, **7.85 spoonful of cracked and smashed horse** and **7.77 ounces of cauldron mixture "colt"** together using advanced origami techniques.
7. If you've done it correctly, it could result in a **pony**.

## 210 A predator

How to make a **predator** in 9 easy steps:

### 210.1 Materials

- 7 preys

### 210.2 Tools

- Fireplace
- Vessel
- Mortar

### 210.3 Instructions

1. Smash **7 preys** with the mortar.
2. Put **7 smashed preys** into the fireplace.
3. Fan the flames of the fireplace.
4. Stir the vessel.
5. Heat the vessel.
6. Let the vessel cool down.
7. Retrieve the **33.15 spoonful of ashes of "smashed prey"** from the fireplace.
8. Fold the **33.15 spoonful of ashes of "smashed prey"** together using advanced origami techniques.
9. If you've done it correctly, it might result in a **predator**.

## 211 A pronoun

How to make a **pronoun** in 8 easy steps:

### 211.1 Materials

- 3.11 spoonful of noun
- 3.28 ounces of subjectivity
- 4.58 spoonful of adjective
- 22 verbs

### 211.2 Tools

- Container
- Centrifuge
- Bucket with water

### 211.3 Instructions

1. Put **3.28 ounces of subjectivity** into the rotating centrifuge.
2. Dip **3.11 spoonful of noun** into the bucket with water.
3. Stir the container.
4. Wait for a short time.
5. Dip **22 verbs** into the bucket with water.
6. Stop the centrifuge and retrieve the **6.49 ounces of centrifuged mixture "subjectivity"**.
7. Dump the **3.11 spoonful of wet noun, 4.58 spoonful of adjective, 22 wet verbs** and **6.49 ounces of centrifuged mixture "subjectivity"** into a pile on the floor.
8. Wait until they magically transform into a **pronoun**.

## 212 A protractor

How to make a **protractor** in 10 easy steps:

### 212.1 Materials

- 6 angles
- 4 compasses

### 212.2 Tools

- Centrifuge
- Purifier
- Hammer
- Container

### 212.3 Instructions

1. Let the container cool down.
2. Put **6 angles** into the rotating centrifuge.
3. Speed up the centrifuge.
4. Stop the centrifuge and retrieve the **1.24 spoonful of centrifuged mixture "angle"**.
5. Heat the container.
6. Let the container cool down.
7. Crack **4 compasses** with the hammer.
8. Purify **4 cracked compasses** with the purifier.
9. Dump the **4 cracked and purified compasses** and **1.24 spoonful of centrifuged mixture "angle"** into a pile on the floor.
10. Wait until they magically transform into a **protractor**.

## 213 A quest

How to make a **quest** in 6 easy steps:

### 213.1 Materials

- 3.48 spoonful of mission
- 46.49 ounces of vision

### 213.2 Tools

- Saw
- Container
- Silverpoint pen

### 213.3 Instructions

1. Use the saw to slice **3.48 spoonful of mission** into bits.
2. Stir the container.
3. Draw a magic circle on the floor using the silverpoint pen.
4. Draw a line into the circle and place **3.48 spoonful of sliced mission** and **46.49 ounces of vision** on each end.
5. Whisper the following spell: "Orditus circulmeus cha! Larium!"
6. Reluctantly, a **quest** will appear inside the circle.

## 214 A quiz

How to make a **quiz** in 7 easy steps:

### 214.1 Materials

- 18.7 ounces of test

### 214.2 Tools

- Mortar
- Cauldron

### 214.3 Instructions

1. Smash **18.7 ounces of test** with the mortar.
2. Wait for a rather long time.
3. Put **18.7 ounces of smashed test** into the cauldron.
4. Let the cauldron cool down.
5. Pour out the mixture from the cauldron to get the **5.61 spoonful of cauldron mixture "smashed test"**.
6. Fold the **5.61 spoonful of cauldron mixture "smashed test"** together using advanced origami techniques.
7. If you've done it correctly, it could result in a **quiz**.

## 215 A radish

How to make a **radish** in 12 easy steps:

### 215.1 Materials

- 1.93 ounces of beet

### 215.2 Tools

- Bucket with ionised water
- Fireplace
- Centrifuge
- Cauldron
- Hammer
- Nails

### 215.3 Instructions

1. Put **1.93 ounces of beet** into the rotating centrifuge.
2. Fan the flames of the fireplace.
3. Heat the cauldron.
4. Stop the centrifuge and retrieve the **3.48 spoonful of centrifuged mixture "beet"**.
5. Stir the cauldron.
6. Let the cauldron cool down.
7. Smash **3.48 spoonful of centrifuged mixture "beet"** with the hammer.
8. Hold **3.48 spoonful of smashed centrifuged mixture "beet"** briefly into the fireplace to burn them a bit.
9. Dip **3.48 spoonful of smashed and slightly burned centrifuged mixture "beet"** into the bucket with ionised water.
10. Put **3.48 spoonful of smashed, slightly burned and wet centrifuged mixture "beet"** into the fireplace.
11. Retrieve the **36.67 ounces of ashes of "smashed, slightly burned and wet centrifuged mixture "beet" from the fireplace.**

12. Use nails to join the **36.67 ounces of ashes of "smashed, slightly burned and wet centrifuged mixture "beet" "**together into the shape of a beautiful **radish**.

## 216 A rag

How to make a **rag** in 11 easy steps:

### 216.1 Materials

- 29 rugs
- 8.8 ounces of damper
- 36.74 ounces of critic
- 28.5 spoonful of doll

### 216.2 Tools

- Purifier
- Cauldron

### 216.3 Instructions

1. Stir the cauldron.
2. Let the cauldron cool down.
3. Heat the cauldron.
4. Stir the cauldron.
5. Put **28.5 spoonful of doll** into the cauldron.
6. Purify **36.74 ounces of critic** with the purifier.
7. Pour out the mixture from the cauldron to get the **8.33 spoonful of cauldron mixture "doll"**.
8. Stir the cauldron.
9. Heat the cauldron.
10. Fold the **29 rugs**, **8.8 ounces of damper**, **36.74 ounces of purified critic** and **8.33 spoonful of cauldron mixture "doll"** together using advanced origami techniques.
11. If you've done it correctly, it might result in a **rag**.

## 217 A ram

How to make a **ram** in 9 easy steps:

### 217.1 Materials

- 9.88 ounces of antler

### 217.2 Tools

- Container
- Hammer
- Centrifuge
- Familiar ape
- Nails

### 217.3 Instructions

1. Crack **9.88 ounces of antler** with the hammer.
2. Let your familiar ape sniff at **9.88 ounces of cracked antler**.
3. Pet your familiar ape.
4. Stir the container.
5. Let your familiar ape lick **9.88 ounces of cracked antler**.
6. Put **9.88 ounces of cracked and licked antler** into the rotating centrifuge.
7. Heat the container.
8. Stop the centrifuge and retrieve the **9.95 spoonful of centrifuged mixture "cracked and licked antler"**.
9. Use nails to join the **9.95 spoonful of centrifuged mixture "cracked and licked antler"** together into the form of a passable **ram**.

## 218 A reaction

How to make a **reaction** in 14 easy steps:

### 218.1 Materials

- 4.44 spoonful of chemical
- 3 delays
- 60 instincts
- 12 effects

### 218.2 Tools

- Centrifuge
- Bucket with ionised liquid
- Purifier
- Charcoal pencil

### 218.3 Instructions

1. Dip **3 delays** into the bucket with ionised liquid.
2. Put **3 wet delays** into the rotating centrifuge.
3. Purify **60 instincts** with the purifier.
4. Speed up the centrifuge.
5. Put **4.44 spoonful of chemical** into the rotating centrifuge.
6. Put **12 effects** into the rotating centrifuge.
7. Stop the centrifuge and retrieve the **5.7 spoonful of centrifuged mixture "wet delay, chemical and effect"**.
8. Put **60 purified instincts** into the rotating centrifuge.
9. Dip **5.7 spoonful of centrifuged mixture "wet delay, chemical and effect"** into the bucket with ionised liquid.
10. Stop the centrifuge and retrieve the **4.77 spoonful of centrifuged mixture "purified instinct"**.
11. Draw a magic circle on the floor using the charcoal pencil.

12. Draw a line into the circle and place **5.7 spoonful of wet centrifuged mixture "wet delay, chemical and effect"** and **4.77 spoonful of centrifuged mixture "purified instinct"** on each end.
13. Chant the following spell: "Adpellus!"
14. Slowly, a **reaction** will appear inside the circle.

## 219 A reason

How to make a **reason** in 9 easy steps:

### 219.1 Materials

- 20 explanations
- 6.54 ounces of cause
- 23 principles
- 9 moments

### 219.2 Tools

- Bonfire
- Vessel

### 219.3 Instructions

1. Let the vessel cool down.
2. Put **9 moments** into the bonfire.
3. Wait for a rather short time.
4. Fan the flames of the bonfire.
5. Hold **20 explanations** briefly into the bonfire to burn them a bit.
6. Put **20 slightly burned explanations** into the bonfire.
7. Retrieve the **4.48 ounces of ashes of "moment and slightly burned explanation"** from the bonfire.
8. Dump the **6.54 ounces of cause, 23 principles** and **4.48 ounces of ashes of "moment and slightly burned explanation"** into a pile on the floor.
9. Wait until they magically transform into a **reason**.

## 220 A recall

How to make a **recall** in 8 easy steps:

### 220.1 Materials

- 1.07 ounces of memory
- 12.57 spoonful of remembrance

### 220.2 Tools

- Bonfire
- Container
- Centrifuge
- Bucket with clean water

### 220.3 Instructions

1. Put **1.07 ounces of memory** into the bonfire.
2. Dip **12.57 spoonful of remembrance** into the bucket with clean water.
3. Put **12.57 spoonful of wet remembrance** into the rotating centrifuge.
4. Heat the container.
5. Retrieve the **5.75 spoonful of ashes of "memory"** from the bonfire.
6. Stop the centrifuge and retrieve the **16.34 spoonful of centrifuged mixture "wet remembrance"**.
7. Dump the **5.75 spoonful of ashes of "memory"** and **16.34 spoonful of centrifuged mixture "wet remembrance"** into a pile on the floor.
8. Wait until they magically transform into a **recall**.

## 221 A repair

How to make a **repair** in 11 easy steps:

### 221.1 Materials

- 9.14 ounces of mechanic
- 30.61 spoonful of replacement
- 4 vague notions of broken
- 10 technicians

### 221.2 Tools

- Freezer
- Vessel
- Bucket with ionised liquid
- Centrifuge
- Stone
- Charcoal pencil

### 221.3 Instructions

1. Put **9.14 ounces of mechanic** into the freezer for a while.
2. Dip **4 vague notions of broken** into the bucket with ionised liquid.
3. Smash **30.61 spoonful of replacement** with the stone.
4. Put **30.61 spoonful of smashed replacement** into the vessel.
5. Put **4 wet vague notions of broken** into the rotating centrifuge.
6. Stop the centrifuge and retrieve the **7.72 spoonful of centrifuged mixture "wet broken"**.
7. Pour out the mixture from the vessel to get the **5.57 ounces of vessel mixture "smashed replacement"**.
8. Draw a magic circle on the floor using the charcoal pencil.
9. Draw a square into the circle and place **9.14 ounces of cooled mechanic, 10 technicians, 7.72 spoonful of centrifuged mixture "wet broken"** and **5.57 ounces of vessel mixture "smashed replacement"** on each corner.

10. Chant the following spell: "Titus falis serplurca!"
11. Reluctantly, a **repair** will appear inside the circle.

## 222 Research

How to make **research** in 9 easy steps:

### 222.1 Materials

- 9.1 spoonful of thesis
- 5 outlines
- 32.58 ounces of statistics
- 2.42 spoonful of report

### 222.2 Tools

- Hammer
- Saw
- Centrifuge
- Nails

### 222.3 Instructions

1. Put **2.42 spoonful of report** into the rotating centrifuge.
2. Smash **9.1 spoonful of thesis** with the hammer.
3. Use the saw to slice **32.58 ounces of statistics** into bits.
4. Crack **9.1 spoonful of smashed thesis** with the hammer.
5. Smash **5 outlines** with the hammer.
6. Use the saw to slice **5 smashed outlines** into bits.
7. Speed up the centrifuge.
8. Stop the centrifuge and retrieve the **4.86 spoonful of centrifuged mixture "report"**.
9. Use nails to join the **9.1 spoonful of smashed and cracked thesis, 5 smashed and sliced outlines, 32.58 ounces of sliced statistics and 4.86 spoonful of centrifuged mixture "report"** together into the shape of a beautiful **research**.

## 223 A rib

How to make a **rib** in 8 easy steps:

### 223.1 Materials

- 6 sparers

### 223.2 Tools

- Bucket with ice-cold liquid
- Purifier
- Saw

### 223.3 Instructions

1. Dip **6 sparers** into the bucket with ice-cold liquid.
2. Use the saw to slice **6 wet sparers** into bits.
3. Wait for 9 minutes.
4. Dip **6 wet and sliced sparers** into the bucket with ice-cold liquid.
5. Purify **6 very wet and sliced sparers** with the purifier.
6. Use the saw to slice **6 very wet, sliced and purified sparers** into bits.
7. Dump the **6 very wet, fragmented and purified sparers** into a pile on the floor.
8. Wait until they magically transform into a **rib**.

## 224 A rifle

How to make a **rifle** in 9 easy steps:

### 224.1 Materials

- 1 idea of shooting
- 1 gun
- 6.1 spoonful of butt
- 3.45 spoonful of range

### 224.2 Tools

- Container
- Pet chinchilla
- Centrifuge

### 224.3 Instructions

1. Heat the container.
2. Put **1 gun** into the rotating centrifuge.
3. Put **3.45 spoonful of range** into the container.
4. Feed **1 idea of shooting** to your pet chinchilla.
5. Pour out the mixture from the container to get the **5.61 ounces of container mixture "range"**.
6. Wait until your pet chinchilla poops. Receive **19.6 spoonful of a very dirty pile of "shooting"**.
7. Stop the centrifuge and retrieve the **12.34 spoonful of centrifuged mixture "gun"**.
8. Dump the **6.1 spoonful of butt**, **5.61 ounces of container mixture "range"**, **19.6 spoonful of a very dirty pile of "shooting"** and **12.34 spoonful of centrifuged mixture "gun"** into a pile on the floor.
9. Wait until they magically transform into a **rifle**.

## 225 A rinse

How to make a **rinse** in 7 easy steps:

### 225.1 Materials

- 4 vague notions of being flush
- 20.45 spoonful of lather

### 225.2 Tools

- Stone
- Bucket with clean liquid
- Purifier

### 225.3 Instructions

1. Crack **20.45 spoonful of lather** with the stone.
2. Purify **20.45 spoonful of cracked lather** with the purifier.
3. Dip **20.45 spoonful of cracked and purified lather** into the bucket with clean liquid.
4. Crack **20.45 spoonful of cracked, purified and wet lather** with the stone.
5. Smash **4 vague notions of being flush** with the stone.
6. Dump the **4 smashed vague notions of being flush** and **20.45 spoonful of crushed, purified and wet lather** into a pile on the floor.
7. Wait until they magically transform into a **rinse**.

## 226 A rise

How to make a **rise** in 8 easy steps:

### 226.1 Materials

- 26 ideas of climb
- 8.98 ounces of ascension
- 8.39 ounces of growth
- 21 clear concepts of lift

### 226.2 Tools

- Centrifuge

### 226.3 Instructions

1. Put **21 clear concepts of lift** into the rotating centrifuge.
2. Wait.
3. Put **26 ideas of climb** into the rotating centrifuge.
4. Put **8.39 ounces of growth** into the rotating centrifuge.
5. Put **8.98 ounces of ascension** into the rotating centrifuge.
6. Stop the centrifuge and retrieve the **6.66 spoonful of centrifuged mixture "lift, climb, growth and ascension"**.
7. Dump the **6.66 spoonful of centrifuged mixture "lift, climb, growth and ascension"** into a pile on the floor.
8. Wait until they magically transform into a **rise**.

## 227 A risk

How to make a **risk** in 10 easy steps:

### 227.1 Materials

- 3.55 spoonful of chance
- 62 ideas of dare
- 20 dangers
- 8 clear concepts of being dangerous

### 227.2 Tools

- Purifier
- Fireplace
- Cauldron
- Pet ape
- Nails

### 227.3 Instructions

1. Wait for a minute.
2. Fan the flames of the fireplace.
3. Throw **3.55 spoonful of chance** away.
4. Put **20 dangers** into the fireplace.
5. Wait.
6. Heat the cauldron.
7. Purify **8 clear concepts of being dangerous** with the purifier.
8. Let your pet ape sniff at **8 purified clear concepts of being dangerous**.
9. Retrieve the **21.31 ounces of ashes of "danger"** from the fireplace.
10. Use nails to join the **62 ideas of dare**, **8 purified clear concepts of being dangerous** and **21.31 ounces of ashes of "danger"** together into the shape of a perfectly functional **risk**.

## 228 A ritual

How to make a **ritual** in 10 easy steps:

### 228.1 Materials

- 6.49 spoonful of tradition
- 51.46 ounces of custom
- 5.5 spoonful of daily
- 1.63 spoonful of ceremony

### 228.2 Tools

- Saw
- Purifier
- Centrifuge
- Crayon

### 228.3 Instructions

1. Use the saw to slice **5.5 spoonful of daily** into bits.
2. Purify **51.46 ounces of custom** with the purifier.
3. Put **6.49 spoonful of tradition** into the rotating centrifuge.
4. Put **1.63 spoonful of ceremony** into the rotating centrifuge.
5. Put **51.46 ounces of purified custom** into the rotating centrifuge.
6. Stop the centrifuge and retrieve the **19.32 ounces of centrifuged mixture "tradition, ceremony and purified custom"**.
7. Draw a magic circle on the floor using the crayon.
8. Draw a line into the circle and place **5.5 spoonful of sliced daily** and **19.32 ounces of centrifuged mixture "tradition, ceremony and purified custom"** on each end.
9. Intone the following spell: "Inrecus! Connector inter! Exculosius archanaan quialiper, consolea commera!"
10. Suddenly, a **ritual** will appear inside the circle.

## 229 A robber

How to make a **robber** in 12 easy steps:

### 229.1 Materials

- 3 bandits
- 9 banks
- 6.79 ounces of slip
- 7.79 spoonful of crook

### 229.2 Tools

- Bucket with ice-cold water
- Vessel

### 229.3 Instructions

1. Heat the vessel.
2. Put **7.79 spoonful of crook** into the vessel.
3. Stir the vessel.
4. Heat the vessel.
5. Pour out the mixture from the vessel to get the **9.1 spoonful of vessel mixture "crook"**.
6. Put **9.1 spoonful of vessel mixture "crook"** into the vessel.
7. Let the vessel cool down.
8. Wait for a second.
9. Dip **9 banks** into the bucket with ice-cold water.
10. Pour out the mixture from the vessel to get the **3.15 spoonful of vessel mixture "vessel mixture "crook"**.
11. Dump the **3 bandits**, **9 wet banks**, **6.79 ounces of slip** and **3.15 spoonful of vessel mixture "vessel mixture "crook"** into a pile on the floor.
12. Wait until they magically transform into a **robber**.

## 230 A robot

How to make a **robot** in 10 easy steps:

### 230.1 Materials

- 6 mechanic
- 9 clear concepts of being human

### 230.2 Tools

- Bucket with hot liquid
- Purifier
- Fireplace
- Centrifuge
- Freezer

### 230.3 Instructions

1. Fan the flames of the fireplace.
2. Dip **9 clear concepts of being human** into the bucket with hot liquid.
3. Wait for a short time.
4. Fan the flames of the fireplace.
5. Put **9 wet clear concepts of being human** into the freezer for a while.
6. Purify **6 mechanic** with the purifier.
7. Put **6 purified mechanic** into the rotating centrifuge.
8. Stop the centrifuge and retrieve the **24.49 spoonful of centrifuged mixture "purified mechanics"**.
9. Dump the **9 wet and cooled clear concepts of being human** and **24.49 spoonful of centrifuged mixture "purified mechanics"** into a pile on the floor.
10. Wait until they magically transform into a **robot**.

## 231 A rocks

How to make a **rocks** in 8 easy steps:

### 231.1 Materials

- 8 cannons
- 5.52 spoonful of erosion
- 71 gravels
- 7.81 spoonful of waterfall

### 231.2 Tools

- Purifier
- Vessel

### 231.3 Instructions

1. Purify **71 gravels** with the purifier.
2. Put **5.52 spoonful of erosion** into the vessel.
3. Pour out the mixture from the vessel to get the **9.23 ounces of vessel mixture "erosion"**.
4. Let the vessel cool down.
5. Heat the vessel.
6. Stir the vessel.
7. Dump the **8 cannons, 71 purified gravels, 7.81 spoonful of waterfall** and **9.23 ounces of vessel mixture "erosion"** into a pile on the floor.
8. Wait until they magically transform into a **rocks**.

## 232 A rot

How to make a **rot** in 12 easy steps:

### 232.1 Materials

- 47.62 ounces of deterioration
- 7.68 spoonful of mildew
- 1.72 ounces of erosion
- 7.37 spoonful of decomposition

### 232.2 Tools

- Fireplace
- Freezer
- Mortar
- Container
- Centrifuge
- Pet dog
- Glue

### 232.3 Instructions

1. Fan the flames of the fireplace.
2. Pet your pet dog.
3. Put **47.62 ounces of deterioration** into the container.
4. Wait for 10 minutes.
5. Put **7.37 spoonful of decomposition** into the rotating centrifuge.
6. Let your pet dog lick **1.72 ounces of erosion**.
7. Pour out the mixture from the container to get the **2.79 ounces of container mixture "deterioration"**.
8. Crack **1.72 ounces of licked erosion** with the mortar.
9. Stir the container.
10. Put **2.79 ounces of container mixture "deterioration"** into the freezer for a while.

11. Stop the centrifuge and retrieve the **6.67 ounces of centrifuged mixture "decomposition"**.
12. Use glue to join the **7.68 spoonful of mildew, 1.72 ounces of licked and cracked erosion, 2.79 ounces of cooled container mixture "deterioration"** and **6.67 ounces of centrifuged mixture "decomposition"** together into the shape of a passable rot.

## 233 A ruin

How to make a **ruin** in 12 easy steps:

### 233.1 Materials

- 5 demolitions
- 3.92 ounces of wreck
- 9 condemnations
- 10 vague notions of being ancient

### 233.2 Tools

- Bonfire
- Freezer
- Charcoal pencil

### 233.3 Instructions

1. Hold **5 demolitions** briefly into the bonfire to burn them a bit.
2. Put **3.92 ounces of wreck** into the bonfire.
3. Fan the flames of the bonfire.
4. Retrieve the **6.89 spoonful of ashes of "wreck"** from the bonfire.
5. Hold **5 slightly burned demolitions** briefly into the bonfire to burn them a bit.
6. Put **6.89 spoonful of ashes of "wreck"** into the freezer for a while.
7. Hold **9 condemnations** briefly into the bonfire to burn them a bit.
8. Wait for 9 seconds.
9. Draw a magic circle on the floor using the charcoal pencil.
10. Draw a square into the circle and place **5 burned demolitions, 9 slightly burned condemnations, 10 vague notions of being ancient** and **6.89 spoonful of cooled ashes of "wreck"** on each corner.
11. Intone the following spell: "Chius!"
12. Reluctantly, a **ruin** will appear inside the circle.

## 234 A rules

How to make a **rules** in 12 easy steps:

### 234.1 Materials

- 6.36 spoonful of dictator
- 11.76 ounces of directions
- 24.17 spoonful of authority
- 6 legislatures

### 234.2 Tools

- Centrifuge
- Vessel
- Hammer
- Silverpoint pen

### 234.3 Instructions

1. Put **11.76 ounces of directions** into the vessel.
2. Smash **6.36 spoonful of dictator** with the hammer.
3. Wait.
4. Pour out the mixture from the vessel to get the **1.0 ounce of vessel mixture "directions"**.
5. Put **24.17 spoonful of authority** into the rotating centrifuge.
6. Put **6.36 spoonful of smashed dictator** into the vessel.
7. Stop the centrifuge and retrieve the **2.19 ounces of centrifuged mixture "authority"**.
8. Pour out the mixture from the vessel to get the **5.73 spoonful of vessel mixture "smashed dictator"**.
9. Draw a magic circle on the floor using the silverpoint pen.
10. Draw a cross into the circle and place **6 legislatures, 1.0 ounce of vessel mixture "directions", 2.19 ounces of centrifuged mixture "authority" and 5.73 spoonful of vessel mixture "smashed dictator"** on each corner.

11. Whisper the following spell: "Convola lus!"
12. Reluctantly, a **rules** will appear inside the circle.

## 235 Safety

How to make **safety** in 11 easy steps:

### 235.1 Materials

- 17.52 spoonful of lock
- 5 policemen
- 1.69 ounces of patrol
- 5.19 spoonful of insurance

### 235.2 Tools

- Freezer
- Fireplace

### 235.3 Instructions

1. Hold **5.19 spoonful of insurance** briefly into the fireplace to burn them a bit.
2. Put **17.52 spoonful of lock** into the fireplace.
3. Retrieve the **2.41 ounces of ashes of "lock"** from the fireplace.
4. Fan the flames of the fireplace.
5. Hold **1.69 ounces of patrol** briefly into the fireplace to burn them a bit.
6. Hold **5 policemen** briefly into the fireplace to burn them a bit.
7. Put **5 slightly burned policemen** into the freezer for a while.
8. Put **1.69 ounces of slightly burned patrol** into the fireplace.
9. Retrieve the **44.81 spoonful of ashes of "slightly burned patrol"** from the fireplace.
10. Dump the **5 slightly burned and cooled policemen**, **5.19 spoonful of slightly burned insurance**, **2.41 ounces of ashes of "lock"** and **44.81 spoonful of ashes of "slightly burned patrol"** into a pile on the floor.
11. Wait until they magically transform into **safety**.

## 236 A sale

How to make a **sale** in 6 easy steps:

### 236.1 Materials

- 39.65 ounces of salesman
- 2.86 ounces of product
- 6.39 ounces of yard
- 6.82 ounces of tax

### 236.2 Tools

- Bonfire
- Pet mouse

### 236.3 Instructions

1. Hold **2.86 ounces of product** briefly into the bonfire to burn them a bit.
2. Feed **6.82 ounces of tax** to your pet mouse.
3. Wait until your pet mouse poops. Receive **38.97 spoonful of a very dirty pile of "tax"**.
4. Hold **38.97 spoonful of a very dirty pile of "tax"** briefly into the bonfire to burn them a bit.
5. Fold the **39.65 ounces of salesman, 2.86 ounces of slightly burned product, 6.39 ounces of yard** and **38.97 spoonful of slightly burned a very dirty pile of "tax"** together using advanced origami techniques.
6. If you've done it correctly, it might result in a **sale**.

## 237 A same

How to make a **same** in 10 easy steps:

### 237.1 Materials

- 10 vague notions of match
- 7 changes
- 8.43 spoonful of norm
- 16 vague notions of stay

### 237.2 Tools

- Bucket with hot water
- Freezer
- Purifier
- Nails

### 237.3 Instructions

1. Purify **8.43 spoonful of norm** with the purifier.
2. Dip **10 vague notions of match** into the bucket with hot water.
3. Put **10 wet vague notions of match** into the freezer for a while.
4. Wait.
5. Purify **10 wet and cooled vague notions of match** with the purifier.
6. Put **7 changes** into the freezer for a while.
7. Dip **16 vague notions of stay** into the bucket with hot water.
8. Wait.
9. Purify **16 wet vague notions of stay** with the purifier.
10. Use nails to join the **10 wet, cooled and purified vague notions of match**, **7 cooled changes**, **8.43 spoonful of purified norm** and **16 wet and purified vague notions of stay** together into the shape of a perfectly functional **same**.

## 238 Sand

How to make **sand** in 13 easy steps:

### 238.1 Materials

- 11 castles
- 5 clays
- 2.53 spoonful of egypt
- 2.66 spoonful of mud

### 238.2 Tools

- Bucket with ionised liquid
- Purifier
- Stone
- Pet unicorn
- Freezer
- Fireplace
- Charcoal pencil

### 238.3 Instructions

1. Hold **11 castles** briefly into the fireplace to burn them a bit.
2. Fan the flames of the fireplace.
3. Put **2.66 spoonful of mud** into the freezer for a while.
4. Let your pet unicorn sniff at **5 clays**.
5. Wait.
6. Purify **2.53 spoonful of egypt** with the purifier.
7. Crack **5 clays** with the stone.
8. Dip **2.66 spoonful of cooled mud** into the bucket with ionised liquid.
9. Smash **5 cracked clays** with the stone.
10. Draw a magic circle on the floor using the charcoal pencil.

11. Draw a square into the circle and place **11 slightly burned castles, 5 cracked and smashed clays, 2.53 spoonful of purified egypt** and **2.66 spoonful of cooled and wet mud** on each corner.
12. Chant the following spell: "Inmoros augus! Devo macutio!"
13. Slowly, **sand** will appear inside the circle.

## 239 A santa

How to make a **santa** in 8 easy steps:

### 239.1 Materials

- 2.54 spoonful of chimney
- 10.36 ounces of stock
- 1.11 ounces of beard
- 10 helpers

### 239.2 Tools

- Container
- Centrifuge
- Fireplace

### 239.3 Instructions

1. Put **2.54 spoonful of chimney** into the rotating centrifuge.
2. Put **10 helpers** into the rotating centrifuge.
3. Hold **1.11 ounces of beard** briefly into the fireplace to burn them a bit.
4. Put **1.11 ounces of slightly burned beard** into the rotating centrifuge.
5. Heat the container.
6. Stop the centrifuge and retrieve the **9.64 spoonful of centrifuged mixture "chimney, helper and slightly burned beard"**.
7. Fold the **10.36 ounces of stock** and **9.64 spoonful of centrifuged mixture "chimney, helper and slightly burned beard"** together using advanced origami techniques.
8. If you've done it correctly, it could result in a **santa**.

## 240 A scallop

How to make a **scallop** in 12 easy steps:

### 240.1 Materials

- 8 mussels

### 240.2 Tools

- Vessel
- Bucket with clean liquid
- Centrifuge
- Bonfire
- Crayon

### 240.3 Instructions

1. Dip **8 mussels** into the bucket with clean liquid.
2. Hold **8 wet mussels** briefly into the bonfire to burn them a bit.
3. Stir the vessel.
4. Hold **8 wet and slightly burned mussels** briefly into the bonfire to burn them a bit.
5. Put **8 wet and burned mussels** into the rotating centrifuge.
6. Fan the flames of the bonfire.
7. Let the vessel cool down.
8. Stop the centrifuge and retrieve the **3.22 ounces of centrifuged mixture "wet and burned mussel"**.
9. Draw a magic circle on the floor using the crayon.
10. Place **3.22 ounces of centrifuged mixture "wet and burned mussel"** into the circle.
11. Intone the following spell: "Intego! Dihesperusta! Ambulatio posciduod que aetatus caluterius mitas tericopium ampuniculos!"
12. Reluctantly, a **scallop** will appear inside the circle.

## 241 A scuba

How to make a **scuba** in 16 easy steps:

### 241.1 Materials

- 20 tanks
- 1 flipper
- 5 snorkels
- 2.29 spoonful of mask

### 241.2 Tools

- Purifier
- Centrifuge
- Fireplace
- Container
- Paintbrush

### 241.3 Instructions

1. Put **1 flipper** into the container.
2. Pour out the mixture from the container to get the **12.59 spoonful of container mixture "flipper"**.
3. Hold **2.29 spoonful of mask** briefly into the fireplace to burn them a bit.
4. Put **12.59 spoonful of container mixture "flipper"** into the fireplace.
5. Retrieve the **12.45 ounces of ashes of "container mixture "flipper"** from the fireplace.
6. Let the container cool down.
7. Put **12.45 ounces of ashes of "container mixture "flipper"** into the rotating centrifuge.
8. Purify **2.29 spoonful of slightly burned mask** with the purifier.
9. Hold **20 tanks** briefly into the fireplace to burn them a bit.
10. Put **2.29 spoonful of slightly burned and purified mask** into the container.

11. Stop the centrifuge and retrieve the **15.4 spoonful of centrifuged mixture "ashes of "container mixture "flipper""**.
12. Pour out the mixture from the container to get the **5.2 ounces of container mixture "slightly burned and purified mask"**.
13. Draw a magic circle on the floor using the paintbrush.
14. Draw a square into the circle and place **20 slightly burned tanks, 5 snorkels, 15.4 spoonful of centrifuged mixture "ashes of "container mixture "flipper""** and **5.2 ounces of container mixture "slightly burned and purified mask"** on each corner.
15. Intone the following spell: "Tumentum accereo indum melotorius! Anatefinium!"
16. Slowly, a **scuba** will appear inside the circle.

## 242 Seafood

How to make **seafood** in 12 easy steps:

### 242.1 Materials

- 4 oysters
- 99.48 ounces of scallop
- 30.93 spoonful of clam
- 27.01 spoonful of squid

### 242.2 Tools

- Cauldron
- Centrifuge
- Stone
- Bucket with ionised liquid
- Familiar chinchilla
- Tape

### 242.3 Instructions

1. Dip **30.93 spoonful of clam** into the bucket with ionised liquid.
2. Wait.
3. Smash **99.48 ounces of scallop** with the stone.
4. Put **99.48 ounces of smashed scallop** into the cauldron.
5. Put **4 oysters** into the rotating centrifuge.
6. Crack **27.01 spoonful of squid** with the stone.
7. Let your familiar chinchilla lick **27.01 spoonful of cracked squid**.
8. Pet your familiar chinchilla.
9. Crack **30.93 spoonful of wet clam** with the stone.
10. Pour out the mixture from the cauldron to get the **16.82 spoonful of cauldron mixture "smashed scallop"**.
11. Stop the centrifuge and retrieve the **16.09 ounces of centrifuged mixture "oyster"**.

12. Use tape to join the **30.93 spoonful of wet and cracked clam, 27.01 spoonful of cracked and licked squid, 16.82 spoonful of cauldron mixture "smashed scallop"** and **16.09 ounces of centrifuged mixture "oyster"** together into the form of a passable seafood.

## 243 A serial

How to make a **serial** in 12 easy steps:

### 243.1 Materials

- 8 killers

### 243.2 Tools

- Centrifuge
- Vessel
- Fireplace

### 243.3 Instructions

1. Put **8 killers** into the vessel.
2. Fan the flames of the fireplace.
3. Let the vessel cool down.
4. Heat the vessel.
5. Fan the flames of the fireplace.
6. Stir the vessel.
7. Pour out the mixture from the vessel to get the **32.63 spoonful of vessel mixture "killer"**.
8. Put **32.63 spoonful of vessel mixture "killer"** into the rotating centrifuge.
9. Heat the vessel.
10. Stop the centrifuge and retrieve the **2.63 spoonful of centrifuged mixture "vessel mixture "killer" "**.
11. Fold the **2.63 spoonful of centrifuged mixture "vessel mixture "killer" "** together using advanced origami techniques.
12. If you've done it correctly, it could result in a **serial**.

## 244 A several

How to make a **several** in 7 easy steps:

### 244.1 Materials

- 12.72 ounces of fewness
- 5 ideas of being numerous
- 6 manies

### 244.2 Tools

- Purifier
- Bucket with ionised liquid

### 244.3 Instructions

1. Wait.
2. Purify **12.72 ounces of fewness** with the purifier.
3. Dip **12.72 ounces of purified fewness** into the bucket with ionised liquid.
4. Wait for a short time.
5. Purify **6 manies** with the purifier.
6. Fold the **12.72 ounces of purified and wet fewness**, **5 ideas of being numerous** and **6 purified manies** together using advanced origami techniques.
7. If you've done it correctly, it should result in a **several**.

## 245 A shell

How to make a **shell** in 12 easy steps:

### 245.1 Materials

- 13.15 ounces of coral
- 41.44 spoonful of tortoise
- 2.19 ounces of cocoon
- 9 eggs

### 245.2 Tools

- Saw
- Cauldron
- Centrifuge
- Bonfire
- Glue

### 245.3 Instructions

1. Put **41.44 spoonful of tortoise** into the bonfire.
2. Put **2.19 ounces of cocoon** into the cauldron.
3. Put **9 eggs** into the bonfire.
4. Put **13.15 ounces of coral** into the rotating centrifuge.
5. Stir the cauldron.
6. Stop the centrifuge and retrieve the **14.61 ounces of centrifuged mixture "coral"**.
7. Retrieve the **6.45 spoonful of ashes of "tortoise and egg"** from the bonfire.
8. Use the saw to slice **6.45 spoonful of ashes of "tortoise and egg"** into bits.
9. Put **6.45 spoonful of sliced ashes of "tortoise and egg"** into the rotating centrifuge.
10. Pour out the mixture from the cauldron to get the **4.27 ounces of cauldron mixture "cocoon"**.

11. Stop the centrifuge and retrieve the **143.07 spoonful of centrifuged mixture "sliced ashes of "tortoise and egg"**.
12. Use glue to join the **14.61 ounces of centrifuged mixture "coral"**, **4.27 ounces of cauldron mixture "cocoon"** and **143.07 spoonful of centrifuged mixture "sliced ashes of "tortoise and egg"** together into the shape of a perfectly functional **shell**.

## 246 A shiver

How to make a **shiver** in 12 easy steps:

### 246.1 Materials

- 4 clear concepts of shake
- 9.48 spoonful of quiver
- 9 ideas of being cold
- 5.53 ounces of shutter

### 246.2 Tools

- Bucket with clean liquid
- Vessel
- Saw
- Freezer
- Bonfire

### 246.3 Instructions

1. Let the vessel cool down.
2. Stir the vessel.
3. Use the saw to slice **9 ideas of being cold** into bits.
4. Put **9.48 spoonful of quiver** into the vessel.
5. Fan the flames of the bonfire.
6. Put **5.53 ounces of shutter** into the bonfire.
7. Put **4 clear concepts of shake** into the freezer for a while.
8. Dip **9 sliced ideas of being cold** into the bucket with clean liquid.
9. Pour out the mixture from the vessel to get the **9.97 ounces of vessel mixture "quiver"**.
10. Retrieve the **12.38 spoonful of ashes of "shutter"** from the bonfire.
11. Fold the **4 cooled clear concepts of shake, 9 sliced and wet ideas of being cold, 9.97 ounces of vessel mixture "quiver" and 12.38 spoonful of ashes of "shutter"** together using advanced origami techniques.
12. If you've done it correctly, it should result in a **shiver**.

## 247 A shoelace

How to make a **shoelace** in 6 easy steps:

### 247.1 Materials

- 4.16 ounces of knot
- 20.98 ounces of lace
- 33.62 ounces of sneaker

### 247.2 Tools

- Vessel
- Mortar
- Tape

### 247.3 Instructions

1. Let the vessel cool down.
2. Smash **20.98 ounces of lace** with the mortar.
3. Stir the vessel.
4. Heat the vessel.
5. Let the vessel cool down.
6. Use tape to join the **4.16 ounces of knot**, **20.98 ounces of smashed lace** and **33.62 ounces of sneaker** together into the shape of a passable **shoelace**.

## 248 A sign

How to make a **sign** in 11 easy steps:

### 248.1 Materials

- 22 pickets
- 6.76 ounces of register
- 5.01 ounces of name
- 5 leos

### 248.2 Tools

- Centrifuge
- Cauldron
- Electric paint

### 248.3 Instructions

1. Wait for a rather short time.
2. Put **5.01 ounces of name** into the rotating centrifuge.
3. Put **6.76 ounces of register** into the cauldron.
4. Heat the cauldron.
5. Let the cauldron cool down.
6. Stop the centrifuge and retrieve the **26.73 spoonful of centrifuged mixture "name"**.
7. Pour out the mixture from the cauldron to get the **7.93 spoonful of cauldron mixture "register"**.
8. Draw a magic circle on the floor using the electric paint.
9. Draw a cross into the circle and place **22 pickets, 5 leos, 26.73 spoonful of centrifuged mixture "name"** and **7.93 spoonful of cauldron mixture "register"** on each corner.
10. Whisper the following spell: "Captiosus complatim astalites, clysterula virabiliteo! Graphiro!"
11. Slowly, a **sign** will appear inside the circle.

## 249 A signature

How to make a **signature** in 13 easy steps:

### 249.1 Materials

- 44.07 spoonful of sign
- 46 contracts
- 10 ideas of being initial
- 4.69 ounces of name

### 249.2 Tools

- Fireplace
- Container

### 249.3 Instructions

1. Put **10 ideas of being initial** into the fireplace.
2. Heat the container.
3. Put **4.69 ounces of name** into the fireplace.
4. Wait for a minute.
5. Put **46 contracts** into the container.
6. Put **44.07 spoonful of sign** into the fireplace.
7. Wait for 3 days.
8. Fan the flames of the fireplace.
9. Let the container cool down.
10. Retrieve the **7.17 ounces of ashes of "being initial, name and sign"** from the fireplace.
11. Pour out the mixture from the container to get the **28.95 ounces of container mixture "contract"**.
12. Dump the **7.17 ounces of ashes of "being initial, name and sign"** and **28.95 ounces of container mixture "contract"** into a pile on the floor.
13. Wait until they magically transform into a **signature**.

## 250 A slick

How to make a **slick** in 10 easy steps:

### 250.1 Materials

- 2.56 ounces of otter
- 38.26 spoonful of vaseline
- 7 oils
- 9.99 ounces of slimy

### 250.2 Tools

- Bucket with hot water
- Fireplace
- Purifier
- Cauldron
- Centrifuge
- Pet ape
- Freezer
- Tape

### 250.3 Instructions

1. Put **7 oils** into the freezer for a while.
2. Purify **7 cooled oils** with the purifier.
3. Stir the cauldron.
4. Dip **38.26 spoonful of vaseline** into the bucket with hot water.
5. Put **38.26 spoonful of wet vaseline** into the rotating centrifuge.
6. Heat the cauldron.
7. Let your pet ape sniff at **9.99 ounces of slimy**.
8. Fan the flames of the fireplace.
9. Stop the centrifuge and retrieve the **3.46 ounces of centrifuged mixture "wet vaseline"**.

10. Use tape to join the **2.56 ounces of otter**, **7 cooled and purified oils**, **9.99 ounces of slimy** and **3.46 ounces of centrifuged mixture "wet vaseline"** together into the form of a beautiful **slick**.

## 251 A slither

How to make a **slither** in 10 easy steps:

### 251.1 Materials

- 8.93 ounces of snail
- 10 snakes

### 251.2 Tools

- Freezer
- Centrifuge
- Purifier
- Ballpoint pen

### 251.3 Instructions

1. Put **10 snakes** into the rotating centrifuge.
2. Speed up the centrifuge.
3. Purify **8.93 ounces of snail** with the purifier.
4. Put **8.93 ounces of purified snail** into the freezer for a while.
5. Wait.
6. Stop the centrifuge and retrieve the **4.89 ounces of centrifuged mixture "snake"**.
7. Draw a magic circle on the floor using the ballpoint pen.
8. Draw a line into the circle and place **8.93 ounces of purified and cooled snail** and **4.89 ounces of centrifuged mixture "snake"** on each end.
9. Whisper the following spell: "Saticus petus!"
10. Suddenly, a **slither** will appear inside the circle.

## 252 A smudge

How to make a **smudge** in 11 easy steps:

### 252.1 Materials

- 24.55 spoonful of smear
- 5 blots

### 252.2 Tools

- Container
- Centrifuge
- Bonfire
- Bucket with hot water
- Pet ape

### 252.3 Instructions

1. Let your pet ape sniff at **24.55 spoonful of smear**.
2. Feed **24.55 spoonful of smear** to your pet ape.
3. Fan the flames of the bonfire.
4. Wait until your pet ape poops. Receive **7.02 ounces of a very dirty pile of "smear"**.
5. Wait.
6. Heat the container.
7. Dip **5 blots** into the bucket with hot water.
8. Put **7.02 ounces of a very dirty pile of "smear"** into the rotating centrifuge.
9. Stop the centrifuge and retrieve the **9.19 ounces of centrifuged mixture "a very dirty pile of "smear""**.
10. Fold the **5 wet blots** and **9.19 ounces of centrifuged mixture "a very dirty pile of "smear""** together using advanced origami techniques.
11. If you've done it correctly, it could result in a **smudge**.

## 253 Soap

How to make **soap** in 15 easy steps:

### 253.1 Materials

- 1 cleaner
- 1 bathtub
- 3 ropes
- 5 lavas

### 253.2 Tools

- Fireplace
- Container
- Charcoal pencil

### 253.3 Instructions

1. Put **1 bathtub** into the fireplace.
2. Let the container cool down.
3. Retrieve the **5.18 spoonful of ashes of "bathtub"** from the fireplace.
4. Stir the container.
5. Hold **1 cleaner** briefly into the fireplace to burn it a bit.
6. Put **3 ropes** into the fireplace.
7. Let the container cool down.
8. Put **5.18 spoonful of ashes of "bathtub"** into the container.
9. Pour out the mixture from the container to get the **9.87 ounces of container mixture "ashes of "bathtub"**.
10. Hold **1 slightly burned cleaner** briefly into the fireplace to burn it a bit.
11. Retrieve the **1.19 ounces of ashes of "rope"** from the fireplace.
12. Draw a magic circle on the floor using the charcoal pencil.
13. Draw a square into the circle and place **1 burned cleaner, 5 lavas, 9.87 ounces of container mixture "ashes of "bathtub"** and **1.19 ounces of ashes of "rope"** on each corner.

14. Intone the following spell: "Cominarius crucor!"
15. Slowly, **soap** will appear inside the circle.

## 254 A soccer

How to make a **soccer** in 7 easy steps:

### 254.1 Materials

- 48.4 ounces of sports
- 6 victories
- 3 kicks
- 6 indoor

### 254.2 Tools

- Centrifuge
- Container
- Bucket with clean water

### 254.3 Instructions

1. Put **6 victories** into the rotating centrifuge.
2. Dip **3 kicks** into the bucket with clean water.
3. Heat the container.
4. Stir the container.
5. Stop the centrifuge and retrieve the **4.31 spoonful of centrifuged mixture "victory"**.
6. Fold the **48.4 ounces of sports, 3 wet kicks, 6 indoor** and **4.31 spoonful of centrifuged mixture "victory"** together using advanced origami techniques.
7. If you've done it correctly, it might result in a **soccer**.

## 255 Something adorable

How to make **something adorable** in 12 easy steps:

### 255.1 Materials

- 9 clear concepts of being cute

### 255.2 Tools

- Fireplace
- Container
- Freezer
- Saw
- Crayon

### 255.3 Instructions

1. Use the saw to slice **9 clear concepts of being cute** into bits.
2. Put **9 sliced clear concepts of being cute** into the container.
3. Let the container cool down.
4. Fan the flames of the fireplace.
5. Heat the container.
6. Pour out the mixture from the container to get the **5.57 spoonful of container mixture "sliced being cute"**.
7. Let the container cool down.
8. Put **5.57 spoonful of container mixture "sliced being cute"** into the freezer for a while.
9. Draw a magic circle on the floor using the crayon.
10. Place **5.57 spoonful of cooled container mixture "sliced being cute"** into the circle.
11. Intone the following spell: "Turalia bonus stus, ostero!"
12. Reluctantly, **something adorable** will appear inside the circle.

## 256 Something cheerful

How to make **something cheerful** in 12 easy steps:

### 256.1 Materials

- 30 optimisms

### 256.2 Tools

- Purifier
- Container
- Nails

### 256.3 Instructions

1. Stir the container.
2. Heat the container.
3. Purify **30 optimisms** with the purifier.
4. Put **30 purified optimisms** into the container.
5. Let the container cool down.
6. Stir the container.
7. Heat the container.
8. Let the container cool down.
9. Stir the container.
10. Heat the container.
11. Pour out the mixture from the container to get the **7.18 spoonful of container mixture "purified optimism"**.
12. Use nails to join the **7.18 spoonful of container mixture "purified optimism"** together into the form of a passable **something cheerful**.

## 257 Something cocky

How to make **something cocky** in 10 easy steps:

### 257.1 Materials

- 18.59 spoonful of conceited
- 114.55 ounces of attitude
- 9 clear concepts of being arrogant
- 22 modestnesses

### 257.2 Tools

- Freezer
- Centrifuge
- Bonfire
- Crayon

### 257.3 Instructions

1. Fan the flames of the bonfire.
2. Put **9 clear concepts of being arrogant** into the freezer for a while.
3. Hold **22 modestnesses** briefly into the bonfire to burn them a bit.
4. Put **114.55 ounces of attitude** into the rotating centrifuge.
5. Hold **22 slightly burned modestnesses** briefly into the bonfire to burn them a bit.
6. Stop the centrifuge and retrieve the **39.34 ounces of centrifuged mixture "attitude"**.
7. Draw a magic circle on the floor using the crayon.
8. Draw a cross into the circle and place **18.59 spoonful of conceited, 9 cooled clear concepts of being arrogant, 22 burned modestnesses and 39.34 ounces of centrifuged mixture "attitude"** on each corner.
9. Whisper the following spell: "Coelestus! Caeceps laceus conludo cus, symamus! Depula aediens exprocubitus exscipium, vors! Apostro! Assivus octo caestratio circuitas ullua!"
10. Reluctantly, **something cocky** will appear inside the circle.

## 258 Something corrupt

How to make **something corrupt** in 14 easy steps:

### 258.1 Materials

- 37.34 spoonful of crookedness
- 10 senators
- 44.89 ounces of senate
- 2 governments

### 258.2 Tools

- Hammer
- Familiar hummingbird
- Fireplace
- Freezer
- Vessel
- Silverpoint pen

### 258.3 Instructions

1. Wait.
2. Put **2 governments** into the freezer for a while.
3. Put **44.89 ounces of senate** into the fireplace.
4. Feed **37.34 spoonful of crookedness** to your familiar hummingbird.
5. Wait until your familiar hummingbird poops. Receive **11.61 spoonful of a very dirty pile of "crookedness"**.
6. Retrieve the **9.54 spoonful of ashes of "senate"** from the fireplace.
7. Let the vessel cool down.
8. Crack **9.54 spoonful of ashes of "senate"** with the hammer.
9. Put **2 cooled governments** into the vessel.
10. Pour out the mixture from the vessel to get the **8.47 ounces of vessel mixture "cooled government"**.
11. Draw a magic circle on the floor using the silverpoint pen.

12. Draw a square into the circle and place **10 senators**, **11.61 spoonful of a very dirty pile of "crookedness"**, **9.54 spoonful of cracked ashes of "senate"** and **8.47 ounces of vessel mixture "cooled government"** on each corner.
13. Whisper the following spell: "Ciccesiticus!"
14. Slowly, **something corrupt** will appear inside the circle.

## 259 Something difficult

How to make **something difficult** in 10 easy steps:

### 259.1 Materials

- 1 challenge
- 10 roughnesses
- 4 confusions
- 6 ideas of being basic

### 259.2 Tools

- Bonfire
- Centrifuge
- Cauldron
- Stone
- Pet mouse

### 259.3 Instructions

1. Smash **4 confusions** with the stone.
2. Hold **4 smashed confusions** briefly into the bonfire to burn them a bit.
3. Put **4 smashed and slightly burned confusions** into the rotating centrifuge.
4. Let the cauldron cool down.
5. Let your pet mouse sniff at **1 challenge**.
6. Pet your pet mouse.
7. Stop the centrifuge and retrieve the **9.1 ounces of centrifuged mixture "smashed and slightly burned confusion"**.
8. Let the cauldron cool down.
9. Dump the **1 challenge, 10 roughnesses, 6 ideas of being basic and 9.1 ounces of centrifuged mixture "smashed and slightly burned confusion"** into a pile on the floor.
10. Wait until they magically transform into **something difficult**.

## 260 Something distinct

How to make **something distinct** in 10 easy steps:

### 260.1 Materials

- 23 vague notions of being specific

### 260.2 Tools

- Saw
- Freezer

### 260.3 Instructions

1. Put **23 vague notions of being specific** into the freezer for a while.
2. Wait for a second.
3. Use the saw to slice **23 cooled vague notions of being specific** into bits.
4. Put **23 cooled and sliced vague notions of being specific** into the freezer for a while.
5. Wait.
6. Use the saw to slice **23 frozen and sliced vague notions of being specific** into bits.
7. Throw **23 frozen and fragmented vague notions of being specific** away.
8. Wait for a rather long time.
9. Grind a little bit of antler of the extinct flying stag to dust. It's not strictly needed, but doesn't hurt I guess?
10. Turn around. You will find that **something distinct** was there all along.

## 261 Something everyday

How to make **something everyday** in 6 easy steps:

### 261.1 Materials

- 1 idea of being common
- 9.45 spoonful of routine
- 4 norms
- 5 clear concepts of being standard

### 261.2 Tools

- Fireplace
- Vessel

### 261.3 Instructions

1. Stir the vessel.
2. Hold **1 idea of being common** briefly into the fireplace to burn it a bit.
3. Let the vessel cool down.
4. Fan the flames of the fireplace.
5. Dump the **1 slightly burned idea of being common, 9.45 spoonful of routine, 4 norms** and **5 clear concepts of being standard** into a pile on the floor.
6. Wait until they magically transform into **something everyday**.

## 262 Something exciting

How to make **something exciting** in 11 easy steps:

### 262.1 Materials

- 20 ideas of being adventurous
- 15.41 spoonful of thriller
- 36.59 ounces of interestingness
- 1.76 spoonful of olympics

### 262.2 Tools

- Bonfire
- Container
- Centrifuge
- Saw
- Paintbrush

### 262.3 Instructions

1. Put **36.59 ounces of interestingness** into the rotating centrifuge.
2. Fan the flames of the bonfire.
3. Put **15.41 spoonful of thriller** into the container.
4. Use the saw to slice **1.76 spoonful of olympics** into bits.
5. Heat the container.
6. Pour out the mixture from the container to get the **20.57 ounces of container mixture "thriller"**.
7. Stop the centrifuge and retrieve the **6.97 spoonful of centrifuged mixture "interestingness"**.
8. Draw a magic circle on the floor using the paintbrush.
9. Draw a square into the circle and place **20 ideas of being adventurous**, **1.76 spoonful of sliced olympics**, **20.57 ounces of container mixture "thriller"** and **6.97 spoonful of centrifuged mixture "interestingness"** on each corner.
10. Whisper the following spell: "Opulor! Masi adgressalo nubo!"
11. Reluctantly, **something exciting** will appear inside the circle.

## 263 Something foul

How to make **something foul** in 12 easy steps:

### 263.1 Materials

- 17 clear concepts of being vulgar
- 9.87 spoonful of unpleasantness
- 4 vague notions of being silly
- 1 curse

### 263.2 Tools

- Mortar
- Saw
- Bucket with water
- Paintbrush

### 263.3 Instructions

1. Wait for a rather long time.
2. Use the saw to slice **9.87 spoonful of unpleasantness** into bits.
3. Crack **4 vague notions of being silly** with the mortar.
4. Dip **9.87 spoonful of sliced unpleasantness** into the bucket with water.
5. Use the saw to slice **17 clear concepts of being vulgar** into bits.
6. Wait.
7. Smash **4 cracked vague notions of being silly** with the mortar.
8. Crack **4 cracked and smashed vague notions of being silly** with the mortar.
9. Draw a magic circle on the floor using the paintbrush.
10. Draw a cross into the circle and place **17 sliced clear concepts of being vulgar, 9.87 spoonful of sliced and wet unpleasantness, 4 crushed and smashed vague notions of being silly** and **1 curse** on each corner.
11. Chant the following spell: "Coena exandus chritas gens!"
12. Suddendly, **something foul** will appear inside the circle.

## 264 Something frequent

How to make **something frequent** in 4 easy steps:

### 264.1 Materials

- 16.21 spoonful of often

### 264.2 Tools

- Fireplace
- Screws

### 264.3 Instructions

1. Put **16.21 spoonful of often** into the fireplace.
2. Fan the flames of the fireplace.
3. Retrieve the **37.71 ounces of ashes of "often"** from the fireplace.
4. Use screws to join the **37.71 ounces of ashes of "often"** together into the shape of a perfectly functional **something frequent**.

## 265 Something genuine

How to make **something genuine** in 15 easy steps:

### 265.1 Materials

- 2 sincerities
- 10 vague notions of being fake
- 8.0 ounces of reality

### 265.2 Tools

- Saw
- Fireplace
- Container
- Purifier
- Pet mouse
- Ballpoint pen

### 265.3 Instructions

1. Let the container cool down.
2. Pet your pet mouse.
3. Use the saw to slice **2 sincerities** into bits.
4. Purify **2 sliced sincerities** with the purifier.
5. Put **8.0 ounces of reality** into the fireplace.
6. Let the container cool down.
7. Hold **10 vague notions of being fake** briefly into the fireplace to burn them a bit.
8. Heat the container.
9. Put **2 sliced and purified sincerities** into the fireplace.
10. Stir the container.
11. Retrieve the **3.09 ounces of ashes of "reality and sliced and purified sincerity"** from the fireplace.
12. Draw a magic circle on the floor using the ballpoint pen.

13. Draw a line into the circle and place **10 slightly burned vague notions of being fake** and **3.09 ounces of ashes of "reality and sliced and purified sincerity"** on each end.
14. Intone the following spell: "Exico qua postimus conster!"
15. Reluctantly, **something genuine** will appear inside the circle.

## 266 Something gifted

How to make **something gifted** in 15 easy steps:

### 266.1 Materials

- 10 vague notions of being special
- 6 clear concepts of being exceptional
- 17.33 spoonful of genius

### 266.2 Tools

- Vessel
- Stone
- Purifier
- Freezer
- Bucket with hot liquid
- Familiar chinchilla
- Electric paint

### 266.3 Instructions

1. Purify **10 vague notions of being special** with the purifier.
2. Dip **10 purified vague notions of being special** into the bucket with hot liquid.
3. Smash **10 purified and wet vague notions of being special** with the stone.
4. Heat the vessel.
5. Let the vessel cool down.
6. Smash **17.33 spoonful of genius** with the stone.
7. Purify **6 clear concepts of being exceptional** with the purifier.
8. Dip **10 purified, wet and smashed vague notions of being special** into the bucket with hot liquid.
9. Feed **10 purified, very wet and smashed vague notions of being special** to your familiar chinchilla.

10. Put **6 purified clear concepts of being exceptional** into the freezer for a while.
11. Wait until your familiar chinchilla poops. Receive **16.74 spoonful of a very dirty pile of "purified, very wet and smashed being special"**.
12. Draw a magic circle on the floor using the electric paint.
13. Draw a triangle into the circle and place **6 purified and cooled clear concepts of being exceptional, 17.33 spoonful of smashed genius and 16.74 spoonful of a very dirty pile of "purified, very wet and smashed being special"** on each corner.
14. Intone the following spell: "Tum ana pela, scaenarismus! Immerculus adceleritus convocamum teus sena botrio mas! Praetecto autoricus orius!"
15. Reluctantly, **something gifted** will appear inside the circle.

## 267 Something golden

How to make **something golden** in 11 easy steps:

### 267.1 Materials

- 25 clear concepts of being tan
- 3.77 spoonful of rule
- 17.34 spoonful of opportunity
- 4.75 ounces of silence

### 267.2 Tools

- Fireplace
- Purifier
- Hammer
- Nails

### 267.3 Instructions

1. Smash **25 clear concepts of being tan** with the hammer.
2. Wait.
3. Fan the flames of the fireplace.
4. Smash **3.77 spoonful of rule** with the hammer.
5. Purify **4.75 ounces of silence** with the purifier.
6. Crack **3.77 spoonful of smashed rule** with the hammer.
7. Put **17.34 spoonful of opportunity** into the fireplace.
8. Smash **4.75 ounces of purified silence** with the hammer.
9. Crack **25 smashed clear concepts of being tan** with the hammer.
10. Retrieve the **5.28 ounces of ashes of "opportunity"** from the fireplace.
11. Use nails to join the **25 smashed and cracked clear concepts of being tan, 3.77 spoonful of smashed and cracked rule, 4.75 ounces of purified and smashed silence and 5.28 ounces of ashes of "opportunity"** together into the form of a usable **something golden**.

## 268 Something haughty

How to make **something haughty** in 8 easy steps:

### 268.1 Materials

- 44.41 ounces of conceit
- 49 clear concepts of being arrogant
- 39 clear concepts of being proud

### 268.2 Tools

- Fireplace
- Purifier
- Silverpoint pen

### 268.3 Instructions

1. Hold **44.41 ounces of conceit** briefly into the fireplace to burn them a bit.
2. Put **44.41 ounces of slightly burned conceit** into the fireplace.
3. Retrieve the **95.12 ounces of ashes of "slightly burned conceit"** from the fireplace.
4. Purify **95.12 ounces of ashes of "slightly burned conceit"** with the purifier.
5. Draw a magic circle on the floor using the silverpoint pen.
6. Draw a triangle into the circle and place **49 clear concepts of being arrogant**, **39 clear concepts of being proud** and **95.12 ounces of purified ashes of "slightly burned conceit"** on each corner.
7. Chant the following spell: "Inpettallior graphus foedispecus! Nec cestinum!"
8. Suddendly, **something haughty** will appear inside the circle.

## 269 Something lean

How to make **something lean** in 11 easy steps:

### 269.1 Materials

- 7 tendencies
- 1.22 spoonful of crutch
- 30 clear concepts of being slender
- 4 shoulders

### 269.2 Tools

- Fireplace
- Familiar unicorn

### 269.3 Instructions

1. Let your familiar unicorn sniff at **1.22 spoonful of crutch**.
2. Pet your familiar unicorn.
3. Let your familiar unicorn lick **4 shoulders**.
4. Feed **1.22 spoonful of crutch** to your familiar unicorn.
5. Hold **7 tendencies** briefly into the fireplace to burn them a bit.
6. Put **4 licked shoulders** into the fireplace.
7. Pet your familiar unicorn.
8. Retrieve the **1.88 ounces of ashes of "licked shoulder"** from the fireplace.
9. Wait until your familiar unicorn poops. Receive **9.39 spoonful of a very dirty pile of "crutch"**.
10. Fold the **7 slightly burned tendencies, 30 clear concepts of being slender, 1.88 ounces of ashes of "licked shoulder"** and **9.39 spoonful of a very dirty pile of "crutch"** together using advanced origami techniques.
11. If you've done it correctly, it might result in **something lean**.

## 270 Something loud

How to make **something loud** in 7 easy steps:

### 270.1 Materials

- 4.95 spoonful of voice
- 6.92 ounces of thunder
- 9 announcers
- 4.48 ounces of yell

### 270.2 Tools

- Fireplace
- Purifier
- Centrifuge
- Stone
- Glue

### 270.3 Instructions

1. Purify **4.48 ounces of yell** with the purifier.
2. Smash **9 announcers** with the stone.
3. Hold **4.48 ounces of purified yell** briefly into the fireplace to burn them a bit.
4. Wait.
5. Put **9 smashed announcers** into the rotating centrifuge.
6. Stop the centrifuge and retrieve the **10.84 spoonful of centrifuged mixture "smashed announcer"**.
7. Use glue to join the **4.95 spoonful of voice, 6.92 ounces of thunder, 4.48 ounces of purified and slightly burned yell** and **10.84 spoonful of centrifuged mixture "smashed announcer"** together into the shape of a perfectly functional **something loud**.

## 271 Something naive

How to make **something naive** in 13 easy steps:

### 271.1 Materials

- 12.58 ounces of teenager
- 6.76 spoonful of guiltlessness
- 12 vulnerabilities
- 6.61 spoonful of innocence

### 271.2 Tools

- Fireplace
- Saw
- Centrifuge
- Bucket with hot liquid
- Charcoal pencil

### 271.3 Instructions

1. Put **12 vulnerabilities** into the fireplace.
2. Wait for a short time.
3. Put **12.58 ounces of teenager** into the rotating centrifuge.
4. Use the saw to slice **6.61 spoonful of innocence** into bits.
5. Speed up the centrifuge.
6. Dip **6.61 spoonful of sliced innocence** into the bucket with hot liquid.
7. Hold **6.61 spoonful of sliced and wet innocence** briefly into the fireplace to burn them a bit.
8. Stop the centrifuge and retrieve the **26.35 ounces of centrifuged mixture "teenager"**.
9. Retrieve the **8.23 ounces of ashes of "vulnerability"** from the fireplace.
10. Draw a magic circle on the floor using the charcoal pencil.

11. Draw a square into the circle and place **6.76 spoonful of guiltlessness, 6.61 spoonful of sliced, wet and slightly burned innocence, 26.35 ounces of centrifuged mixture "teenager"** and **8.23 ounces of ashes of "vulnerability"** on each corner.
12. Whisper the following spell: "Dabundustim dirigo curu! Scutillus!"
13. Slowly, **something naive** will appear inside the circle.

## 272 Something natural

How to make **something natural** in 9 easy steps:

### 272.1 Materials

- 8 vague notions of being vivid
- 27.58 ounces of herb
- 7 woods
- 9.93 spoonful of abnormality

### 272.2 Tools

- Centrifuge
- Glue

### 272.3 Instructions

1. Wait for a long time.
2. Put **8 vague notions of being vivid** into the rotating centrifuge.
3. Stop the centrifuge and retrieve the **3.42 ounces of centrifuged mixture "being vivid"**.
4. Wait for a rather short time.
5. Throw **27.58 ounces of herb** away.
6. Put **3.42 ounces of centrifuged mixture "being vivid"** into the rotating centrifuge.
7. Wait.
8. Stop the centrifuge and retrieve the **2.92 ounces of centrifuged mixture "centrifuged mixture "being vivid"**.
9. Use glue to join the **7 woods**, **9.93 spoonful of abnormality** and **2.92 ounces of centrifuged mixture "centrifuged mixture "being vivid"** together into the form of a perfectly functional **something natural**.

## 273 Something nuclear

How to make **something nuclear** in 12 easy steps:

### 273.1 Materials

- 8.68 spoonful of energy
- 42 nuclei
- 9.55 spoonful of microwave
- 5 atoms

### 273.2 Tools

- Centrifuge
- Container
- Saw
- Graphite pencil

### 273.3 Instructions

1. Put **5 atoms** into the rotating centrifuge.
2. Stir the container.
3. Use the saw to slice **9.55 spoonful of microwave** into bits.
4. Stop the centrifuge and retrieve the **13.54 spoonful of centrifuged mixture "atom"**.
5. Put **9.55 spoonful of sliced microwave** into the rotating centrifuge.
6. Put **13.54 spoonful of centrifuged mixture "atom"** into the container.
7. Stop the centrifuge and retrieve the **4.95 spoonful of centrifuged mixture "sliced microwave"**.
8. Pour out the mixture from the container to get the **1.79 ounces of container mixture "centrifuged mixture "atom""**.
9. Draw a magic circle on the floor using the graphite pencil.
10. Draw a cross into the circle and place **8.68 spoonful of energy**, **42 nuclei**, **4.95 spoonful of centrifuged mixture "sliced microwave"** and **1.79 ounces of container mixture "centrifuged mixture "atom""** on each corner.

11. Whisper the following spell: "Latoria pericus!"
12. Reluctantly, **something nuclear** will appear inside the circle.

## 274 Something odd

How to make **something odd** in 10 easy steps:

### 274.1 Materials

- 7 uncommonnesses
- 7 clear concepts of being weird
- 7 vague notions of being unique
- 8 strangenesses

### 274.2 Tools

- Centrifuge
- Bucket with clean liquid
- Charcoal pencil

### 274.3 Instructions

1. Put **7 uncommonnesses** into the rotating centrifuge.
2. Speed up the centrifuge.
3. Dip **7 clear concepts of being weird** into the bucket with clean liquid.
4. Wait for a very short time.
5. Speed up the centrifuge.
6. Stop the centrifuge and retrieve the **26.92 ounces of centrifuged mixture "uncommonness"**.
7. Draw a magic circle on the floor using the charcoal pencil.
8. Draw a cross into the circle and place **7 wet clear concepts of being weird, 7 vague notions of being unique, 8 strangenesses and 26.92 ounces of centrifuged mixture "uncommonness"** on each corner.
9. Whisper the following spell: "Matulus auto bipercum! Bre! Calco hartum indensim consiona opsequus consum inctus succio!"
10. Suddenly, **something odd** will appear inside the circle.

## 275 Something passive

How to make **something passive** in 13 easy steps:

### 275.1 Materials

- 2.05 spoonful of aggressiveness
- 13 forcefulnesses
- 1.44 ounces of indirectness
- 10 vague notions of being active

### 275.2 Tools

- Saw
- Mortar
- Centrifuge
- Container

### 275.3 Instructions

1. Wait for a very long time.
2. Smash **2.05 spoonful of aggressiveness** with the mortar.
3. Crack **10 vague notions of being active** with the mortar.
4. Put **1.44 ounces of indirectness** into the rotating centrifuge.
5. Put **13 forcefulnesses** into the container.
6. Stop the centrifuge and retrieve the **7.35 spoonful of centrifuged mixture "indirectness"**.
7. Use the saw to slice **7.35 spoonful of centrifuged mixture "indirectness"** into bits.
8. Wait for a very short time.
9. Put **2.05 spoonful of smashed aggressiveness** into the rotating centrifuge.
10. Stop the centrifuge and retrieve the **36.87 ounces of centrifuged mixture "smashed aggressiveness"**.
11. Pour out the mixture from the container to get the **16.79 spoonful of container mixture "forcefulness"**.

12. Dump the **10 cracked vague notions of being active**, **7.35 spoonful of sliced centrifuged mixture "indirectness"**, **36.87 ounces of centrifuged mixture "smashed aggressiveness"** and **16.79 spoonful of container mixture "forcefulness"** into a pile on the floor.
13. Wait until they magically transform into **something passive**.

## 276 Something possible

How to make **something possible** in 13 easy steps:

### 276.1 Materials

- 5.25 spoonful of maybe
- 114 impossiblenesses
- 5 mights
- 10 negotiations

### 276.2 Tools

- Vessel
- Fireplace
- Centrifuge
- Ballpoint pen

### 276.3 Instructions

1. Put **5 mights** into the vessel.
2. Pour out the mixture from the vessel to get the **3.02 spoonful of vessel mixture "might"**.
3. Hold **114 impossiblenesses** briefly into the fireplace to burn them a bit.
4. Hold **10 negotiations** briefly into the fireplace to burn them a bit.
5. Put **3.02 spoonful of vessel mixture "might"** into the vessel.
6. Heat the vessel.
7. Put **114 slightly burned impossiblenesses** into the rotating centrifuge.
8. Pour out the mixture from the vessel to get the **25.34 spoonful of vessel mixture "vessel mixture "might"**.
9. Stop the centrifuge and retrieve the **4.43 ounces of centrifuged mixture "slightly burned impossibleness"**.
10. Draw a magic circle on the floor using the ballpoint pen.
11. Draw a square into the circle and place **5.25 spoonful of maybe, 10 slightly burned negotiations, 25.34 spoonful of vessel mixture "vessel mixture "might"** and **4.43 ounces of centrifuged mixture "slightly burned impossibleness"** on each corner.

12. Chant the following spell: "Nudus insecretia crufus plens!"
13. Suddendly, **something possible** will appear inside the circle.

## 277 Something pure

How to make **something pure** in 8 easy steps:

### 277.1 Materials

- 29 vague notions of being white
- 7.56 ounces of innocence
- 13 essences
- 8 virtues

### 277.2 Tools

- Bonfire
- Centrifuge
- Vessel
- Tape

### 277.3 Instructions

1. Put **7.56 ounces of innocence** into the rotating centrifuge.
2. Fan the flames of the bonfire.
3. Hold **29 vague notions of being white** briefly into the bonfire to burn them a bit.
4. Stir the vessel.
5. Put **29 slightly burned vague notions of being white** into the rotating centrifuge.
6. Let the vessel cool down.
7. Stop the centrifuge and retrieve the **5.91 spoonful of centrifuged mixture "innocence and slightly burned being white"**.
8. Use tape to join the **13 essences**, **8 virtues** and **5.91 spoonful of centrifuged mixture "innocence and slightly burned being white"** together into the shape of a passable **something pure**.

## 278 Something raw

How to make **something raw** in 13 easy steps:

### 278.1 Materials

- 34.66 ounces of uncooked
- 69 cooks
- 11 oysters
- 119.92 ounces of tenderness

### 278.2 Tools

- Bucket with ionised liquid
- Centrifuge
- Hammer
- Saw
- Purifier
- Vessel
- Bonfire

### 278.3 Instructions

1. Let the vessel cool down.
2. Purify **11 oysters** with the purifier.
3. Use the saw to slice **34.66 ounces of uncooked** into bits.
4. Put **11 purified oysters** into the bonfire.
5. Dip **34.66 ounces of sliced uncooked** into the bucket with ionised liquid.
6. Smash **69 cooks** with the hammer.
7. Heat the vessel.
8. Wait for an hour.
9. Put **119.92 ounces of tenderness** into the rotating centrifuge.
10. Stop the centrifuge and retrieve the **5.92 spoonful of centrifuged mixture "tenderness"**.

11. Retrieve the **29.04 spoonful of ashes of "purified oyster"** from the bonfire.
12. Fold the **34.66 ounces of sliced and wet uncooked, 69 smashed cooks, 5.92 spoonful of centrifuged mixture "tenderness"** and **29.04 spoonful of ashes of "purified oyster"** together using advanced origami techniques.
13. If you've done it correctly, it could result in **something raw**.

## 279 Something shy

How to make **something shy** in 10 easy steps:

### 279.1 Materials

- 2 vulnerabilities
- 10.12 spoonful of sensitiveness
- 7 discreetnesses
- 3 introversions

### 279.2 Tools

- Container
- Hammer
- Centrifuge
- Bucket with water

### 279.3 Instructions

1. Heat the container.
2. Smash **2 vulnerabilities** with the hammer.
3. Put **10.12 spoonful of sensitiveness** into the rotating centrifuge.
4. Let the container cool down.
5. Dip **2 smashed vulnerabilities** into the bucket with water.
6. Stir the container.
7. Speed up the centrifuge.
8. Stop the centrifuge and retrieve the **7.74 ounces of centrifuged mixture "sensitiveness"**.
9. Dump the **2 smashed and wet vulnerabilities, 7 discreetnesses, 3 introversions** and **7.74 ounces of centrifuged mixture "sensitiveness"** into a pile on the floor.
10. Wait until they magically transform into **something shy**.

## 280 Something that can bother

How to make **something that can bother** in 11 easy steps:

### 280.1 Materials

- 32 frustrations
- 7.45 ounces of irritation
- 6.07 ounces of hamper
- 49 aggravations

### 280.2 Tools

- Mortar
- Purifier

### 280.3 Instructions

1. Crack **6.07 ounces of hamper** with the mortar.
2. Smash **7.45 ounces of irritation** with the mortar.
3. Wait.
4. Purify **49 aggravations** with the purifier.
5. Smash **6.07 ounces of cracked hamper** with the mortar.
6. Wait for a rather long time.
7. Purify **7.45 ounces of smashed irritation** with the purifier.
8. Crack **7.45 ounces of smashed and purified irritation** with the mortar.
9. Smash **32 frustrations** with the mortar.
10. Dump the **32 smashed frustrations, 7.45 ounces of smashed, purified and cracked irritation, 6.07 ounces of cracked and smashed hamper** and **49 purified aggravations** into a pile on the floor.
11. Wait until they magically transform into **something that can bother**.

## 281 Something that can breathe

How to make **something that can breathe** in 8 easy steps:

### 281.1 Materials

- 34.9 spoonful of air
- 8 breaths
- 1.4 spoonful of aliveness
- 9 oxygens

### 281.2 Tools

- Vessel
- Centrifuge

### 281.3 Instructions

1. Stir the vessel.
2. Put **9 oxygens** into the rotating centrifuge.
3. Let the vessel cool down.
4. Stir the vessel.
5. Put **8 breaths** into the rotating centrifuge.
6. Stop the centrifuge and retrieve the **4.25 spoonful of centrifuged mixture "oxygen and breath"**.
7. Dump the **34.9 spoonful of air**, **1.4 spoonful of aliveness** and **4.25 spoonful of centrifuged mixture "oxygen and breath"** into a pile on the floor.
8. Wait until they magically transform into **something that can breathe**.

## 282 Something that can choke

How to make **something that can choke** in 11 easy steps:

### 282.1 Materials

- 2.72 spoonful of asphyxiation
- 2 vague notions of cough
- 4 breaths
- 1 clear concept of swallow

### 282.2 Tools

- Centrifuge
- Cauldron
- Saw
- Graphite pencil

### 282.3 Instructions

1. Put **1 clear concept of swallow** into the rotating centrifuge.
2. Use the saw to slice **4 breaths** into bits.
3. Put **2 vague notions of cough** into the cauldron.
4. Let the cauldron cool down.
5. Put **2.72 spoonful of asphyxiation** into the rotating centrifuge.
6. Stop the centrifuge and retrieve the **3.1 spoonful of centrifuged mixture "swallow and asphyxiation"**.
7. Pour out the mixture from the cauldron to get the **9.1 ounces of cauldron mixture "cough"**.
8. Draw a magic circle on the floor using the graphite pencil.
9. Draw a triangle into the circle and place **4 sliced breaths, 3.1 spoonful of centrifuged mixture "swallow and asphyxiation"** and **9.1 ounces of cauldron mixture "cough"** on each corner.
10. Intone the following spell: "Beatus accido!"
11. Slowly, **something that can choke** will appear inside the circle.

## 283 Something that can compose

How to make **something that can compose** in 7 easy steps:

### 283.1 Materials

- 17.01 spoonful of sentence
- 5.91 spoonful of writer
- 9.99 ounces of decomposition

### 283.2 Tools

- Bonfire
- Freezer
- Mortar

### 283.3 Instructions

1. Put **5.91 spoonful of writer** into the freezer for a while.
2. Smash **17.01 spoonful of sentence** with the mortar.
3. Put **17.01 spoonful of smashed sentence** into the bonfire.
4. Put **9.99 ounces of decomposition** into the bonfire.
5. Retrieve the **5.56 ounces of ashes of "smashed sentence and decomposition"** from the bonfire.
6. Fold the **5.91 spoonful of cooled writer** and **5.56 ounces of ashes of "smashed sentence and decomposition"** together using advanced origami techniques.
7. If you've done it correctly, it could result in **something that can compose**.

## 284 Something that can confess

How to make **something that can confess** in 12 easy steps:

### 284.1 Materials

- 25.55 ounces of admission
- 11.08 ounces of testimony

### 284.2 Tools

- Centrifuge
- Fireplace

### 284.3 Instructions

1. Put **11.08 ounces of testimony** into the rotating centrifuge.
2. Wait for a very short time.
3. Hold **25.55 ounces of admission** briefly into the fireplace to burn them a bit.
4. Put **25.55 ounces of slightly burned admission** into the fireplace.
5. Speed up the centrifuge.
6. Retrieve the **7.14 ounces of ashes of "slightly burned admission"** from the fireplace.
7. Put **7.14 ounces of ashes of "slightly burned admission"** into the rotating centrifuge.
8. Fan the flames of the fireplace.
9. Speed up the centrifuge.
10. Stop the centrifuge and retrieve the **7.63 spoonful of centrifuged mixture "testimony and ashes of "slightly burned admission"**.
11. Fold the **7.63 spoonful of centrifuged mixture "testimony and ashes of "slightly burned admission"** together using advanced origami techniques.
12. If you've done it correctly, it should result in **something that can confess**.

## 285 Something that can convince

How to make **something that can convince** in 8 easy steps:

### 285.1 Materials

- 1 clear concept of urge
- 9.66 ounces of persuader

### 285.2 Tools

- Purifier
- Hammer
- Paintbrush

### 285.3 Instructions

1. Crack **1 clear concept of urge** with the hammer.
2. Smash **1 cracked clear concept of urge** with the hammer.
3. Purify **9.66 ounces of persuader** with the purifier.
4. Crack **9.66 ounces of purified persuader** with the hammer.
5. Draw a magic circle on the floor using the paintbrush.
6. Draw a line into the circle and place **1 cracked and smashed clear concept of urge** and **9.66 ounces of purified and cracked persuader** on each end.
7. Whisper the following spell: "Caties!"
8. Reluctantly, **something that can convince** will appear inside the circle.

## 286    Something that can despise

How to make **something that can despise** in 3 easy steps:

### 286.1    Materials

- 6 vague notions of hate

### 286.2    Tools

- Stone
- Familiar ape
- Glue

### 286.3    Instructions

1. Pet your familiar ape.
2. Crack **6 vague notions of hate** with the stone.
3. Use glue to join the **6 cracked vague notions of hate** together into the shape of a beautiful **something that can despise**.

## 287 Something that can dismiss

How to make **something that can dismiss** in 9 easy steps:

### 287.1 Materials

- 24 denials
- 1 adjournment

### 287.2 Tools

- Fireplace
- Freezer
- Centrifuge

### 287.3 Instructions

1. Put **1 adjournment** into the rotating centrifuge.
2. Speed up the centrifuge.
3. Put **24 denials** into the freezer for a while.
4. Eat **24 cooled denials**.
5. Fan the flames of the fireplace.
6. Speed up the centrifuge.
7. Stop the centrifuge and retrieve the **3.29 spoonful of centrifuged mixture "adjournment"**.
8. Dump the **3.29 spoonful of centrifuged mixture "adjournment"** into a pile on the floor.
9. Wait until they magically transform into **something that can dismiss**.

## 288 Something that can disown

How to make **something that can disown** in 9 easy steps:

### 288.1 Materials

- 2 renunciations

### 288.2 Tools

- Centrifuge
- Purifier
- Container
- Saw

### 288.3 Instructions

1. Put **2 renunciations** into the rotating centrifuge.
2. Stir the container.
3. Let the container cool down.
4. Stop the centrifuge and retrieve the **1.92 spoonful of centrifuged mixture "renunciation"**.
5. Purify **1.92 spoonful of centrifuged mixture "renunciation"** with the purifier.
6. Use the saw to slice **1.92 spoonful of purified centrifuged mixture "renunciation"** into bits.
7. Stir the container.
8. Fold the **1.92 spoonful of purified and sliced centrifuged mixture "renunciation"** together using advanced origami techniques.
9. If you've done it correctly, it should result in **something that can disown**.

## 289 Something that can enter

How to make **something that can enter** in 14 easy steps:

### 289.1 Materials

- 12.48 spoonful of doorway
- 7 returns
- 35.63 ounces of entrance
- 15 vague notions of admit

### 289.2 Tools

- Hammer
- Cauldron
- Centrifuge
- Purifier
- Electric paint

### 289.3 Instructions

1. Let the cauldron cool down.
2. Heat the cauldron.
3. Put **35.63 ounces of entrance** into the rotating centrifuge.
4. Purify **7 returns** with the purifier.
5. Put **15 vague notions of admit** into the cauldron.
6. Pour out the mixture from the cauldron to get the **8.51 ounces of cauldron mixture "admit"**.
7. Crack **12.48 spoonful of doorway** with the hammer.
8. Put **12.48 spoonful of cracked doorway** into the cauldron.
9. Pour out the mixture from the cauldron to get the **2.79 ounces of cauldron mixture "cracked doorway"**.
10. Stop the centrifuge and retrieve the **1.67 ounces of centrifuged mixture "entrance"**.
11. Draw a magic circle on the floor using the electric paint.

12. Draw a cross into the circle and place **7 purified returns**, **8.51 ounces of cauldron mixture "admit"**, **2.79 ounces of cauldron mixture "cracked doorway"** and **1.67 ounces of centrifuged mixture "entrance"** on each corner.
13. Chant the following spell: "Nymus num obvectus! Defrigo tus petia! Crinarium!"
14. Suddenly, **something that can enter** will appear inside the circle.

## 290 Something that can erupt

How to make **something that can erupt** in 12 easy steps:

### 290.1 Materials

- 9.25 ounces of explosion
- 8.83 ounces of volcano

### 290.2 Tools

- Freezer
- Saw
- Container
- Glue

### 290.3 Instructions

1. Stir the container.
2. Use the saw to slice **9.25 ounces of explosion** into bits.
3. Let the container cool down.
4. Put **8.83 ounces of volcano** into the container.
5. Wait.
6. Put **9.25 ounces of sliced explosion** into the freezer for a while.
7. Use the saw to slice **9.25 ounces of sliced and cooled explosion** into bits.
8. Let the container cool down.
9. Stir the container.
10. Put **9.25 ounces of fragmented and cooled explosion** into the freezer for a while.
11. Pour out the mixture from the container to get the **9.6 spoonful of container mixture "volcano"**.
12. Use glue to join the **9.25 ounces of fragmented and frozen explosion** and **9.6 spoonful of container mixture "volcano"** together into the shape of a perfectly functional **something that can erupt**.

## 291 Something that can instruct

How to make **something that can instruct** in 10 easy steps:

### 291.1 Materials

- 10.77 spoonful of command
- 6.5 spoonful of teacher
- 7.91 spoonful of information

### 291.2 Tools

- Centrifuge
- Hammer
- Bonfire
- Nails

### 291.3 Instructions

1. Hold **6.5 spoonful of teacher** briefly into the bonfire to burn them a bit.
2. Put **10.77 spoonful of command** into the rotating centrifuge.
3. Crack **7.91 spoonful of information** with the hammer.
4. Put **6.5 spoonful of slightly burned teacher** into the bonfire.
5. Wait for a day.
6. Retrieve the **1.77 ounces of ashes of "slightly burned teacher"** from the bonfire.
7. Crack **7.91 spoonful of cracked information** with the hammer.
8. Smash **1.77 ounces of ashes of "slightly burned teacher"** with the hammer.
9. Stop the centrifuge and retrieve the **1.14 spoonful of centrifuged mixture "command"**.
10. Use nails to join the **7.91 spoonful of crushed information, 1.77 ounces of smashed ashes of "slightly burned teacher" and 1.14 spoonful of centrifuged mixture "command"** together into the shape of a perfectly functional **something that can instruct**.

## 292 Something that can listen

How to make **something that can listen** in 15 easy steps:

### 292.1 Materials

- 5.5 ounces of music
- 4.21 ounces of narration
- 21 clear concepts of look
- 5.24 spoonful of sympathy

### 292.2 Tools

- Cauldron
- Stone
- Fireplace
- Centrifuge
- Graphite pencil

### 292.3 Instructions

1. Put **5.24 spoonful of sympathy** into the rotating centrifuge.
2. Stop the centrifuge and retrieve the **1.53 spoonful of centrifuged mixture "sympathy"**.
3. Put **5.5 ounces of music** into the fireplace.
4. Put **1.53 spoonful of centrifuged mixture "sympathy"** into the rotating centrifuge.
5. Crack **21 clear concepts of look** with the stone.
6. Put **21 cracked clear concepts of look** into the fireplace.
7. Let the cauldron cool down.
8. Heat the cauldron.
9. Crack **4.21 ounces of narration** with the stone.
10. Retrieve the **4.74 spoonful of ashes of "music and cracked look"** from the fireplace.
11. Stop the centrifuge and retrieve the **2.74 spoonful of centrifuged mixture "centrifuged mixture "sympathy" "**.

12. Draw a magic circle on the floor using the graphite pencil.
13. Draw a triangle into the circle and place **4.21 ounces of cracked narration, 4.74 spoonful of ashes of "music and cracked look"** and **2.74 spoonful of centrifuged mixture "centrifuged mixture "sympathy""** on each corner.
14. Chant the following spell: "Sublio injunctus petizo, despecunctio! Sufficor heratus stabitut! Demoro circuatus! Minus celego botundiesco, culturaris!"
15. Slowly, **something that can listen** will appear inside the circle.

## 293 Something that can minded

How to make **something that can minded** in 12 easy steps:

### 293.1 Materials

- 1 vague notion of closing
- 8.18 ounces of absence
- 22 vague notions of being pleasant

### 293.2 Tools

- Vessel
- Purifier
- Bonfire
- Saw
- Tape

### 293.3 Instructions

1. Hold **1 vague notion of closing** briefly into the bonfire to burn it a bit.
2. Put **8.18 ounces of absence** into the vessel.
3. Purify **1 slightly burned vague notion of closing** with the purifier.
4. Fan the flames of the bonfire.
5. Let the vessel cool down.
6. Heat the vessel.
7. Pour out the mixture from the vessel to get the **164.61 spoonful of vessel mixture "absence"**.
8. Stir the vessel.
9. Put **1 slightly burned and purified vague notion of closing** into the vessel.
10. Use the saw to slice **164.61 spoonful of vessel mixture "absence"** into bits.
11. Pour out the mixture from the vessel to get the **12.01 ounces of vessel mixture "slightly burned and purified closing"**.

12. Use tape to join the **22** vague notions of being pleasant, **164.61** spoonful of sliced vessel mixture "absence" and **12.01** ounces of vessel mixture "slightly burned and purified closing" together into the form of a beautiful something that can minded.

## 294 Something that can notify

How to make **something that can notify** in 8 easy steps:

### 294.1 Materials

- 20 informations
- 1 vague notion of being alert

### 294.2 Tools

- Bonfire
- Mortar
- Vessel
- Centrifuge
- Tape

### 294.3 Instructions

1. Put **20 informations** into the bonfire.
2. Smash **1 vague notion of being alert** with the mortar.
3. Put **1 smashed vague notion of being alert** into the rotating centrifuge.
4. Heat the vessel.
5. Speed up the centrifuge.
6. Retrieve the **4.39 spoonful of ashes of "information"** from the bonfire.
7. Stop the centrifuge and retrieve the **6.77 ounces of centrifuged mixture "smashed being alert"**.
8. Use tape to join the **4.39 spoonful of ashes of "information"** and **6.77 ounces of centrifuged mixture "smashed being alert"** together into the form of a usable **something that can notify**.

## 295 Something that can prefer

How to make **something that can prefer** in 10 easy steps:

### 295.1 Materials

- 8 ideas of being favorite
- 14.62 ounces of favor
- 1.17 ounces of preference

### 295.2 Tools

- Centrifuge
- Fireplace
- Vessel
- Pet hummingbird
- Nails

### 295.3 Instructions

1. Put **14.62 ounces of favor** into the vessel.
2. Put **8 ideas of being favorite** into the rotating centrifuge.
3. Put **1.17 ounces of preference** into the fireplace.
4. Fan the flames of the fireplace.
5. Let the vessel cool down.
6. Pet your pet hummingbird.
7. Stop the centrifuge and retrieve the **8.35 ounces of centrifuged mixture "being favorite"**.
8. Retrieve the **3.77 spoonful of ashes of "preference"** from the fireplace.
9. Pour out the mixture from the vessel to get the **7.91 spoonful of vessel mixture "favor"**.
10. Use nails to join the **8.35 ounces of centrifuged mixture "being favorite"**, **3.77 spoonful of ashes of "preference"** and **7.91 spoonful of vessel mixture "favor"** together into the shape of a perfectly functional **something that can prefer**.

## 296 Something that can prosper

How to make **something that can prosper** in 9 easy steps:

### 296.1 Materials

- 4.91 ounces of harvest
- 24 successors
- 7.47 ounces of growth

### 296.2 Tools

- Centrifuge
- Cauldron

### 296.3 Instructions

1. Wait.
2. Stir the cauldron.
3. Put **7.47 ounces of growth** into the rotating centrifuge.
4. Put **4.91 ounces of harvest** into the cauldron.
5. Speed up the centrifuge.
6. Stop the centrifuge and retrieve the **12.19 ounces of centrifuged mixture "growth"**.
7. Pour out the mixture from the cauldron to get the **41.33 spoonful of cauldron mixture "harvest"**.
8. Fold the **24 successors, 12.19 ounces of centrifuged mixture "growth"** and **41.33 spoonful of cauldron mixture "harvest"** together using advanced origami techniques.
9. If you've done it correctly, it could result in **something that can prosper**.

## 297 Something that can snatch

How to make **something that can snatch** in 10 easy steps:

### 297.1 Materials

- 17 vague notions of grab

### 297.2 Tools

- Purifier
- Cauldron
- Fireplace
- Bucket with ice-cold liquid

### 297.3 Instructions

1. Purify **17 vague notions of grab** with the purifier.
2. Dip **17 purified vague notions of grab** into the bucket with ice-cold liquid.
3. Hold **17 purified and wet vague notions of grab** briefly into the fireplace to burn them a bit.
4. Put **17 purified, wet and slightly burned vague notions of grab** into the cauldron.
5. Heat the cauldron.
6. Wait.
7. Fan the flames of the fireplace.
8. Pour out the mixture from the cauldron to get the **29.49 spoonful of cauldron mixture "purified, wet and slightly burned grab"**.
9. Fold the **29.49 spoonful of cauldron mixture "purified, wet and slightly burned grab"** together using advanced origami techniques.
10. If you've done it correctly, it could result in **something that can snatch**.

## 298    Something that can soothe

How to make **something that can soothe** in 9 easy steps:

### 298.1    Materials

- 3 ideas of caress
- 8.03 ounces of comfort
- 9 clear concepts of rub
- 18.8 ounces of solace

### 298.2    Tools

- Container
- Centrifuge
- Fireplace
- Stone

### 298.3    Instructions

1. Put **8.03 ounces of comfort** into the rotating centrifuge.
2. Crack **18.8 ounces of solace** with the stone.
3. Heat the container.
4. Put **9 clear concepts of rub** into the fireplace.
5. Crack **18.8 ounces of cracked solace** with the stone.
6. Stop the centrifuge and retrieve the **9.28 spoonful of centrifuged mixture "comfort"**.
7. Retrieve the **8.04 spoonful of ashes of "rub"** from the fireplace.
8. Fold the **3 ideas of caress**, **18.8 ounces of crushed solace**, **9.28 spoonful of centrifuged mixture "comfort"** and **8.04 spoonful of ashes of "rub"** together using advanced origami techniques.
9. If you've done it correctly, it might result in **something that can soothe**.

## 299 Something that can stolen

How to make **something that can stolen** in 10 easy steps:

### 299.1 Materials

- 8.09 spoonful of wallet
- 1 slip
- 28.55 ounces of purse
- 7 bases

### 299.2 Tools

- Centrifuge
- Bonfire
- Vessel
- Mortar

### 299.3 Instructions

1. Put **7 bases** into the rotating centrifuge.
2. Wait for a minute.
3. Put **28.55 ounces of purse** into the vessel.
4. Hold **8.09 spoonful of wallet** briefly into the bonfire to burn them a bit.
5. Smash **1 slip** with the mortar.
6. Fan the flames of the bonfire.
7. Stop the centrifuge and retrieve the **6.79 spoonful of centrifuged mixture "base"**.
8. Pour out the mixture from the vessel to get the **7.72 spoonful of vessel mixture "purse"**.
9. Dump the **8.09 spoonful of slightly burned wallet**, **1 smashed slip**, **6.79 spoonful of centrifuged mixture "base"** and **7.72 spoonful of vessel mixture "purse"** into a pile on the floor.
10. Wait until they magically transform into **something that can stolen**.

## 300 Something that can swap

How to make **something that can swap** in 10 easy steps:

### 300.1 Materials

- 34.26 spoonful of exchange
- 6 trades

### 300.2 Tools

- Centrifuge
- Bonfire
- Cauldron
- Pet dog
- Tape

### 300.3 Instructions

1. Put **6 trades** into the cauldron.
2. Hold **34.26 spoonful of exchange** briefly into the bonfire to burn them a bit.
3. Put **34.26 spoonful of slightly burned exchange** into the rotating centrifuge.
4. Fan the flames of the bonfire.
5. Heat the cauldron.
6. Let the cauldron cool down.
7. Pet your pet dog.
8. Pour out the mixture from the cauldron to get the **12.83 ounces of cauldron mixture "trade"**.
9. Stop the centrifuge and retrieve the **9.26 ounces of centrifuged mixture "slightly burned exchange"**.
10. Use tape to join the **12.83 ounces of cauldron mixture "trade"** and **9.26 ounces of centrifuged mixture "slightly burned exchange"** together into the form of a usable **something that can swap**.

## 301 Something that can testify

How to make **something that can testify** in 12 easy steps:

### 301.1 Materials

- 26 witnesses

### 301.2 Tools

- Cauldron
- Bucket with hot liquid
- Centrifuge
- Familiar dog

### 301.3 Instructions

1. Dip **26 witnesses** into the bucket with hot liquid.
2. Put **26 wet witnesses** into the rotating centrifuge.
3. Stir the cauldron.
4. Let the cauldron cool down.
5. Wait.
6. Stir the cauldron.
7. Pet your familiar dog.
8. Heat the cauldron.
9. Wait.
10. Stop the centrifuge and retrieve the **23.61 ounces of centrifuged mixture "wet witness"**.
11. Fold the **23.61 ounces of centrifuged mixture "wet witness"** together using advanced origami techniques.
12. If you've done it correctly, it could result in **something that can testify**.

## 302 Something untrue

How to make **something untrue** in 12 easy steps:

### 302.1 Materials

- 14.13 ounces of not
- 5.14 spoonful of myth
- 2 vague notions of being true
- 33.83 ounces of disbelief

### 302.2 Tools

- Freezer
- Fireplace
- Purifier

### 302.3 Instructions

1. Put **33.83 ounces of disbelief** into the freezer for a while.
2. Wait for 5 minutes.
3. Purify **2 vague notions of being true** with the purifier.
4. Put **2 purified vague notions of being true** into the freezer for a while.
5. Hold **5.14 spoonful of myth** briefly into the fireplace to burn them a bit.
6. Fan the flames of the fireplace.
7. Put **2 purified and cooled vague notions of being true** into the fireplace.
8. Put **33.83 ounces of cooled disbelief** into the freezer for a while.
9. Hold **33.83 ounces of frozen disbelief** briefly into the fireplace to burn them a bit.
10. Retrieve the **14.77 spoonful of ashes of "purified and cooled being true"** from the fireplace.
11. Fold the **14.13 ounces of not**, **5.14 spoonful of slightly burned myth**, **33.83 ounces of frozen and slightly burned disbelief** and **14.77 spoonful of ashes of "purified and cooled being true"** together using advanced origami techniques.
12. If you've done it correctly, it might result in **something untrue**.

## 303 Something wild

How to make **something wild** in 12 easy steps:

### 303.1 Materials

- 16.49 spoonful of buck
- 6 clear concepts of being abstract
- 14.42 spoonful of raccoon
- 4 clear concepts of being west

### 303.2 Tools

- Vessel
- Mortar
- Purifier
- Centrifuge
- Crayon

### 303.3 Instructions

1. Wait for a very long time.
2. Let the vessel cool down.
3. Put **16.49 spoonful of buck** into the rotating centrifuge.
4. Heat the vessel.
5. Purify **4 clear concepts of being west** with the purifier.
6. Stir the vessel.
7. Smash **6 clear concepts of being abstract** with the mortar.
8. Stop the centrifuge and retrieve the **7.33 spoonful of centrifuged mixture "buck"**.
9. Draw a magic circle on the floor using the crayon.
10. Draw a cross into the circle and place **6 smashed clear concepts of being abstract, 14.42 spoonful of raccoon, 4 purified clear concepts of being west and 7.33 spoonful of centrifuged mixture "buck"** on each corner.

11. Intone the following spell: "Abscenteria xylos uno! Factor volus! Cet  
adtulus!"
12. Reluctantly, **something wild** will appear inside the circle.

## 304 A soul

How to make a **soul** in 9 easy steps:

### 304.1 Materials

- 31 ideas of die
- 21.87 ounces of heart
- 24 ideas of being brave
- 7.67 ounces of essence

### 304.2 Tools

- Fireplace
- Centrifuge

### 304.3 Instructions

1. Put **21.87 ounces of heart** into the fireplace.
2. Fan the flames of the fireplace.
3. Hold **7.67 ounces of essence** briefly into the fireplace to burn them a bit.
4. Put **31 ideas of die** into the rotating centrifuge.
5. Fan the flames of the fireplace.
6. Retrieve the **21.48 spoonful of ashes of "heart"** from the fireplace.
7. Stop the centrifuge and retrieve the **5.71 ounces of centrifuged mixture "die"**.
8. Dump the **24 ideas of being brave, 7.67 ounces of slightly burned essence, 21.48 spoonful of ashes of "heart"** and **5.71 ounces of centrifuged mixture "die"** into a pile on the floor.
9. Wait until they magically transform into a **soul**.

## 305 A spatula

How to make a **spatula** in 11 easy steps:

### 305.1 Materials

- 4.76 spoonful of utensil

### 305.2 Tools

- Centrifuge
- Freezer
- Cauldron
- Glue

### 305.3 Instructions

1. Put **4.76 spoonful of utensil** into the freezer for a while.
2. Wait for a short time.
3. Put **4.76 spoonful of cooled utensil** into the rotating centrifuge.
4. Let the cauldron cool down.
5. Heat the cauldron.
6. Speed up the centrifuge.
7. Stir the cauldron.
8. Wait.
9. Let the cauldron cool down.
10. Stop the centrifuge and retrieve the **5.2 ounces of centrifuged mixture "cooled utensil"**.
11. Use glue to join the **5.2 ounces of centrifuged mixture "cooled utensil"** together into the shape of a usable **spatula**.

## 306 A splash

How to make a **splash** in 7 easy steps:

### 306.1 Materials

- 9 puddles
- 51.03 spoonful of waves
- 44 vague notions of spill
- 5 clear concepts of diving

### 306.2 Tools

- Bonfire
- Mortar
- Cauldron

### 306.3 Instructions

1. Smash **5 clear concepts of diving** with the mortar.
2. Put **44 vague notions of spill** into the bonfire.
3. Stir the cauldron.
4. Hold **9 puddles** briefly into the bonfire to burn them a bit.
5. Retrieve the **145.26 ounces of ashes of "spill"** from the bonfire.
6. Fold the **9 slightly burned puddles, 51.03 spoonful of waves, 5 smashed clear concepts of diving** and **145.26 ounces of ashes of "spill"** together using advanced origami techniques.
7. If you've done it correctly, it might result in a **splash**.

## 307 A sprinkle

How to make a **sprinkle** in 5 easy steps:

### 307.1 Materials

- 3.24 ounces of dash

### 307.2 Tools

- Bonfire
- Vessel
- Glue

### 307.3 Instructions

1. Put **3.24 ounces of dash** into the vessel.
2. Fan the flames of the bonfire.
3. Heat the vessel.
4. Pour out the mixture from the vessel to get the **11.3 ounces of vessel mixture "dash"**.
5. Use glue to join the **11.3 ounces of vessel mixture "dash"** together into the shape of a perfectly functional **sprinkle**.

## 308 A stairway

How to make a **stairway** in 5 easy steps:

### 308.1 Materials

- 9.7 ounces of steps

### 308.2 Tools

- Bonfire

### 308.3 Instructions

1. Put **9.7 ounces of steps** into the bonfire.
2. Fan the flames of the bonfire.
3. Retrieve the **89.76 spoonful of ashes of "steps"** from the bonfire.
4. Fold the **89.76 spoonful of ashes of "steps"** together using advanced origami techniques.
5. If you've done it correctly, it could result in a **stairway**.

## 309 A stars

How to make a **stars** in 12 easy steps:

### 309.1 Materials

- 13 horoscopes
- 7.11 ounces of midnight
- 1.18 ounces of mythology
- 7 venuses

### 309.2 Tools

- Bucket with ionised water
- Saw
- Purifier

### 309.3 Instructions

1. Dip **7 venuses** into the bucket with ionised water.
2. Wait.
3. Use the saw to slice **1.18 ounces of mythology** into bits.
4. Dip **13 horoscopes** into the bucket with ionised water.
5. Wait.
6. Use the saw to slice **1.18 ounces of sliced mythology** into bits.
7. Purify **1.18 ounces of fragmented mythology** with the purifier.
8. Wait for a short time.
9. Dip **7.11 ounces of midnight** into the bucket with ionised water.
10. Use the saw to slice **13 wet horoscopes** into bits.
11. Dump the **13 wet and sliced horoscopes**, **7.11 ounces of wet midnight**, **1.18 ounces of fragmented and purified mythology** and **7 wet venuses** into a pile on the floor.
12. Wait until they magically transform into a **stars**.

## 310 A steak

How to make a **steak** in 10 easy steps:

### 310.1 Materials

- 7.21 spoonful of ribs
- 2 meats
- 6.39 ounces of barbecue
- 23.15 spoonful of beef

### 310.2 Tools

- Centrifuge
- Pet mouse
- Crayon

### 310.3 Instructions

1. Put **2 meats** into the rotating centrifuge.
2. Stop the centrifuge and retrieve the **4.02 spoonful of centrifuged mixture "meat"**.
3. Let your pet mouse sniff at **7.21 spoonful of ribs**.
4. Put **23.15 spoonful of beef** into the rotating centrifuge.
5. Pet your pet mouse.
6. Stop the centrifuge and retrieve the **4.18 spoonful of centrifuged mixture "beef"**.
7. Draw a magic circle on the floor using the crayon.
8. Draw a cross into the circle and place **7.21 spoonful of ribs, 6.39 ounces of barbecue, 4.02 spoonful of centrifuged mixture "meat"** and **4.18 spoonful of centrifuged mixture "beef"** on each corner.
9. Chant the following spell: "Dicto! Tratio! Ingurigo colatio herotatio!"
10. Reluctantly, a **steak** will appear inside the circle.

## 311 Steam

How to make **steam** in 10 easy steps:

### 311.1 Materials

- 6 mists
- 3 clear concepts of boil
- 27.65 ounces of vapor
- 3.45 ounces of geyser

### 311.2 Tools

- Centrifuge
- Saw
- Bucket with hot liquid
- Vessel
- Purifier
- Nails

### 311.3 Instructions

1. Use the saw to slice **3.45 ounces of geyser** into bits.
2. Let the vessel cool down.
3. Put **6 mists** into the rotating centrifuge.
4. Put **27.65 ounces of vapor** into the vessel.
5. Speed up the centrifuge.
6. Pour out the mixture from the vessel to get the **11.51 spoonful of vessel mixture "vapor"**.
7. Purify **3.45 ounces of sliced geyser** with the purifier.
8. Dip **11.51 spoonful of vessel mixture "vapor"** into the bucket with hot liquid.
9. Stop the centrifuge and retrieve the **6.62 spoonful of centrifuged mixture "mist"**.

10. Use nails to join the **3** clear concepts of boil, **3.45** ounces of sliced and purified geyser, **11.51** spoonful of wet vessel mixture "vapor" and **6.62** spoonful of centrifuged mixture "mist" together into the shape of a passable **steam**.

## 312 A stem

How to make a **stem** in 8 easy steps:

### 312.1 Materials

- 5.33 spoonful of branch
- 10 cherries
- 10.07 spoonful of flower
- 29 roots

### 312.2 Tools

- Fireplace
- Centrifuge
- Saw
- Cauldron
- Screws

### 312.3 Instructions

1. Use the saw to slice **5.33 spoonful of branch** into bits.
2. Hold **10 cherries** briefly into the fireplace to burn them a bit.
3. Heat the cauldron.
4. Stir the cauldron.
5. Let the cauldron cool down.
6. Put **5.33 spoonful of sliced branch** into the rotating centrifuge.
7. Stop the centrifuge and retrieve the **5.53 ounces of centrifuged mixture "sliced branch"**.
8. Use screws to join the **10 slightly burned cherries, 10.07 spoonful of flower, 29 roots** and **5.53 ounces of centrifuged mixture "sliced branch"** together into the form of a beautiful **stem**.

## 313 A stink

How to make a **stink** in 6 easy steps:

### 313.1 Materials

- 10 smells
- 19.95 spoonful of lurch
- 25.18 spoonful of sardine
- 9.44 spoonful of odor

### 313.2 Tools

- Bonfire
- Saw
- Bucket with ionised water
- Hammer
- Glue

### 313.3 Instructions

1. Smash **25.18 spoonful of sardine** with the hammer.
2. Wait.
3. Hold **25.18 spoonful of smashed sardine** briefly into the bonfire to burn them a bit.
4. Use the saw to slice **9.44 spoonful of odor** into bits.
5. Dip **19.95 spoonful of lurch** into the bucket with ionised water.
6. Use glue to join the **10 smells, 19.95 spoonful of wet lurch, 25.18 spoonful of smashed and slightly burned sardine** and **9.44 spoonful of sliced odor** together into the shape of a passable **stink**.

## 314 A stone

How to make a **stone** in 12 easy steps:

### 314.1 Materials

- 6.67 ounces of pebble
- 36.98 ounces of lime
- 15.05 spoonful of emerald
- 45.88 spoonful of cobbler

### 314.2 Tools

- Freezer
- Centrifuge
- Mortar
- Saw
- Fireplace
- Pet dog
- Screws

### 314.3 Instructions

1. Crack **6.67 ounces of pebble** with the mortar.
2. Feed **15.05 spoonful of emerald** to your pet dog.
3. Fan the flames of the fireplace.
4. Put **36.98 ounces of lime** into the rotating centrifuge.
5. Put **45.88 spoonful of cobbler** into the freezer for a while.
6. Feed **45.88 spoonful of cooled cobbler** to your pet dog.
7. Crack **6.67 ounces of cracked pebble** with the mortar.
8. Smash **6.67 ounces of crushed pebble** with the mortar.
9. Use the saw to slice **6.67 ounces of crushed and smashed pebble** into bits.
10. Stop the centrifuge and retrieve the **4.45 spoonful of centrifuged mixture "lime"**.

11. Wait until your pet dog poops. Receive **14.14 ounces of a very dirty pile of "emerald and cooled cobbler"**.
12. Use screws to join the **6.67 ounces of crushed, smashed and sliced pebble**, **4.45 spoonful of centrifuged mixture "lime"** and **14.14 ounces of a very dirty pile of "emerald and cooled cobbler"** together into the shape of a beautiful **stone**.

## 315 A strategy

How to make a **strategy** in 10 easy steps:

### 315.1 Materials

- 6.23 ounces of plan

### 315.2 Tools

- Fireplace
- Centrifuge

### 315.3 Instructions

1. Wait for a rather short time.
2. Put **6.23 ounces of plan** into the rotating centrifuge.
3. Fan the flames of the fireplace.
4. Wait.
5. Stop the centrifuge and retrieve the **15.95 ounces of centrifuged mixture "plan"**.
6. Put **15.95 ounces of centrifuged mixture "plan"** into the rotating centrifuge.
7. Fan the flames of the fireplace.
8. Stop the centrifuge and retrieve the **2.71 spoonful of centrifuged mixture "centrifuged mixture "plan""**.
9. Fold the **2.71 spoonful of centrifuged mixture "centrifuged mixture "plan"'** together using advanced origami techniques.
10. If you've done it correctly, it could result in a **strategy**.

## 316 A structure

How to make a **structure** in 11 easy steps:

### 316.1 Materials

- 7.96 ounces of architecture
- 23 sentences
- 14 ideas of build
- 21 buildings

### 316.2 Tools

- Vessel
- Freezer

### 316.3 Instructions

1. Put **14 ideas of build** into the vessel.
2. Wait.
3. Stir the vessel.
4. Pour out the mixture from the vessel to get the **4.61 spoonful of vessel mixture "build"**.
5. Wait.
6. Heat the vessel.
7. Let the vessel cool down.
8. Put **7.96 ounces of architecture** into the freezer for a while.
9. Heat the vessel.
10. Fold the **7.96 ounces of cooled architecture, 23 sentences, 21 buildings** and **4.61 spoonful of vessel mixture "build"** together using advanced origami techniques.
11. If you've done it correctly, it might result in a **structure**.

## 317 A sub

How to make a **sub** in 9 easy steps:

### 317.1 Materials

- 21 vague notions of being italian
- 3.65 spoonful of meatballs
- 8.77 ounces of subway
- 8.47 spoonful of below

### 317.2 Tools

- Saw
- Container

### 317.3 Instructions

1. Use the saw to slice **8.77 ounces of subway** into bits.
2. Stir the container.
3. Put **8.77 ounces of sliced subway** into the container.
4. Heat the container.
5. Stir the container.
6. Wait for 6 days.
7. Pour out the mixture from the container to get the **7.33 ounces of container mixture "sliced subway"**.
8. Fold the **21 vague notions of being italian, 3.65 spoonful of meatballs, 8.47 spoonful of below and 7.33 ounces of container mixture "sliced subway"** together using advanced origami techniques.
9. If you've done it correctly, it could result in a **sub**.

## 318 A subway

How to make a **subway** in 16 easy steps:

### 318.1 Materials

- 7.45 ounces of sub
- 2.63 spoonful of submarine
- 20 clear concepts of being underground
- 2.55 spoonful of tunnel

### 318.2 Tools

- Centrifuge
- Vessel
- Fireplace
- Fountain pen

### 318.3 Instructions

1. Put **20 clear concepts of being underground** into the rotating centrifuge.
2. Put **2.63 spoonful of submarine** into the rotating centrifuge.
3. Fan the flames of the fireplace.
4. Put **7.45 ounces of sub** into the fireplace.
5. Stop the centrifuge and retrieve the **1.8 ounces of centrifuged mixture "being underground and submarine"**.
6. Put **2.55 spoonful of tunnel** into the fireplace.
7. Put **1.8 ounces of centrifuged mixture "being underground and submarine"** into the rotating centrifuge.
8. Speed up the centrifuge.
9. Stop the centrifuge and retrieve the **16.74 ounces of centrifuged mixture "centrifuged mixture "being underground and submarine"**.
10. Put **16.74 ounces of centrifuged mixture "centrifuged mixture "being underground and submarine"** into the vessel.

11. Pour out the mixture from the vessel to get the **75.95 spoonful of vessel mixture "centrifuged mixture "centrifuged mixture "being underground and submarine""**.
12. Retrieve the **5.22 spoonful of ashes of "sub and tunnel"** from the fireplace.
13. Draw a magic circle on the floor using the fountain pen.
14. Draw a line into the circle and place **75.95 spoonful of vessel mixture "centrifuged mixture "centrifuged mixture "being underground and submarine""** and **5.22 spoonful of ashes of "sub and tunnel"** on each end.
15. Whisper the following spell: "Bur!"
16. Reluctantly, a **subway** will appear inside the circle.

## 319 Success

How to make **success** in 12 easy steps:

### 319.1 Materials

- 8 professions
- 7.9 ounces of achiever
- 9.06 ounces of failure
- 7 vague notions of turn

### 319.2 Tools

- Bucket with clean liquid
- Container
- Freezer

### 319.3 Instructions

1. Put **9.06 ounces of failure** into the container.
2. Put **8 professions** into the freezer for a while.
3. Dip **8 cooled professions** into the bucket with clean liquid.
4. Wait.
5. Put **7 vague notions of turn** into the container.
6. Dip **7.9 ounces of achiever** into the bucket with clean liquid.
7. Pour out the mixture from the container to get the **3.39 spoonful of container mixture "failure and turn"**.
8. Put **3.39 spoonful of container mixture "failure and turn"** into the freezer for a while.
9. Put **8 cooled and wet professions** into the container.
10. Pour out the mixture from the container to get the **6.22 spoonful of container mixture "cooled and wet profession"**.
11. Dump the **7.9 ounces of wet achiever**, **3.39 spoonful of cooled container mixture "failure and turn"** and **6.22 spoonful of container mixture "cooled and wet profession"** into a pile on the floor.
12. Wait until they magically transform into **success**.

## 320 A suck

How to make a **suck** in 4 easy steps:

### 320.1 Materials

- 1.21 ounces of lap
- 5.26 spoonful of lollipop
- 18.21 spoonful of slurp
- 16.64 ounces of succor

### 320.2 Tools

- Fireplace
- Glue

### 320.3 Instructions

1. Put **1.21 ounces of lap** into the fireplace.
2. Put **16.64 ounces of succor** into the fireplace.
3. Retrieve the **9.25 ounces of ashes of "lap and succor"** from the fireplace.
4. Use glue to join the **5.26 spoonful of lollipop**, **18.21 spoonful of slurp** and **9.25 ounces of ashes of "lap and succor"** together into the shape of a usable **suck**.

## 321 Sugar

How to make **sugar** in 9 easy steps:

### 321.1 Materials

- 2 clear concepts of dissolve
- 28 spoons
- 3.45 spoonful of flour
- 196 syrups

### 321.2 Tools

- Hammer
- Fireplace

### 321.3 Instructions

1. Hold **3.45 spoonful of flour** briefly into the fireplace to burn them a bit.
2. Put **28 spoons** into the fireplace.
3. Retrieve the **3.09 ounces of ashes of "spoon"** from the fireplace.
4. Put **2 clear concepts of dissolve** into the fireplace.
5. Wait for a very long time.
6. Crack **3.09 ounces of ashes of "spoon"** with the hammer.
7. Retrieve the **1.61 spoonful of ashes of "dissolve"** from the fireplace.
8. Fold the **3.45 spoonful of slightly burned flour, 196 syrups, 3.09 ounces of cracked ashes of "spoon"** and **1.61 spoonful of ashes of "dissolve"** together using advanced origami techniques.
9. If you've done it correctly, it could result in **sugar**.

## 322 A suitcase

How to make a **suitcase** in 13 easy steps:

### 322.1 Materials

- 5.06 ounces of trunk
- 36 cases
- 4.34 ounces of luggage
- 8 briefcases

### 322.2 Tools

- Bucket with clean liquid
- Bonfire
- Centrifuge
- Freezer
- Container
- Nails

### 322.3 Instructions

1. Wait for a short time.
2. Put **5.06 ounces of trunk** into the bonfire.
3. Let the container cool down.
4. Put **8 briefcases** into the freezer for a while.
5. Put **4.34 ounces of luggage** into the bonfire.
6. Wait.
7. Put **36 cases** into the rotating centrifuge.
8. Dip **8 cooled briefcases** into the bucket with clean liquid.
9. Put **8 cooled and wet briefcases** into the container.
10. Retrieve the **4.26 ounces of ashes of "trunk and luggage"** from the bonfire.
11. Stop the centrifuge and retrieve the **6.71 spoonful of centrifuged mixture "case"**.

12. Pour out the mixture from the container to get the **24.42 spoonful of container mixture "cooled and wet briefcase"**.
13. Use nails to join the **4.26 ounces of ashes of "trunk and luggage"**, **6.71 spoonful of centrifuged mixture "case"** and **24.42 spoonful of container mixture "cooled and wet briefcase"** together into the shape of a perfectly functional **suitcase**.

## 323 A surgery

How to make a **surgery** in 12 easy steps:

### 323.1 Materials

- 4.8 ounces of scalpel
- 2.83 spoonful of operation
- 18 glove
- 2.33 ounces of surgeon

### 323.2 Tools

- Saw
- Bonfire
- Purifier
- Centrifuge

### 323.3 Instructions

1. Put **18 glove** into the rotating centrifuge.
2. Purify **2.83 spoonful of operation** with the purifier.
3. Fan the flames of the bonfire.
4. Put **4.8 ounces of scalpel** into the bonfire.
5. Use the saw to slice **2.33 ounces of surgeon** into bits.
6. Speed up the centrifuge.
7. Fan the flames of the bonfire.
8. Put **2.83 spoonful of purified operation** into the bonfire.
9. Retrieve the **34.64 ounces of ashes of "scalpel and purified operation"** from the bonfire.
10. Stop the centrifuge and retrieve the **10.96 spoonful of centrifuged mixture "gloves"**.
11. Dump the **2.33 ounces of sliced surgeon, 34.64 ounces of ashes of "scalpel and purified operation"** and **10.96 spoonful of centrifuged mixture "gloves"** into a pile on the floor.
12. Wait until they magically transform into a **surgery**.

## 324 A surroundings

How to make a **surroundings** in 8 easy steps:

### 324.1 Materials

- 2.58 spoonful of circumstance
- 43.62 spoonful of environment

### 324.2 Tools

- Fireplace
- Vessel
- Freezer

### 324.3 Instructions

1. Put **2.58 spoonful of circumstance** into the vessel.
2. Put **43.62 spoonful of environment** into the freezer for a while.
3. Wait for an hour.
4. Fan the flames of the fireplace.
5. Let the vessel cool down.
6. Pour out the mixture from the vessel to get the **1.35 ounces of vessel mixture "circumstance"**.
7. Fold the **43.62 spoonful of cooled environment** and **1.35 ounces of vessel mixture "circumstance"** together using advanced origami techniques.
8. If you've done it correctly, it might result in a **surroundings**.

## 325 A swallow

How to make a **swallow** in 9 easy steps:

### 325.1 Materials

- 6 vague notions of spit
- 8.95 ounces of drink
- 9.46 ounces of death
- 9.41 spoonful of gulp

### 325.2 Tools

- Centrifuge
- Fireplace
- Vessel
- Hammer
- Tape

### 325.3 Instructions

1. Put **9.46 ounces of death** into the rotating centrifuge.
2. Hold **8.95 ounces of drink** briefly into the fireplace to burn them a bit.
3. Smash **6 vague notions of spit** with the hammer.
4. Stop the centrifuge and retrieve the **147.84 spoonful of centrifuged mixture "death"**.
5. Put **8.95 ounces of slightly burned drink** into the rotating centrifuge.
6. Speed up the centrifuge.
7. Stir the vessel.
8. Stop the centrifuge and retrieve the **3.54 spoonful of centrifuged mixture "slightly burned drink"**.
9. Use tape to join the **6 smashed vague notions of spit**, **9.41 spoonful of gulp**, **147.84 spoonful of centrifuged mixture "death"** and **3.54 spoonful of centrifuged mixture "slightly burned drink"** together into the form of a beautiful **swallow**.

## 326 A swan

How to make a **swan** in 10 easy steps:

### 326.1 Materials

- 2.08 spoonful of grace
- 1 geese
- 3 ideas of duck
- 5.03 spoonful of gracefulness

### 326.2 Tools

- Vessel
- Saw
- Graphite pencil

### 326.3 Instructions

1. Heat the vessel.
2. Wait.
3. Use the saw to slice **1 geese** into bits.
4. Stir the vessel.
5. Put **1 sliced geese** into the vessel.
6. Pour out the mixture from the vessel to get the **7.43 spoonful of vessel mixture "sliced geese"**.
7. Draw a magic circle on the floor using the graphite pencil.
8. Draw a cross into the circle and place **2.08 spoonful of grace, 3 ideas of duck, 5.03 spoonful of gracefulness** and **7.43 spoonful of vessel mixture "sliced geese"** on each corner.
9. Intone the following spell: "Coemidilis cens aemerodosus! Quarius subviator antia! Relleum tratio!"
10. Reluctantly, a **swan** will appear inside the circle.

## 327 A swiss

How to make a **swiss** in 11 easy steps:

### 327.1 Materials

- 1.42 ounces of cheddar
- 7.72 ounces of cheese

### 327.2 Tools

- Bonfire
- Centrifuge
- Cauldron
- Graphite pencil

### 327.3 Instructions

1. Fan the flames of the bonfire.
2. Stir the cauldron.
3. Hold **7.72 ounces of cheese** briefly into the bonfire to burn them a bit.
4. Let the cauldron cool down.
5. Heat the cauldron.
6. Put **7.72 ounces of slightly burned cheese** into the rotating centrifuge.
7. Stop the centrifuge and retrieve the **13.77 ounces of centrifuged mixture "slightly burned cheese"**.
8. Draw a magic circle on the floor using the graphite pencil.
9. Draw a line into the circle and place **1.42 ounces of cheddar** and **13.77 ounces of centrifuged mixture "slightly burned cheese"** on each end.
10. Whisper the following spell: "Zizyfumerium proro lantumnis, coctritor!"
11. Suddendly, a **swiss** will appear inside the circle.

## 328 A tear

How to make a **tear** in 10 easy steps:

### 328.1 Materials

- 3 ideas of sobbing
- 6 clear concepts of break
- 6.91 spoonful of damage
- 7.25 spoonful of sadness

### 328.2 Tools

- Purifier
- Saw
- Nails

### 328.3 Instructions

1. Use the saw to slice **6.91 spoonful of damage** into bits.
2. Purify **6.91 spoonful of sliced damage** with the purifier.
3. Wait for a short time.
4. Use the saw to slice **3 ideas of sobbing** into bits.
5. Purify **6 clear concepts of break** with the purifier.
6. Wait for a rather long time.
7. Use the saw to slice **7.25 spoonful of sadness** into bits.
8. Throw **6.91 spoonful of sliced and purified damage** away.
9. Purify **3 sliced ideas of sobbing** with the purifier.
10. Use nails to join the **3 sliced and purified ideas of sobbing**, **6 purified clear concepts of break** and **7.25 spoonful of sliced sadness** together into the shape of a beautiful **tear**.

## 329 A theme

How to make a **theme** in 7 easy steps:

### 329.1 Materials

- 1 subject
- 3.02 spoonful of slogan
- 11.14 ounces of plot
- 7 topics

### 329.2 Tools

- Cauldron
- Saw
- Freezer
- Bucket with ionised liquid

### 329.3 Instructions

1. Dip **11.14 ounces of plot** into the bucket with ionised liquid.
2. Put **7 topics** into the freezer for a while.
3. Let the cauldron cool down.
4. Dip **7 cooled topics** into the bucket with ionised liquid.
5. Use the saw to slice **7 cooled and wet topics** into bits.
6. Fold the **1 subject, 3.02 spoonful of slogan, 11.14 ounces of wet plot** and **7 cooled, wet and sliced topics** together using advanced origami techniques.
7. If you've done it correctly, it could result in a **theme**.

## 330 A thermometer

How to make a **thermometer** in 11 easy steps:

### 330.1 Materials

- 1.67 ounces of fever
- 7 celsiuses
- 2.26 spoonful of temperature

### 330.2 Tools

- Bonfire
- Cauldron
- Familiar chinchilla

### 330.3 Instructions

1. Stir the cauldron.
2. Heat the cauldron.
3. Feed **2.26 spoonful of temperature** to your familiar chinchilla.
4. Let the cauldron cool down.
5. Heat the cauldron.
6. Fan the flames of the bonfire.
7. Put **1.67 ounces of fever** into the bonfire.
8. Retrieve the **1.54 spoonful of ashes of "fever"** from the bonfire.
9. Wait until your familiar chinchilla poops. Receive **3.15 ounces of a very dirty pile of "temperature"**.
10. Fold the **7 celsiuses**, **1.54 spoonful of ashes of "fever"** and **3.15 ounces of a very dirty pile of "temperature"** together using advanced origami techniques.
11. If you've done it correctly, it could result in a **thermometer**.

## 331 A thesaurus

How to make a **thesaurus** in 8 easy steps:

### 331.1 Materials

- 1 encyclopedia
- 3.99 ounces of dictionary

### 331.2 Tools

- Bonfire
- Electric paint

### 331.3 Instructions

1. Hold **1 encyclopedia** briefly into the bonfire to burn it a bit.
2. Fan the flames of the bonfire.
3. Put **3.99 ounces of dictionary** into the bonfire.
4. Retrieve the **20.78 ounces of ashes of "dictionary"** from the bonfire.
5. Draw a magic circle on the floor using the electric paint.
6. Draw a line into the circle and place **1 slightly burned encyclopedia** and **20.78 ounces of ashes of "dictionary"** on each end.
7. Whisper the following spell: "Pophesia compernego incohaero!"
8. Reluctantly, a **thesaurus** will appear inside the circle.

## 332 A thick

How to make a **thick** in 10 easy steps:

### 332.1 Materials

- 4 thinnesses
- 19.74 spoonful of layer
- 46.23 spoonful of fog
- 8.66 ounces of cream

### 332.2 Tools

- Cauldron
- Mortar
- Bonfire
- Screws

### 332.3 Instructions

1. Put **8.66 ounces of cream** into the bonfire.
2. Hold **46.23 spoonful of fog** briefly into the bonfire to burn them a bit.
3. Smash **19.74 spoonful of layer** with the mortar.
4. Put **19.74 spoonful of smashed layer** into the cauldron.
5. Stir the cauldron.
6. Wait.
7. Put **46.23 spoonful of slightly burned fog** into the bonfire.
8. Pour out the mixture from the cauldron to get the **5.2 spoonful of cauldron mixture "smashed layer"**.
9. Retrieve the **4.4 ounces of ashes of "cream and slightly burned fog"** from the bonfire.
10. Use screws to join the **4 thinnesses, 5.2 spoonful of cauldron mixture "smashed layer"** and **4.4 ounces of ashes of "cream and slightly burned fog"** together into the form of a usable **thick**.

## 333 A thimble

How to make a **thimble** in 8 easy steps:

### 333.1 Materials

- 25 vague notions of tumble

### 333.2 Tools

- Hammer
- Bucket with hot water
- Glue

### 333.3 Instructions

1. Wait.
2. Dip **25 vague notions of tumble** into the bucket with hot water.
3. Smash **25 wet vague notions of tumble** with the hammer.
4. Crack **25 wet and smashed vague notions of tumble** with the hammer.
5. Dip **25 wet, smashed and cracked vague notions of tumble** into the bucket with hot water.
6. Wait.
7. Crack **25 very wet, smashed and cracked vague notions of tumble** with the hammer.
8. Use glue to join the **25 very wet, smashed and crushed vague notions of tumble** together into the shape of a passable **thimble**.

## 334 A thing

How to make a **thing** in 14 easy steps:

### 334.1 Materials

- 4.93 spoonful of element
- 2 vague notions of being specific
- 9.6 ounces of sureness
- 10 somes

### 334.2 Tools

- Bucket with water
- Saw
- Centrifuge
- Container
- Charcoal pencil

### 334.3 Instructions

1. Wait for 3 hours.
2. Put **2 vague notions of being specific** into the rotating centrifuge.
3. Let the container cool down.
4. Stir the container.
5. Dip **4.93 spoonful of element** into the bucket with water.
6. Heat the container.
7. Stir the container.
8. Let the container cool down.
9. Use the saw to slice **4.93 spoonful of wet element** into bits.
10. Stop the centrifuge and retrieve the **7.41 ounces of centrifuged mixture "being specific"**.
11. Draw a magic circle on the floor using the charcoal pencil.

12. Draw a square into the circle and place **4.93 spoonful of wet and sliced element, 9.6 ounces of sureness, 10 some** and **7.41 ounces of centrifuged mixture "being specific"** on each corner.
13. Intone the following spell: "Applectio! Vimentum arnea coxum corsitus bellicor, conporticia desco! Emius conculus! Chlossator disco aparius, patus inatum!"
14. Slowly, a **thing** will appear inside the circle.

## 335 A tile

How to make a **tile** in 4 easy steps:

### 335.1 Materials

- 15.28 spoonful of carpet
- 18 porcelains
- 9.64 ounces of floor
- 28.57 ounces of shingle

### 335.2 Tools

- Cauldron
- Fireplace
- Glue

### 335.3 Instructions

1. Stir the cauldron.
2. Hold **9.64 ounces of floor** briefly into the fireplace to burn them a bit.
3. Hold **18 porcelains** briefly into the fireplace to burn them a bit.
4. Use glue to join the **15.28 spoonful of carpet**, **18 slightly burned porcelains**, **9.64 ounces of slightly burned floor** and **28.57 ounces of shingle** together into the form of a beautiful **tile**.

## 336 A tomato

How to make a **tomato** in 7 easy steps:

### 336.1 Materials

- 8.67 ounces of garden
- 12.42 ounces of paste
- 34 lettuces
- 2 radishes

### 336.2 Tools

- Hammer
- Cauldron
- Bonfire

### 336.3 Instructions

1. Hold **2 radishes** briefly into the bonfire to burn them a bit.
2. Smash **8.67 ounces of garden** with the hammer.
3. Crack **12.42 ounces of paste** with the hammer.
4. Let the cauldron cool down.
5. Wait.
6. Fold the **8.67 ounces of smashed garden**, **12.42 ounces of cracked paste**, **34 lettuces** and **2 slightly burned radishes** together using advanced origami techniques.
7. If you've done it correctly, it might result in a **tomato**.

## 337 A touch

How to make a **touch** in 8 easy steps:

### 337.1 Materials

- 16 clear concepts of hold
- 5 ideas of being tangent
- 4 ideas of handle
- 23.51 ounces of close

### 337.2 Tools

- Hammer
- Centrifuge

### 337.3 Instructions

1. Smash **5 ideas of being tangent** with the hammer.
2. Crack **23.51 ounces of close** with the hammer.
3. Wait for an hour.
4. Put **4 ideas of handle** into the rotating centrifuge.
5. Speed up the centrifuge.
6. Stop the centrifuge and retrieve the **37.87 spoonful of centrifuged mixture "handle"**.
7. Dump the **16 clear concepts of hold**, **5 smashed ideas of being tangent**, **23.51 ounces of cracked close** and **37.87 spoonful of centrifuged mixture "handle"** into a pile on the floor.
8. Wait until they magically transform into a **touch**.

## 338 A trait

How to make a **trait** in 10 easy steps:

### 338.1 Materials

- 8.6 spoonful of custom
- 29 genes
- 10 uncommonnesses

### 338.2 Tools

- Saw
- Bonfire
- Freezer
- Bucket with water

### 338.3 Instructions

1. Wait.
2. Hold **8.6 spoonful of custom** briefly into the bonfire to burn them a bit.
3. Hold **29 genes** briefly into the bonfire to burn them a bit.
4. Use the saw to slice **8.6 spoonful of slightly burned custom** into bits.
5. Put **10 uncommonnesses** into the freezer for a while.
6. Fan the flames of the bonfire.
7. Wait for 10 minutes.
8. Dip **10 cooled uncommonnesses** into the bucket with water.
9. Fold the **8.6 spoonful of slightly burned and sliced custom**, **29 slightly burned genes** and **10 cooled and wet uncommonnesses** together using advanced origami techniques.
10. If you've done it correctly, it could result in a **trait**.

## 339 A trumpet

How to make a **trumpet** in 7 easy steps:

### 339.1 Materials

- 9.51 spoonful of flute
- 8.31 spoonful of clarinet
- 7.42 ounces of oboe
- 7.69 spoonful of instrument

### 339.2 Tools

- Freezer
- Stone
- Vessel

### 339.3 Instructions

1. Put **7.69 spoonful of instrument** into the vessel.
2. Smash **7.42 ounces of oboe** with the stone.
3. Put **7.42 ounces of smashed oboe** into the freezer for a while.
4. Let the vessel cool down.
5. Pour out the mixture from the vessel to get the **6.52 spoonful of vessel mixture "instrument"**.
6. Fold the **9.51 spoonful of flute**, **8.31 spoonful of clarinet**, **7.42 ounces of smashed and cooled oboe** and **6.52 spoonful of vessel mixture "instrument"** together using advanced origami techniques.
7. If you've done it correctly, it could result in a **trumpet**.

## 340 A twin

How to make a **twin** in 6 easy steps:

### 340.1 Materials

- 8.93 spoonful of identicalness
- 6.44 ounces of alikeness
- 6 ideas of being duplicate
- 6 vague notions of being double

### 340.2 Tools

- Container
- Purifier
- Glue

### 340.3 Instructions

1. Wait.
2. Purify **6 ideas of being duplicate** with the purifier.
3. Put **6.44 ounces of alikeness** into the container.
4. Let the container cool down.
5. Pour out the mixture from the container to get the **2.32 spoonful of container mixture "aliveness"**.
6. Use glue to join the **8.93 spoonful of identicalness**, **6 purified ideas of being duplicate**, **6 vague notions of being double** and **2.32 spoonful of container mixture "aliveness"** together into the shape of a usable **twin**.

## 341 A twist

How to make a **twist** in 10 easy steps:

### 341.1 Materials

- 2 clear concepts of turn
- 1 knot
- 10 ankles
- 25 ideas of spin

### 341.2 Tools

- Bonfire
- Centrifuge
- Container
- Hammer
- Freezer
- Tape

### 341.3 Instructions

1. Put **1 knot** into the rotating centrifuge.
2. Put **2 clear concepts of turn** into the freezer for a while.
3. Crack **25 ideas of spin** with the hammer.
4. Let the container cool down.
5. Fan the flames of the bonfire.
6. Stir the container.
7. Heat the container.
8. Put **10 ankles** into the rotating centrifuge.
9. Stop the centrifuge and retrieve the **7.49 ounces of centrifuged mixture "knot and ankle"**.
10. Use tape to join the **2 cooled clear concepts of turn**, **25 cracked ideas of spin** and **7.49 ounces of centrifuged mixture "knot and ankle"** together into the form of a perfectly functional **twist**.

## 342 An underground

How to make an **underground** in 6 easy steps:

### 342.1 Materials

- 6.6 spoonful of subway
- 2.72 ounces of cave
- 7.7 spoonful of mole
- 2.53 spoonful of tunnel

### 342.2 Tools

- Purifier
- Saw
- Stone
- Tape

### 342.3 Instructions

1. Crack **2.72 ounces of cave** with the stone.
2. Use the saw to slice **2.53 spoonful of tunnel** into bits.
3. Smash **7.7 spoonful of mole** with the stone.
4. Purify **2.53 spoonful of sliced tunnel** with the purifier.
5. Crack **7.7 spoonful of smashed mole** with the stone.
6. Use tape to join the **6.6 spoonful of subway**, **2.72 ounces of cracked cave**, **7.7 spoonful of smashed and cracked mole** and **2.53 spoonful of sliced and purified tunnel** together into the form of a beautiful **underground**.

## 343 An upstream

How to make an **upstream** in 13 easy steps:

### 343.1 Materials

- 16 salmon
- 2 downstreams

### 343.2 Tools

- Fireplace
- Purifier

### 343.3 Instructions

1. Hold **16 salmon** briefly into the fireplace to burn them a bit.
2. Wait.
3. Purify **16 slightly burned salmon** with the purifier.
4. Put **16 slightly burned and purified salmon** into the fireplace.
5. Fan the flames of the fireplace.
6. Purify **2 downstreams** with the purifier.
7. Hold **2 purified downstreams** briefly into the fireplace to burn them a bit.
8. Retrieve the **8.06 spoonful of ashes of "slightly burned and purified salmon"** from the fireplace.
9. Put **2 purified and slightly burned downstreams** into the fireplace.
10. Put **8.06 spoonful of ashes of "slightly burned and purified salmon"** into the fireplace.
11. Retrieve the **45.61 spoonful of ashes of "purified and slightly burned downstream and ashes of "slightly burned and purified salmon"** from the fireplace.
12. Fold the **45.61 spoonful of ashes of "purified and slightly burned downstream and ashes of "slightly burned and purified salmon"** together using advanced origami techniques.
13. If you've done it correctly, it should result in an **upstream**.

## 344 A vanilla

How to make a **vanilla** in 6 easy steps:

### 344.1 Materials

- 15.67 spoonful of chocolate
- 2.71 ounces of pudding
- 8 clear concepts of shake
- 3 vague notions of being plain

### 344.2 Tools

- Vessel
- Saw
- Purifier
- Nails

### 344.3 Instructions

1. Use the saw to slice **2.71 ounces of pudding** into bits.
2. Wait for a very long time.
3. Purify **2.71 ounces of sliced pudding** with the purifier.
4. Stir the vessel.
5. Use the saw to slice **3 vague notions of being plain** into bits.
6. Use nails to join the **15.67 spoonful of chocolate, 2.71 ounces of sliced and purified pudding, 8 clear concepts of shake** and **3 sliced vague notions of being plain** together into the form of a perfectly functional **vanilla**.

## 345 A vaseline

How to make a **vaseline** in 9 easy steps:

### 345.1 Materials

- 31.64 ounces of lubrication
- 12.17 ounces of petroleum

### 345.2 Tools

- Fireplace
- Bucket with hot water

### 345.3 Instructions

1. Hold **31.64 ounces of lubrication** briefly into the fireplace to burn them a bit.
2. Fan the flames of the fireplace.
3. Dip **31.64 ounces of slightly burned lubrication** into the bucket with hot water.
4. Put **31.64 ounces of slightly burned and wet lubrication** into the fireplace.
5. Wait.
6. Put **12.17 ounces of petroleum** into the fireplace.
7. Retrieve the **37.38 spoonful of ashes of "slightly burned and wet lubrication and petroleum"** from the fireplace.
8. Fold the **37.38 spoonful of ashes of "slightly burned and wet lubrication and petroleum"** together using advanced origami techniques.
9. If you've done it correctly, it might result in a **vaseline**.

## 346 A vice

How to make a **vice** in 5 easy steps:

### 346.1 Materials

- 14.25 spoonful of virtue
- 6 grips
- 4.2 ounces of clamp

### 346.2 Tools

- Saw
- Bucket with clean water

### 346.3 Instructions

1. Use the saw to slice **6 grips** into bits.
2. Dip **14.25 spoonful of virtue** into the bucket with clean water.
3. Wait.
4. Fold the **14.25 spoonful of wet virtue**, **6 sliced grips** and **4.2 ounces of clamp** together using advanced origami techniques.
5. If you've done it correctly, it should result in a **vice**.

## 347 A victim

How to make a **victim** in 9 easy steps:

### 347.1 Materials

- 7.46 ounces of guiltlessness
- 2.36 spoonful of accident
- 6.71 ounces of accuser
- 10 clear concepts of suspect

### 347.2 Tools

- Centrifuge

### 347.3 Instructions

1. Put **2.36 spoonful of accident** into the rotating centrifuge.
2. Speed up the centrifuge.
3. Stop the centrifuge and retrieve the **8.25 ounces of centrifuged mixture "accident"**.
4. Put **8.25 ounces of centrifuged mixture "accident"** into the rotating centrifuge.
5. Put **7.46 ounces of guiltlessness** into the rotating centrifuge.
6. Stop the centrifuge and retrieve the **13.99 spoonful of centrifuged mixture "centrifuged mixture "accident" and guiltlessness"**.
7. Put **6.71 ounces of accuser** into the rotating centrifuge.
8. Fold the **10 clear concepts of suspect** and **13.99 spoonful of centrifuged mixture "centrifuged mixture "accident" and guiltlessness"** together using advanced origami techniques.
9. If you've done it correctly, it could result in a **victim**.

## 348 A volt

How to make a **volt** in 7 easy steps:

### 348.1 Materials

- 95 shocks
- 1.41 ounces of electricity
- 73.26 ounces of watt
- 2 amps

### 348.2 Tools

- Fireplace
- Centrifuge
- Stone
- Nails

### 348.3 Instructions

1. Hold **2 amps** briefly into the fireplace to burn them a bit.
2. Put **1.41 ounces of electricity** into the rotating centrifuge.
3. Put **2 slightly burned amps** into the rotating centrifuge.
4. Crack **73.26 ounces of watt** with the stone.
5. Hold **95 shocks** briefly into the fireplace to burn them a bit.
6. Stop the centrifuge and retrieve the **4.69 spoonful of centrifuged mixture "electricity and slightly burned amp"**.
7. Use nails to join the **95 slightly burned shocks, 73.26 ounces of cracked watt** and **4.69 spoonful of centrifuged mixture "electricity and slightly burned amp"** together into the form of a beautiful **volt**.

## 349 A waffles

How to make a **waffles** in 9 easy steps:

### 349.1 Materials

- 3.85 ounces of pancakes
- 23.02 spoonful of syrup

### 349.2 Tools

- Container
- Purifier
- Bonfire
- Mortar

### 349.3 Instructions

1. Fan the flames of the bonfire.
2. Purify **23.02 spoonful of syrup** with the purifier.
3. Crack **23.02 spoonful of purified syrup** with the mortar.
4. Heat the container.
5. Wait for a rather short time.
6. Fan the flames of the bonfire.
7. Heat the container.
8. Dump the **3.85 ounces of pancakes** and **23.02 spoonful of purified and cracked syrup** into a pile on the floor.
9. Wait until they magically transform into a **waffles**.

## 350 A warrior

How to make a **warrior** in 7 easy steps:

### 350.1 Materials

- 2 fighters
- 7 weekends
- 5 vikings
- 1 clear concept of being brave

### 350.2 Tools

- Hammer
- Vessel
- Purifier
- Screws

### 350.3 Instructions

1. Purify **2 fighters** with the purifier.
2. Crack **5 vikings** with the hammer.
3. Let the vessel cool down.
4. Put **2 purified fighters** into the vessel.
5. Crack **7 weekends** with the hammer.
6. Pour out the mixture from the vessel to get the **1.26 spoonful of vessel mixture "purified fighter"**.
7. Use screws to join the **7 cracked weekends, 5 cracked vikings, 1 clear concept of being brave** and **1.26 spoonful of vessel mixture "purified fighter"** together into the shape of a passable **warrior**.

## 351 A weapon

How to make a **weapon** in 7 easy steps:

### 351.1 Materials

- 1.2 spoonful of pistol
- 7.86 ounces of gun
- 12 swords
- 3 daggers

### 351.2 Tools

- Bonfire
- Hammer

### 351.3 Instructions

1. Hold **1.2 spoonful of pistol** briefly into the bonfire to burn them a bit.
2. Wait for an hour.
3. Fan the flames of the bonfire.
4. Smash **3 daggers** with the hammer.
5. Wait for 3 days.
6. Dump the **1.2 spoonful of slightly burned pistol**, **7.86 ounces of gun**, **12 swords** and **3 smashed daggers** into a pile on the floor.
7. Wait until they magically transform into a **weapon**.

## 352 A wife

How to make a **wife** in 11 easy steps:

### 352.1 Materials

- 29 clear concepts of marry
- 9.37 spoonful of daughter
- 16.11 spoonful of spouse
- 28 bosses

### 352.2 Tools

- Saw
- Pet cat
- Bonfire
- Container
- Freezer

### 352.3 Instructions

1. Let the container cool down.
2. Pet your pet cat.
3. Put **9.37 spoonful of daughter** into the container.
4. Put **28 bosses** into the freezer for a while.
5. Put **28 cooled bosses** into the bonfire.
6. Put **29 clear concepts of marry** into the container.
7. Use the saw to slice **16.11 spoonful of spouse** into bits.
8. Retrieve the **6.93 spoonful of ashes of "cooled boss"** from the bonfire.
9. Pour out the mixture from the container to get the **9.71 ounces of container mixture "daughter and marry"**.
10. Fold the **16.11 spoonful of sliced spouse, 6.93 spoonful of ashes of "cooled boss" and 9.71 ounces of container mixture "daughter and marry"** together using advanced origami techniques.
11. If you've done it correctly, it might result in a **wife**.

## 353 A wire

How to make a **wire** in 11 easy steps:

### 353.1 Materials

- 5.1 spoonful of hanger
- 6.95 ounces of cable
- 6.27 ounces of fence
- 8.86 spoonful of conductor

### 353.2 Tools

- Saw
- Fireplace
- Stone
- Charcoal pencil

### 353.3 Instructions

1. Put **8.86 spoonful of conductor** into the fireplace.
2. Use the saw to slice **6.95 ounces of cable** into bits.
3. Hold **6.27 ounces of fence** briefly into the fireplace to burn them a bit.
4. Crack **6.27 ounces of slightly burned fence** with the stone.
5. Retrieve the **4.21 ounces of ashes of "conductor"** from the fireplace.
6. Wait for a long time.
7. Crack **6.27 ounces of slightly burned and cracked fence** with the stone.
8. Draw a magic circle on the floor using the charcoal pencil.
9. Draw a cross into the circle and place **5.1 spoonful of hanger, 6.95 ounces of sliced cable, 6.27 ounces of slightly burned and crushed fence** and **4.21 ounces of ashes of "conductor"** on each corner.
10. Chant the following spell: "Synedilanum!"
11. Suddenly, a **wire** will appear inside the circle.

## 354 A wolf

How to make a **wolf** in 14 easy steps:

### 354.1 Materials

- 3 creatures
- 8 fang
- 6.87 spoonful of fox
- 180 wildnesses

### 354.2 Tools

- Purifier
- Fireplace
- Stone
- Container
- Bucket with ionised water
- Freezer
- Electric paint

### 354.3 Instructions

1. Smash **3 creatures** with the stone.
2. Fan the flames of the fireplace.
3. Purify **3 smashed creatures** with the purifier.
4. Put **8 fang** into the fireplace.
5. Put **180 wildnesses** into the freezer for a while.
6. Dip **3 smashed and purified creatures** into the bucket with ionised water.
7. Stir the container.
8. Hold **180 cooled wildnesses** briefly into the fireplace to burn them a bit.
9. Smash **180 cooled and slightly burned wildnesses** with the stone.
10. Retrieve the **16.35 spoonful of ashes of "fangs"** from the fireplace.

11. Draw a magic circle on the floor using the electric paint.
12. Draw a cross into the circle and place **3 smashed, purified and wet creatures, 6.87 spoonful of fox, 180 cooled, slightly burned and smashed wildnesses** and **16.35 spoonful of ashes of "fangs"** on each corner.
13. Whisper the following spell: "Furo dis experaphita!"
14. Reluctantly, a **wolf** will appear inside the circle.

## 355 A wreck

How to make a **wreck** in 13 easy steps:

### 355.1 Materials

- 5.03 spoonful of havoc
- 43 crashes
- 4.9 spoonful of accident
- 9.52 ounces of drive

### 355.2 Tools

- Bonfire
- Cauldron

### 355.3 Instructions

1. Wait.
2. Stir the cauldron.
3. Put **4.9 spoonful of accident** into the bonfire.
4. Let the cauldron cool down.
5. Wait.
6. Heat the cauldron.
7. Put **43 crashes** into the bonfire.
8. Put **5.03 spoonful of havoc** into the cauldron.
9. Fan the flames of the bonfire.
10. Pour out the mixture from the cauldron to get the **2.31 spoonful of cauldron mixture "havoc"**.
11. Retrieve the **21.18 ounces of ashes of "accident and crash"** from the bonfire.
12. Fold the **9.52 ounces of drive, 2.31 spoonful of cauldron mixture "havoc"** and **21.18 ounces of ashes of "accident and crash"** together using advanced origami techniques.
13. If you've done it correctly, it might result in a **wreck**.

## 356 A yacht

How to make a **yacht** in 12 easy steps:

### 356.1 Materials

- 35 boats
- 1 idea of sailing

### 356.2 Tools

- Container
- Centrifuge
- Bonfire
- Familiar cat

### 356.3 Instructions

1. Fan the flames of the bonfire.
2. Put **35 boats** into the rotating centrifuge.
3. Let the container cool down.
4. Heat the container.
5. Put **1 idea of sailing** into the container.
6. Pet your familiar cat.
7. Stir the container.
8. Let the container cool down.
9. Pour out the mixture from the container to get the **79.76 spoonful of container mixture "sailing"**.
10. Stop the centrifuge and retrieve the **1.6 ounces of centrifuged mixture "boat"**.
11. Dump the **79.76 spoonful of container mixture "sailing"** and **1.6 ounces of centrifuged mixture "boat"** into a pile on the floor.
12. Wait until they magically transform into a **yacht**.

## 357 A yearly

How to make a **yearly** in 12 easy steps:

### 357.1 Materials

- 5.4 ounces of tradition
- 4 ideas of being annual
- 6 ideas of being monthly

### 357.2 Tools

- Centrifuge
- Purifier

### 357.3 Instructions

1. Put **4 ideas of being annual** into the rotating centrifuge.
2. Put **6 ideas of being monthly** into the rotating centrifuge.
3. Stop the centrifuge and retrieve the **9.2 ounces of centrifuged mixture "being annual and being monthly"**.
4. Put **9.2 ounces of centrifuged mixture "being annual and being monthly"** into the rotating centrifuge.
5. Put **5.4 ounces of tradition** into the rotating centrifuge.
6. Stop the centrifuge and retrieve the **41.95 spoonful of centrifuged mixture "centrifuged mixture "being annual and being monthly" and tradition"**.
7. Wait.
8. Purify **41.95 spoonful of centrifuged mixture "centrifuged mixture "being annual and being monthly" and tradition"** with the purifier.
9. Put **41.95 spoonful of purified centrifuged mixture "centrifuged mixture "being annual and being monthly" and tradition"** into the rotating centrifuge.
10. Stop the centrifuge and retrieve the **5.23 spoonful of centrifuged mixture "purified centrifuged mixture "centrifuged mixture "being annual and being monthly" and tradition"**.

11. Dump the **5.23** spoonful of centrifuged mixture "**purified centrifuged mixture "centrifuged mixture "being annual and being monthly" and tradition"**" into a pile on the floor.
12. Wait until they magically transform into a **yearly**.

## 358 A yellow

How to make a **yellow** in 7 easy steps:

### 358.1 Materials

- 6 squashes
- 9 mellowings
- 6 clear concepts of being pale
- 3.62 ounces of tarnish

### 358.2 Tools

- Vessel
- Hammer
- Bucket with clean water

### 358.3 Instructions

1. Dip **9 mellowings** into the bucket with clean water.
2. Wait.
3. Smash **6 clear concepts of being pale** with the hammer.
4. Put **6 squashes** into the vessel.
5. Pour out the mixture from the vessel to get the **6.4 ounces of vessel mixture "squash"**.
6. Fold the **9 wet mellowings, 6 smashed clear concepts of being pale, 3.62 ounces of tarnish** and **6.4 ounces of vessel mixture "squash"** together using advanced origami techniques.
7. If you've done it correctly, it could result in a **yellow**.

## 359 A you

How to make a **you** in 9 easy steps:

### 359.1 Materials

- 16.38 ounces of without
- 12.91 spoonful of for
- 9 ideas of being damn
- 1.91 ounces of screw

### 359.2 Tools

- Purifier
- Vessel
- Ballpoint pen

### 359.3 Instructions

1. Put **12.91 spoonful of for** into the vessel.
2. Pour out the mixture from the vessel to get the **3.63 ounces of vessel mixture "for"**.
3. Purify **1.91 ounces of screw** with the purifier.
4. Heat the vessel.
5. Let the vessel cool down.
6. Draw a magic circle on the floor using the ballpoint pen.
7. Draw a square into the circle and place **16.38 ounces of without, 9 ideas of being damn, 1.91 ounces of purified screw** and **3.63 ounces of vessel mixture "for"** on each corner.
8. Chant the following spell: "Fundeflo! Adfeclinasco incubi decemptachia puticius immundata, simpleborius rebia!"
9. Reluctantly, a **you** will appear inside the circle.
